A Dictionary of Accounting - Jonathan Law 2016-09-22

This best-selling dictionary includes more than 3,800 entries covering all aspects of accounting, including financial accounting, financial reporting, management accounting, taxation, auditing, corporate finance, and accounting bodies and institutions. Its international coverage includes important terms from UK, US, Australia, India, and Asia-Pacific. Over 150 new entries have been added to this edition to reflect the very latest developments in the accounting profession, e.g. Accounting Council, European Financial Stability Mechanism, and General Anti-Abuse Rule. In addition, existing entries have been updated to cover the latest developments, most notably the Financial Reporting Standard Applicable in the UK and the Republic of Ireland, which sets out new rules in areas such as goodwill, hedge accounting, and fair value accounting. There is increased coverage of topics such as corporate governance, accounting ethics, accounting scandals, and major firms and professional bodies. With its authoritative and accessible definitions and its wide-ranging coverage, this dictionary is essential for students and professionals in accounting and finance. It is also an ideal source of reference for anyone seeking a clear guide to the often-confusing world of accountancy terms.

Financial Accounting for Management: An Analytical Perspective - Ambrish Gupta

Financial Accounting for Management: An Analytical Perspective focuses on the analysis and interpretation of financial information for strategic decision making to enable students and managers to formulate business strategies for revenue enhancement, cost economies, efficiency improvements, restructuring of operations, and further expansion or diversification for creating and enhancing the shareholder's value. MBA, MFC and MBE students are its primary audience but its practical orientation will also be useful to corporate sector managers and CA, CWA, CS, CFA and CAIIB students.

CREATING AN INCLUSIVE SCHOOL - MANGAL, S. K. 2019-07-01

With the proclamation of human rights and impact of the philosophy of humanism, there has been a worldwide call for providing humane treatment to the disabled and putting an end to their isolation. Written in the same context, the book developed as per the issued directives of NCTE equips its readers with the knowledge, understanding, skills, interests and attitude needed for working in the inclusive schools. It acquaints them with all the essentials related to the nature of the different types of disabilities or impairments, diversities and exceptionalities of the children belonging to an inclusive school, the need and means of introducing the required

adaptations in the environmental conditions, curriculum, teaching-learning strategies, teaching-learning aids and equipment, methods of assessing the progress of the diverse children, and likewise so many other things and requirements for fulfilling their responsibilities towards the diverse children in the inclusive set-up of the school. It is primarily designed for the students of secondary and elementary teacher education (B.Ed., B.El. Ed., D.Ed.) of the teacher training institutes. KEY FEATURES • Full coverage of the current syllabi prescribed for B. Ed., B. El. Ed. and D. Ed. in a user-friendly language • Comprehensive description of the various aspects of inclusive education and children with special needs (CWSN) such as historical perspectives to disability and inclusive education, needed pedagogical and assessment approaches for CWSN, educational provisions for the disabled at national and international levels, and so forth • Inclusion of recent topics such as learning styles in the context of different types of disabilities and CWSN, forms of exclusions on various grounds including disabilities in Indian education, approaches and models of inclusion, individual education programme, assistive and adaptive technologies, and so on • Comprises chapter-end summary for quick glance of the concepts TARGET AUDIENCE • B.Ed. • B. El. Ed. • D.Ed.

Risk Management - William H. Beaver 1995

Collects essays on the multidimensional aspects of risk management.

Statistics for Management - Richard I. Levin 2013-11-01

Appropriate for one or two term courses in introductory Business Statistics. With Statistics for Management, Levin and Rubin have provided a non-intimidating business statistics textbook that students can easily read and understand. Like its predecessors, the Seventh Edition includes the absolute minimum of mathematical/statistical notation necessary to teach the material. Concepts are fully explained in simple, easy-to-understand language as they are presented, making the text an excellent source from which to learn and teach. After each discussion, readers are guided through real-world examples to show how textbook principles work in professional practice.

Fundamentals of Management - Danny Samson 2014

Along with current management theory and practice, the texts integrate coverage of social media and new technology throughout. This fifth edition includes new emphases on Entrepreneurship and Innovation, a growing area of importance and interest in management studies and the foregrounding of management as an Integrative Practice. There will be linkages of topics within and across chapters, reflective of management as it occurs. There will also be a continued emphasis on environmental issues and sustainability.

