Underdogs - Zach Berman 2018-10-30

Following a season with incredible highs and heartbreaking lows, the Philadelphia Eagles went on to do what fans had all but written off as impossible: for the first time in the franchise's history, Philly won a Super Bowl. Philadelphia Inquirer Eagles beat reporter Zach Berman takes fans on a journey through the action-packed season -- from the preseason and midseason player pickups that shaped a championship team to the gut-wrenching injury of star quarterback Carson Wentz through to the bold play calling and nail-biting moments in Super Bowl LII, in which the Eagles bested the favored-to-win New England Patriots. A book unique in its scope and insight thanks to Berman's on-the-ground reporting, *Underdogs* will detail the unlikely story that captured national attention; explain how the team resonated among a desperate fan base that waited 57 years for a championship; and even delve into the players' social activism during a particularly political NFL season. With a foreword by beloved Philadelphia radio announcer Merrill Reese and an 8-page full-color photo insert, it's the perfect keepsake item for anyone who bleeds green. During his six years covering the Birds, Berman has developed relationships with some of the most notable characters that led the team to Super Bowl victory. In *Underdogs*, he'll explain why Nick Foles contemplated retirement on his way to winning Super Bowl MVP. He'll detail Howie Roseman's journey to NFL executive of the year after being cast aside by former coach Chip Kelly. He'll show Malcolm Jenkins' journey to

team captain, how Chris Long's life changed in a Tanzania hotel bar, why Eagles kicker Jake Elliott didn't consider football until he was chosen at random at a high school pep rally, and where Carson Wentz ate dinner the night before he left for the NFL Draft. These more obscure stories offer incredible context and depth to an already fascinating story of success against the odds.

Literacy Is Liberation - Kimberly N. Parker 2022-02-25

Literacy is the foundation for all learning and must be accessible to all students. This fundamental truth is where Kimberly Parker begins to explore how culturally relevant teaching can help students work toward justice. Her goal is to make the literacy classroom a place where students can safely talk about key issues, move to dismantle inequities, and collaborate with one another. Introducing diverse texts is an essential part of the journey, but teachers must also be equipped with culturally relevant pedagogy to improve literacy instruction for all. In *Literacy Is Liberation*, Parker gives teachers the tools to build culturally relevant intentional literacy communities (CRILCs) with students. Through CRILCs, teachers can better shape their literacy instruction by \* Reflecting on the connections between behaviors, beliefs, and racial identity. \* Identifying the characteristics of culturally relevant literacy instruction and grounding their practice within a strengths-based framework. \* Curating a culturally inclusive library of core texts, choice reading, and personal reading, and teaching inclusive texts with confidence. \*

Developing strategies to respond to roadblocks for students, administrators, and teachers. \* Building curriculum that can foster critical conversations between students about difficult subjects—including race. In a culturally relevant classroom, it is important for students and teachers to get to know one another, be vulnerable, heal, and do the hard work to help everyone become a literacy high achiever. Through the practices in this book, teachers can create the more inclusive, representative, and equitable classroom environment that all students deserve.

*My First Trip to Africa* - Atlantis Tye Browder  
1991

Approved for use in New York City's School System two months after publication, MY FIRST TRIP TO AFRICA is the collaborative effort of 8-year-old Atlantis & her father Anthony Browder, author of "From The Browder File, 22 Essays on the African American Experience." MY FIRST TRIP TO AFRICA chronicles the experience of then 7-year-old Atlantis during a 13-day study tour to Egypt in November, 1989. It contains a Parent/Teacher Guide, 27 photographs, 15 illustrations, 3 maps & a 42 word glossary. The Parent/Teacher Guide is an aid providing topics of discussion for children in the classroom, at the dinner table or at bedtime; including activities designed to stimulate a better understanding of all the topics referenced in the narrative. This narrative written specifically for children, will assist them in understanding aspects of personal, world & African history. MY FIRST TRIP TO AFRICA makes good reading for children & adults alike. "Uniquely written from a child's perspective, encompassing historical facts/information every African American of any age should know."--The Capitol Spotlight. "Atlantis's reflections were teamed with photographs taken by Atlantis, her father & her grandmother."--The Washington Post. "...filled with pictures of the historical legacy of Kemet, along with American edifices reminiscent of Ancient Egyptian architecture."--Washington Afro-American.

