*Citizenship of the Union and Freedom of Movement of Persons* - Massimo Condinanzi 2008

Citizenship of the Union and Freedom of Movement of Persons, sets out to analyse in detail the various provisions of Community law which confer upon individuals the right to move about, reside and work in the Member States. It also examines the procedural safeguards which set those fundamental rights apart from any deriving from other international bodies or organisations and point up the originality of the Community system. Citizenship of the Union entails freedom of movement under the current Treaties and also under the Treaty of Lisbon, in which the unified treatment of the rules, by contrast with the existing pillars of Community and European Union law, might be expected to confer new impetus on the realisation of the area of freedom, security and justice. If there is truly to be such an area, there must be unified, not merely coordinated action. Judicial cooperation must be tightened in favour of the Union and, more importantly, individuals, be they Community citizens or indeed nationals of third countries, given the increasing trend towards a kind of integration which focuses less on formal data such as nationality and more on factors such as residence, employment and social integration. The book pays particular attention to this last aspect and its political and legal implications. The "communitarisation" of immigration policy (the new Title IV of the EC Treaty mentioned above) and the perspectives opened up by the enlargement to 27 Member States (and more) and by the Treaty of Lisbon, provide the framework for the treatment given in the present work.

**The Funeral Procession** - Aneek Chatterjee 2015-08-11

He did not see the partition of India, but discovered that his mother was a

refugee. He heard that India lost a war with China many years ago. He was growing up, and the Naxalite movement in India was also growing up with him. He read in newspapers and listened from the radio, Indian Army's victory over Pakistan in the 1971 war. But this victory, he felt, was achieved through huge tension in his poor family: his elder brother could have been sent to the war front and killed. As a boy he learned about Atom Bomb, Exigency, Lizards and Indian politics. The story revolved around the life of J, the young lad growing up in a small town in Bengal. As he grew up, J watched life and death unfolding in front of him. In death he saw life, and in life, he discovered hope, despair, magnanimity, deceit, hypocrisy and benevolence. J watched society and politics and their many faces. As a child he observed the Naxalite movement with chivalry and pride; later he watched the Centrist and the Left rules in Bengal and got to know from his teacher that political activists often changed jerseys to get the fruits of power. With ignorance of a child he saw the first funeral procession of his father, with excruciating pain he watched again, this time as a boy, another funeral procession, of his elder brother. Later he observed, as a young man, the funeral procession of a Head of Government. He felt that funeral processions were slowly expanding, from family to the state, and gradually engulfing his country. Built around ten chapters, the novel reflected the socio-political milieu of Bengal and India in the 1970s and 80s through the journey of J, its principal character, from childhood to adulthood. The journey also discovered the necessity of peace in times of war and peace.

**Beyond Crisis** - Naveeda Khan 2012-04-27

Through the essays in this volume, we see how the failure of the state becomes a moment to ruminate on the artificiality of this most modern construct, the failure of nationalism, an opportunity to dream of alternative modes of association, and the failure of sovereignty to consider the threats and possibilities of the realm of foreignness within the nation-state as within the self. The ambition of this volume is not only to complicate standing representations of Pakistan. It is take Pakistan out of the status of exceptionalism that its multiple crises have endowed upon it. By now, many scholars have written of how exile, migrancy, refugeedom, and other modes of displacement constitute modern subjectivities. The arguments

made in the book say that Pakistan is no stranger to this condition of human immigrancy and therefore, can be pressed into service in helping us to understand our present condition.