PROJECT APPRAISAL AND FINANCING - AMBRISH GUPTA 2017-01-01

The era of nineties has created a new breed of entrepreneurs whose quest for finance is unending. The lending institutions, on the other hand, have become choosy due to, among other reasons, mounting Non-performing Assets (NPAs). All this has led to increased pressure on the availability of finance to the entrepreneurs. In this setting, careful consideration of Project Appraisal and Financing holds the key to survival. Designed in this context, the book begins with explaining the project's fundamentals—features, identification, and project life cycle. It goes on to explain and analyze project formulation, appraisal of promoters and management, market

appraisal, technical appraisal, financial appraisal, project report, institutional risk assessment and financing decision. The book also focuses on the concepts of project management, overruns, post-completion performance evaluation and contemporary issues like infrastructural financing, and environmental impact assessment. All through the book, the emphasis is on critical analysis and decision-making. Primarily intended for the students of MBA/PGDM/PGDBM and other allied courses such as MFC and MBE, the book will also be of immense value to the students of CA, CWA, CS, CFA, CPA and CAIIB. Besides, it will be equally beneficial for the executive development and in-company training programmes on project appraisal and financing. Project finance executives in consulting firms and lending institutions and banks will also be benefited from the book due to its practical orientation. KEY FEATURES • Highlights the text from practitioner's perspective. • Written in a lecture mode and conversational style; classroom simulative. • Large number of illustrations, exercises and case studies. • Systematic and organized coverage of a full-fledged manufacturing project, including 10 years' financial projections integrated with the text throughout the book. Contemporary issues like infrastructure financing and environmental impact assessment. Unique pedagogical features, as explained in the 'Visual Tour of the Book' section. Chapter-wise PPTs and Solutions Manual available, on demand, for instructors adopting the book.

Strategic Management and Business Policy - Thomas L. Wheelen 1998

Financial Management - Eugene F. Brigham 2002

Intended for use in an introductory finance course, this textbook emphasizes the skills needed to make good financial decisions. It outlines fundamental concepts and provides detailed discussions of topics like securities, corporate valuation, strategic investment, and working capital management. Two CD-ROMs contain displays, tools kits, models, files, spreadsheets, and reference materials. Brigham teaches at the University of Florida. Ehrhardt teaches at the University of Tennessee. Distributed by ISBS. c. Book News Inc.

Statistics for Managers Using Microsoft Excel - David M. Levine 2011

Analyze the data, see the business relevance. Reducing the emphasis on doing computations, this practical text thoroughly integrates Microsoft® Excel as a tool for analysis and presents statistical concepts in the context of the functional areas of business. The sixth edition focuses on making statistics even more relevant to the business world and builds on the book's hallmark feature of helping readers with the analysis of statistics.

Financial Management - Course Technology, Inc 2002

Advanced Financial Management is so imperative in running a successful organization.

Improving Profitability - 1977

Logical Reasoning and Data Interpretation for the CAT - Nishit K Sinha 2016

This book over the years has proved to be a great architect in shaping student's ability to master Logical Reasoning and Data Interpretation for CAT examination. The fifth edition covers all the fundamental and advanced topics, supported by ample number of worked out examples, caselets, and exercises. It also provides clarity and knowledge of the concepts and questions that are asked in various MBA entrance examinations such as XAT, SNAP, IIFT, IRMA, MAT, NMAT, etc.

International Biographies: Asia, Australia, and Oceania - Mary Anne Anderson 1992

Empahsizing an active and creative instructional approach, the cross-disciplinary units interweave English/language arts, mathematics, science, music, art, and other disciplines with the organizing strand of social science content.

Corporate Social Responsibility and Governance - Samuel O. Idowu 2014-11-27

This book deals with the role of international standards for corporate governance in the context of corporate social responsibility. Based on the fundamentals of moral theory, the book examines governance and CSR in general, addressing questions such as: Is "good governance" not affected by moral concerns? How do the principles and practices of CSR standards adhere to or

conflict with insights from business ethics and moral theory? To what extent do the standards and governance models provide normative guidance? Do the standards and governance guidelines provide an adequate means of benchmarking and auditing? Are these standards a help or a hindrance to stakeholder engagement and transparency? The book provides insightful and thought-provoking answers to these and many other important questions concerning CSR standards, and offers a valuable resource for practitioners, academics and students at business schools and other institutions.