*A Knock at Midnight* - Brittany K. Barnett  
2020-09-08

LOS ANGELES TIMES BOOK PRIZE FINALIST • NAACP IMAGE AWARD NOMINEE • A "powerful and devastating" (The Washington Post) call to free those buried alive by America's legal system, and an inspiring true story about unwavering belief in humanity—from a gifted young lawyer and important new voice in the movement to transform the system. "An essential book for our time . . . Brittany K. Barnett is a star."—Van Jones, CEO of REFORM Alliance, CNN Host, and New York Times bestselling author Brittany K. Barnett was only a law student when she came across the case that would change her life forever—that of Sharanda Jones, single mother, business owner, and, like Brittany, Black daughter of the rural South. A victim of America's devastating war on drugs, Sharanda had been torn away from her young daughter and was serving a life sentence without parole—for a first-time drug offense. In Sharanda, Brittany saw haunting echoes of her own life, as the daughter of a formerly incarcerated mother. As she studied this case, a system came into focus in which widespread racial injustice forms the core of America's addiction to incarceration. Moved by Sharanda's plight, Brittany set to work to gain her freedom. This had never been the plan. Bright and ambitious, Brittany was a successful accountant on her way to a high-powered future in corporate law. But Sharanda's case opened the door to a harrowing journey through the criminal justice system. By day she moved billion-dollar deals, and by night she worked pro bono to free clients in near hopeless legal battles. Ultimately, her path transformed her understanding of injustice in the courts, of genius languishing behind bars, and the very definition of freedom itself. Brittany's riveting memoir is at once a coming-of-age story and a powerful evocation of what it takes to bring hope and justice to a system built to resist them both. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY KIRKUS REVIEWS

**Melanin** - Richard D. King 2012-03-03

A Study of ancient African history reveals an early African definition of the human Melanin System as a whole body Black Melanin System that serves as the eye of the soul to produce

inner vision, true spiritual consciousness, creative genius, beatific vision, to become Godlike, and to have conversation with the immortals (Ancestors). The purpose of ancient African education was to provide knowledge and development of the will of the student that allowed salvation (freedom) of the soul from the fetters (chains) of the physical body (George G. M. James, *Stolen Legacy*)  
*Melanin* - Richard D. King 2001

*Layers of Blackness* - Deborah Gabriel 2007  
This is the first book by an author in the UK to take an in-depth look at colourism - the process of discrimination based on skin tone among members of the same ethnic group, whereby lighter skin is more valued than darker complexions. The African Diaspora in Britain is examined as part of a global black community with shared experiences of slavery, colonization and neo-colonialism. The author traces the evolution of colourism within African descendant communities in the USA, Jamaica, Latin America and the UK from a historical and political perspective and examines its present impact on the global African Diaspora. This book is essential reading for educators and students and will appeal to anyone with an interest in the subject of race and identity who wants to understand why colourism - a psychological legacy of slavery still impacts people of African descent in the Diaspora today.

*Running That Doesn't Suck* - Lisa Jhung  
2019-07-09

Running doesn't have to suck. Ease yourself into a comfortable routine (promise!) with this hilarious and approachable guide to workouts and nutrition from an experienced athlete. We've all side-eyed the chipper runners jogging by in their short-shorts and "Fun Run"-finisher tops and felt a little envious. How do they get out there and do it every day? How did they become Runners? Though it's theoretically one of the most natural sports for humans, the general response to running tends to be, "It's hard. It sucks. I wish I could do it." If you want to enjoy running, this helpful and humorous guide will get you started, keep you going, and teach you to "embrace the suckiness" (Hint: You don't have to run at 6 a.m. and you definitely don't have to wear short-shorts). You'll also find body

maintenance tips, nutritional guidance, and running etiquette pointers. And, when you're feeling discouraged, Jhung's down-to-earth advice will help you stay motivated and confident. With smartly organized chapters that you can read in any order, this book includes insights from professional runners, sports psychologists, coaches, physical therapists, and Jhung's own two-decade writing and running career. Whether you're looking for inspiration or setting specific goals, this book has everything you need to get hooked on the sport.

### **The Stars and the Blackness Between Them**

- Junauda Petrus 2020-06-23

A Coretta Scott King Honor Book Told in two distinct and irresistible voices, Junauda Petrus's bold and lyrical debut is the story of two black girls from very different backgrounds finding love and happiness in a world that seems determined to deny them both. Port of Spain, Trinidad. Sixteen-year-old Audre is despondent, having just found out she's going to be sent to live in America with her father because her strictly religious mother caught her with her secret girlfriend, the pastor's daughter. Audre's grandmother Queenie (a former dancer who drives a white convertible Cadillac and who has

a few secrets of her own) tries to reassure her granddaughter that she won't lose her roots, not even in some place called Minneapolis. "America have dey spirits too, believe me," she tells Audre. Minneapolis, USA. Sixteen-year-old Mabel is lying on her bed, staring at the ceiling and trying to figure out why she feels the way she feels--about her ex Terrell, about her girl Jada and that moment they had in the woods, and about the vague feeling of illness that's plagued her all summer. Mabel's reverie is cut short when her father announces that his best friend and his just-arrived-from-Trinidad daughter are coming for dinner. Mabel quickly falls hard for Audre and is determined to take care of her as she tries to navigate an American high school. But their romance takes a turn when test results reveal exactly why Mabel has been feeling low-key sick all summer and suddenly it's Audre who is caring for Mabel as she faces a deeply uncertain future. Junauda Petrus's debut brilliantly captures the distinctly lush and lyrical voices of Mabel and Audre as they conjure a love that is stronger than hatred, prison, and death and as vast as the blackness between the stars.

**Jazzy Melanin** - Carol Barnes 1993-01-01

### **The Stone Thrower** - Jael Ealey Richardson

2016-05-01

The African-American football player Chuck Ealey grew up in a segregated neighborhood of Portsmouth, Ohio. Against all odds, he became an incredible quarterback. But despite his unbeaten record in high school and university, he would never play professional football in the United States. Chuck Ealey grew up poor in a racially segregated community that was divided from the rest of town by a set of train tracks, but his mother assured him that he wouldn't stay in Portsmouth forever. Education was the way out, and a football scholarship was the way to pay for that education. So despite the racist taunts he faced at all the games he played in high school, Chuck maintained a remarkable level of dedication and determination. And when discrimination followed him to university and beyond, Chuck Ealey remained undefeated. This inspirational story is told by Chuck Ealey's daughter, author and educator Jael Richardson, with striking and powerful illustrations by

award-winning illustrator Matt James.

An Imperfect God - Henry Wiencek 2013-11-12  
An Imperfect God is a major new biography of Washington, and the first to explore his engagement with American slavery. When George Washington wrote his will, he made the startling decision to set his slaves free; earlier he had said that holding slaves was his "only unavoidable subject of regret." In this groundbreaking work, Henry Wiencek explores the founding father's engagement with slavery at every stage of his life--as a Virginia planter, soldier, politician, president and statesman. Washington was born and raised among blacks and mixed-race people; he and his wife had blood ties to the slave community. Yet as a young man he bought and sold slaves without scruple, even raffled off children to collect debts (an incident ignored by earlier biographers). Then, on the Revolutionary battlefields where he commanded both black and white troops, Washington's attitudes began to change. He and the other framers enshrined slavery in the Constitution, but, Wiencek shows, even before he became president Washington had begun to see the system's evil. Wiencek's revelatory narrative, based on a meticulous examination of private papers, court records, and the voluminous Washington archives, documents for the first time the moral transformation culminating in Washington's determination to emancipate his slaves. He acted too late to keep the new republic from perpetuating slavery, but his repentance was genuine. And it was perhaps related to the possibility--as the oral history of Mount Vernon's slave descendants has long asserted--that a slave named West Ford was the son of George and a woman named Venus; Wiencek has new evidence that this could indeed have been true. George Washington's heroic stature as Father of Our Country is not diminished in this superb, nuanced portrait: now we see Washington in full as a man of his time and ahead of his time.

Black Skin, White Masks - Frantz Fanon 2017  
Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific

analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of There Ain't No Black in the Union Jack.