International Human Resource Management - Nilanjan Sengupta 2007

In today's era of International business, International Human Resource Management (IHRM) is emerging as a crucial factor since organizations are run by people. What is interesting in this phenomenon is, not only that there are differences in people across the countries, but even within a country or regions within it. This complex socio-cultural and psychological fabric coupled with historical, geographic, economic and political factors, creates certain boundary conditions and makes IHRM a very complex process. The intention of this book is to portray the various factors that are connected with managing Human Resources in International Business. Since the two are inseparable, any organization aspiring to participate as a player in international business must develop the knowledge, skills and acumen to perceive the subtle nuances that govern the rules of game. IHRM as a discipline cuts across all other business operations in the international context and plays a vital role in the success or failure of a business venture since, businesses are essentially driven by people. In the light of the above, this book has sought to address some of the issues that relate to IHRM, which need to be logically understood by any keen observer of international business, today. The approach of this book has been to detail IHRM both, in terms of a function, as well as a process and the factors or key elements that are attached to them. To make this book reader-friendly, chapter highlights have been added at the beginning of each chapter to facilitate the reader to identify the broader areas that may be learnt from a particular chapter. Each chapter also contains detailed references and key terms. Conceptual questions, multiple choices, web-based exercises are some of the additional features of the book. Relevant diagrammatic representation, relevant case study and list of web references have been also added in this book.

SOLVED PAPERS - YCT EXPERT TEAM

2021-22 Airports Authority of India Junior Executive SOLVED PAPERS

Quantitative Techniques And Methods - Shashi Kumar 2010-09-01

Introduction to Cryptography and Network Security - Behrouz A. Forouzan 2008

In this new first edition, well-known author Behrouz Forouzan uses his accessible writing style and visual approach to simplify the difficult concepts of cryptography and network security. While many security books assume knowledge of number theory and advanced math, or present mainly theoretical ideas, Forouzan presents difficult security topics from the ground up. A gentle introduction to the fundamentals of number theory is provided in the opening chapters, paving the way for the student to move on to more complex security and cryptography topics. Difficult math concepts are organized in appendices at the end of each chapter so that students can first learn the principles, then apply the technical background. Hundreds of examples, as well as fully coded programs, round out a practical, hands-on approach which encourages students to test the material they are learning.

A TEXTBOOK OF ENGINEERING CHEMISTRY - SYAMALA SUNDAR DARA 2008

Any good text book, particularly that in the fast changing fields such as engineering & technology, is not only expected to cater to the current curricular requirements of various institutions but also should provide a glimpse towards the latest developments in the concerned subject and the relevant disciplines. It should guide the periodic review and updating of the curriculum.

Agribusiness Management - Freddie L. Barnard 2012

Agribusiness Management uses four specific approaches to help readers develop and enhance their capabilities as agribusiness managers. First, this edition of the book offers a contemporary focus that reflects the issues that agribusiness managers face both today and are likely to face tomorrow. Specifically, food sector firms and larger agribusiness firms receive more attention in this edition, reflecting their increasing importance as employers of food and agribusiness program graduates. Second, the book presents conceptual material in a pragmatic way with illustrations and examples that will help the reader understand how a specific concept works in practice. Third, the book has a decision-making emphasis, providing contemporary tools that readers will find useful when making decisions in the contemporary business environment. Finally, Agribusiness Management offers a pertinent set of discussion questions and case studies that will allow the reader to apply the material covered in real-world situations.

Process Planning and Cost Estimation - R. Kesavan 2009

Quantitative Techniques - P. C. Tulsian 2006

Quantitative Techniques: Theory and Problems adopts a fresh and novel approach to the study of quantitative techniques, and provides a comprehensive coverage of the subject. Essentially designed for extensive practice and self-study, this book will serve as a tutor at home. Chapters contain theory in brief, numerous solved examples and exercises with exhibits and tables.