Emancipated From Mental Slavery - Marcus Garvey 2018-12-16  
Right now melanin, the aromatic biopolymer and organic semiconductor that makes Black people black is worth over \$380 a gram more than gold. In just a few short years, on August 13, 2020 the Red, Black and Green flag will be celebrated as the colors of all African people. We also know the song lyric "Emancipate yourself from mental slavery, none but ourselves can free our minds," commonly associated with Bob Marley, actually originated with Marcus Garvey. "We are going to emancipate ourselves from mental slavery, for though others may free the body, none but ourselves can free the mind." Those are the words Marcus Garvey spoke in either October or November 1937. The place? Menelik Hall in Sydney, Nova Scotia. This selection of sayings of the Honorable Marcus Mosiah Garvey, provides an introduction to the mind of a man capable of speaking words into existence which continue to have a profound impact on those who hear them to this very day. Marcus Garvey was a journalist, editor, publisher, as well as founder, and President-General of the Universal Negro Improvement Association (UNIA.) This book serves as an introduction to the philosophy which made his ideas known worldwide. Notable among them is the phrase which has come to many sung as a paraphrased lyric by Bob Marley. Its organic power and compelling urge for a new mental state among the human race can not seriously be denied. This book is a distillation of Garvey thought. The product of years studying the words works and deeds of a

man who left a legacy that is still so potent efforts continue to dissuade seekers of truth from his vision. Visit us on line at <http://www.keyamsha.com> to get the latest about Keyamsha, the Awakening.

**Daddy's Arms** - Fabian E. Ferguson 2018-08-31

This picture book is a sweet, uplifting celebration of a Black father and his child's imagination and underscores the power of a dad's loving presence in his child's life. *Daddy's Arms* is a fun children's book that tells the story of a little boy's adorable and amusing everyday interactions with his dad. Whether it's playtime, bath time, or bedtime, this wildly imaginative child has his dad's arms take center stage for every fantastic new adventure. This book celebrates the bond between father and child as well as the joys of fatherhood. Parents and guardians will certainly enjoy reading *Daddy's Arms* to kids, just as much as kids will enjoy listening to them.

II African Origin of Biological Psychiatry -

Richard D. King, M.d. 2012-03-01

*African Origin of Biological Psychiatry* produces data pertaining to the diagnosis of genetic predispositions of historical Blackness. World experts in science have always clashed in debating the origin of man however, a Geneticist from the University of California in Berkeley, using gene analysis, recently asserted that, "all modern races derived from an African Woman." As far as biochemist is concerned, the genetic evidence for evolution of modern people is so conclusive that the counter arguments have no validity. For most Americans and African Americans, the study of origins has been approached from a Eurocentric worldview. The effect of this worldview on African Americans has been the development of mental slavery. King's research brings provisions that may challenge the very existence of biological racism that European science established to control behavior. His research is in rhythm with Neely Fuller Jr's views on African American priorities *Melanin, the Master Molecule* - Arturo Solís Herrera 2018-06-04

Melanin is a biological molecule associated with pigmentation in humans and animals. However, melanin has been observed to have other functions such as neuroprotection and energy production. In *Melanin, the Master Molecule*,

researchers summarize several decades worth of knowledge on melanin and its physicochemical properties. Nine chapters explain the intrinsic biochemistry of melanin, comparisons with conventional energy producing and respiratory biomolecules, the property of melanin to transform light energy into chemical energy through the dissociation of the water molecule, and the theories of melanin based energy production in the nervous system, the cell nucleus, muscles and the eye, and the role the role of melanin in the context of ageing. The authors also delve into the possibility of melanin being the key molecule needed to spark life since its water dissociating property through the absorption of light energy emulates the role of chlorophyll, but unlike the latter, it is not limited to the plant cell environment. Hence, melanin is referred to as the master molecule which can provide a missing link to the biochemical processes behind the origin of life. *Melanin, the Master Molecule* is an exciting reference for biochemists and laymen interested in the science of melanin and a new perspective on the origin of life as we know it.

Ancient Future - Wayne B. Chandler 1999

*Ancient Future* celebrates the wisdom of those ancient civilizations that did not disassociate the philosophical, spiritual, and material realms of life. This book is an attempt to re-create this holistic experience in hopes that a synthesized view of life will become reality in the 21st century.

**Identitti** - Mithu Sanyal 2022-07-26

"A searing satire, one similar to those of Percival Everett or Paul Beatty.... Sanyal has created an exhaustively researched, entertaining, and timely novel about the ways social media and scandals dictate so much of the discourse about identity politics." —Starred review, Booklist Nivedita (a.k.a. Identitti), a well-known blogger and doctoral student is in awe of her supervisor—superstar postcolonial and race studies South-Asian professor Saraswati. But her life and sense of self are turned upside down when it emerges that Saraswati is actually white. Nivedita's praise of her professor during a radio interview just hours before the news breaks—and before she learns the truth—calls into question her own reputation as a young activist. Following the uproar, Nivedita is forced to reflect on the key moments in her life, when she doubted her identity and her place in the world. As debates on the scandal rage on social media, blogs, and among her closest friends, Nivedita's assumptions are called into question as she reconsiders the lessons she learned from her adored professor. In her thought-provoking, genre-bending debut, Mithu Sanyal solicited the contributions and commentary of public intellectuals as if Saraswati were a real person. A darkly comedic tour de force, Identitti showcases the outsized power of social media in the current debates about identity politics and the power of claiming your own voice.

Dark Light Consciousness - Edward Bruce

Bynum 2012-06-19

How to awaken the Ureaus--the serpent power of spiritual transcendence within each of us--and connect to the superconscious of the universe • Reveals the biochemistry of how the body's melanin provides the template for the subtle energy body or light body • Shows how embracing the dark light consciousness of the awakened Ureaus opens a portal to the sacred darkness of the superconscious • Provides illustrated instructions for meditation practices, breathing exercises, and yoga postures to safely awaken Ureaus/Kundalini energy Within each of us lies the potential to activate a personal connection to the superconscious. Called "Ureaus" in ancient Egyptian texts and "Kundalini" in ancient Hindu yoga traditions, our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state. When awakened, it unfurls along the spinal column to the brain, connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space. At the root of creativity and spiritual genius across innumerable cultures and civilizations, this intelligent force reveals portals that enfold time, space, and the luminous matrix of reality itself. Combining physics, neuroscience, and biochemistry with ancient traditions from Africa and India, Edward Bruce Bynum, Ph.D., explores the ancient Egyptian science of the Ureaus and reveals how it is intimately connected to dark matter and to melanin, a light-sensitive, energy-conducting substance found in the brain, nervous system, and organs of all higher life-forms. He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body, just as dark matter, together with gravity, holds the galaxies and constellations together. With illustrated instructions, he shows how to safely awaken and stabilize the spiritual energy of the Ureaus through meditation practices, breathing exercises, and yoga postures as well as how to prepare the subtle body for transdimensional soul travel. By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. By embracing the dark, we transcend reality to the dimension of light.

A wizard enters the underground domain of Ahra, high priestess of the Powers of the Earth, in an attempt to steal her palace's greatest treasure.

Forgotten Sundays - Gerry Sandusky 2014-04-22

Forgotten Sundays is the coming-of-age story of a father-son relationship and the value of a good name, which Gerry Sandusky knows all too well. He has had to endure having an unfortunate name in sports, but to him the Sandusky name means something entirely different: honor, integrity, endurance, and suffering and sadness. Forgotten Sundays follows the life and relationship between Gerry Sandusky and his father—former NFL tackle John Sandusky and coach for the Baltimore Colts, Philadelphia Eagles, and Miami Dolphins under the tutelage of legendary Coach Don Shula. Gerry spent his summers observing his father in NFL training camps and his Sundays with superstars, Hall of Fame players and coaches from Johnny Unitas to

Dan Marino, from Don McCafferty to Tom Landry. Gerry's relationship with his father evolved through stages of worship, disillusionment, vulnerability, tragedy, and friendship. Along the way he learned about the nature of manhood from observations, clues, and interactions—more often than not unspoken. It was when Gerry reached fatherhood himself and when John Sandusky began to tumble into the gauzy confusion of Alzheimer's disease that he began to understand his father on a much deeper level. Heartfelt, intelligent, at times humorous, at times tragic, *Forgotten Sundays* explores the intricacies of a father-son relationship and the nuances of how and what a son learns from a father. It plumbs the meaning of a family name, and it is an inspiration to others to embrace their own legacy and cherish their memories.