Quantitative Techniques for Management - S. Jaisankar 2009

This book has been developed with a focus on the need to demystify the subject and make it easy for students to grasp the principles and details involved, and make it easily understandable to beginners exposed to the subject for the first time. An attempt has been made to explain things

in a logical progression, in the simplest possible way so that neophytes may quickly grasp the concepts and methodology. A novel approach in the book is the illustrative use of computers with TORA package, as a problem-solving tool. In actual practice, situations arise with large and complex problems that are difficult to solve. At such times, using computers to solve problems gives fast and more accurate results. The chapters are arranged so as to progressively explain the workings of various models in actual practice through step-by-step procedures that so simplify and solve them, that even students from a non-mathematics academic background will grasp them quickly. Linear programming, the most powerful tool for managerial decision-making is covered elaborately, including thorough discussion of various LP methods and LP solutions, Duality in LP problems, sensitivity analysis, etc. Models in the book also use Linear Programming to reach solutions including those relating to transportation and transshipment, assignment, and Game Theory&illustrated with screen-shots of a computer with a TORA package. Readers whether students, business executives, managers, researchers and academicians will find that the insights and knowledge obtained from the book will stand them in good stead in both academic as well as occupational pursuits.

Management of Change and Innovation - Bengt-Arne Vedin 1994

This work on change and innovation covers, among other topics, the strategic management of uncertainty; the third dimension of leadership; managing corporate development; culture as an invisible barrier to strategic change; implementing innovation; and the acceleration trap.

Cross-cultural Management - Terence Jackson 1995

Transcultural management ; Management styles ; Intercultural communication.

Retailing Management - Michael Levy 2014-03

Investment Analysis and Portfolio Management - Frank K. Reilly 2006

The purpose of this text is to help the student learn how to manage their money to derive the maximum benefit from what they earn. Mixing investment instruments and capital markets with the theoretical detail on evaluating investments and opportunities to satisfy risk-return objectives along with how investment practice and theory is influenced by globalization. The material is intended to be rigorous and empirical yet not overly quantitative. Reilly/Brown provides the best foundation, used extensively by professionals, organizations, and schools across the country. A great source for those with both a theoretical and practical need for investment expertise.

Performance Basics - Joe Willmore 2004

Human Performance Improvement (HPI) is a growing area of expertise among workplace learning professionals. This book provides a basic guide for those with little or no background in HPI and presents only the information you need to know to be successful and gain a foothold in this important discipline. You will find practical examples, checklists, and other tools to aid in understanding as you move along the path to becoming a valued HPI practitioner in your organization.

ACCOUNTING FOR MANAGERS - JELSY JOSEPH KUPPAPALLY 2008-08-08

Decision-making is a pivotal function of any manager. A knowledge of Accounting, insofar as it affects decision-making, is very important for a manager. And very often, students find Accounting as one of the 'tough' subjects to handle. This book strives to make Accounting intelligible and easily comprehensible to students. The text gives a comprehensive coverage of the three branches of Accounting - Financial Accounting, Management Accounting, and Cost Accounting. It focuses on the various methods and techniques followed in the Management Reporting System. The text deals, in detail, with various accounting transaction procedures, methods of costing, ratio analysis, budgeting, forecasting, accounting errors, funds flow and cash flow statements, trial balance and balance sheet, and so on. It equips the students with the knowledge in the preparation, analysis, evaluation, and interpretation of financial statements, which will enrich their managerial competence and decision-making skills. KEY FEATURES □

Emphasises the various accounting and decision-making techniques. □ Provides a number of problems and their solutions, besides giving notes, working notes, and exercises, to help the students understand the concepts better. This book is intended as a text for the postgraduate students of Management (MBA/MIB), financial courses (MFC), and undergraduate and postgraduate students of Commerce and those pursuing MCA. In addition, the book will be very useful to practising managers who wish to develop effective and result-oriented decision-making skills.

Quantitative Analysis For Management - Render 2008-02

The Pearson Guide to CET: MBA Maharashtra - Thorpe

The meticulously designed The Pearson Guide to CET: MBA Maharashtra caters to the needs of students yearning to crack this test. This book deals with all the sections that are tested in the real examination and has a to-the-point approach. Study material of the book is easy-to-understand and based on the trends of previous years' question papers making it all the more authentic.