about Centering Possibility in Black Education -  
Chezare A. Warren 2021

Improving education outcomes for Black students begins with resisting racist characterizations of blackness. Chezare A. Warren, a nationally recognized scholar of race and education equity, emphasizes the imperative that possibility drive efforts aimed at transforming education for Black learners. Inspired by the “freedom dreaming” of activists in the Black radical tradition, the book is comprised of nine principles that clarify how centering possibility actively refuses limitations for what Black people can create, accomplish, and achieve. This interdisciplinary volume also features over 30 original images, poems, and lyrics by Black artists from around the United States, each helping to breathe new life into the concept of possibility and its relevance to remaking Black children’s experience of school. Warren draws on research in history, cultural studies, and sociology to cast a vision of Black education futures unencumbered by antiblackness and white supremacy. This justice-oriented text will inspire innovative solutions to eliminating harm and generating education alternatives Black students desire and deserve. Book Features: Describes practical, antideficit approaches to educating Black children, youth, and young adults. Focuses on productively reorienting visions, philosophies, and rationales guiding contemporary Black education

transformation work. Includes relatable stories and anecdotes written in a conversational style. Filled with provocative pieces of original art by Black artists, such as paintings, drawings, photographs, mixed media, spoken word, poems, and song lyrics.

**Melanin Is Worth More Than Gold** - Nnamdi Azikiwe 2020-05-16

Who would have thought preparations for a March 2014 Sacred Libation Ceremony honoring one-hundred forty-eight African American women lynched in America would result in the observation melanin is worth more than gold?

Dr. Frances Cress Welsing first told us the chemical melanin is produced through a process known as melanogenesis upon introduction of the chemical tyrosine to the enzyme tyrosinase. Melanin is found in such diverse places as bird feathers, animal fur, reptile scales, microorganisms, cephalopod ink, mushrooms and even fossils. Additionally, melanin is found in the hair, skin and eyes of people. Melanin is subjected to intense scientific scrutiny.

Nevertheless, the highly educated people studying it had no idea melanin is worth more than gold. In June 2014 a post to the Keyamsha the Awakening blog openly declared melanin was worth \$353 a gram and \$300 a gram more than gold. Shortly afterwards, hoaxers began bombarding the blog with comments claiming "melanin thieves" were harvesting melanin from Black people. The hoax was easily falsified. The hoaxers made certain to never mention the company selling melanin extracted from the ink of *sepia officinalis*, the common cuttlefish.

During the intervening years the melanin thieves hoaxers persisted in their efforts. In March 2017, the melanin thieves hoaxers launched a "Melanin Twitter bomb" involving the dollar value of melanin after publicity of black women and girls missing in Washington, D.C. was released. Their actions exposed a frailty in their psyche. They also reveal it is possible to wipe out false information involving melanin and take the melanin challenged inferiority complex (aka racism/white supremacy) along for the ride. It then became clear the time had come to enter

the fray and dispel the myths about melanin. This book completely obliterates the false narrative of melanin. Perceiving facts from a melanin-centered perspective bestows upon us an expanded awareness of the world and our place in it. It helps provide the average person a means to immerse themselves in melaninology and emerge a "melaninologist." Essentially, we get to know ourselves. To date no other path for the public to independently verify, or falsify, outlandish claims regarding melanin being worth more than gold on their own without any "guru" to guide them have been made available. At this writing, melanin is worth over \$395 a gram more than gold. In ancient Kemet (misnomered Egypt) such words were known as hekau or words of power with the ability to heal. For nearly one-hundred years, since August 13, 1920, melanin put the "B" in R.B.G. and the "Black" in Red, Black and Green as the flag of Africans, at home and abroad.. Those are hekau, also. Our Blood, Our Melanin and Africa unites us. More hekau. The Afro, official currency of the United States of Africa, also known as the African Union, is worth \$2.22. We are swathed in hekau to such an extent Mchakato Wa Uponyaji (Swahili for the process of healing) has begun. All of which indicates we are living in a new era: the era when all the generations of man can be called blessed on a planet that works for everyone. This era demands we convene the Ubuntu Convention. That plebiscite sets the stage for drafting the Ubuntu Declaration. In emulating the success of the August 1920 Universal Negro Improvement Association convention, we deliberately create the world where we intend to live. The revival of the U.N.I.A. with 12 million dues-paying card-carrying members positions the organization to have a treasury flush with over \$400 million liquid. All of which represents a quantum shift in awareness, perception and power underway as you read this. Through our own actions we bring about the total, complete, and absolute Redemption of Africa for all time.
