An Arts Therapeutic Approach to Maternal Holding - Ariel Moy 2021-08-09

Little research has explored the everyday, simple and long-term experience of maternal holding, particularly after the first year of a child's life. The research that has been undertaken commonly examines holding through the lens of attachment with a focus on the impact of holding upon the

child. Employing an arts-based collaborative inquiry approach, participants' stories of holding, as well as the author's own, convey the significant maternal experiences of holding their children over individual arts therapeutic sessions. Optimal moments of holding included strange, powerful and meaningful experiences of expansion into self-in-representation. Attention is drawn to the ways in which holding can alert us to the current state of mother/child relationships; how we understand, story and structure those relationships; and the ways in which we can attend to holding in order to develop deeply satisfying experiences of a mother/child 'us'. *An Arts Therapeutic Approach to Maternal Holding* aims to draw attention to the intersubjective qualities of the mother/child relationship, explore why holding matters, and offer suggestions for therapeutic practice. This book is essential reading for therapeutic practitioners and those in allied health fields who work with mothers and children.

[The Fly](#) - Elise Gravel
2014-03-11

The first in a series of humorous books about disgusting creatures, *The Fly* is a look at the common housefly. It covers such topics as the hair on the fly's body (requires a lot of shaving), its ability to walk on the ceiling (it's pretty cool, but it's hard to play soccer up there), and its really disgusting food tastes (garbage juice soup followed by dirty diaper with rotten tomato sauce, for example). Although silly and off-the-wall, *The Fly* contains factual information that will both amuse and teach at the same time.

Mike - P. G. Wodehouse
2022-07-04T23:45:12Z

Mike Jackson is the youngest son of a family of excellent cricket players and the most promising batsman of them all. At Wrykyn, the public school his elder brothers once attended, his desire to prove himself as a cricketer is challenged by his apathy for studying and his penchant for mischief. In the second half of the novel, his poor academics result in his being sent to Sedleigh, where he immediately befriends Psmith, an eccentric monocle-wearing student in a similar situation. Together they navigate the social waters of a school that neither one of them wants to attend. Mike was one of P. G. Wodehouse's earlier novels, and one of his personal favorites. In a preface to a later edition, he stated that the

school setting allowed Psmith's "bland clashings with Authority" to truly shine. The cricket scenes are memorable and exciting, but the meat of the story is in Mike and Psmith's school escapades. Mike was originally published in *The Captain* magazine in two parts, *Jackson Junior* (published in 1953 as *Mike at Wrykyn*), and *The Lost Lambs* (also published later as *Enter Psmith* in 1935 and *Mike and Psmith* in 1953). This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Annie Lumsden, the Girl from the Sea -

David Almond 2021-05-18

A solitary girl with a kinship for the sea makes a wondrous discovery in a tale of identity and belonging from master storyteller David Almond. Annie Lumsden has hair that drifts like seaweed, eyes that shine like rock pools, and thoughts that dart and dance like minnows. She lives with her artist mother by the sea, where she feels utterly at home, and has long felt apart from the other girls at school. Words and numbers on the page don't make sense to her, and strange maladies have been springing up that the doctors can't explain. Annie's mother says that all things can be turned into tales, and often she tells her daughter stories about the rocks she paints like faces, or the smoke that wafts from chimneys, or who Annie's dad is. But one day Annie asks her mother for a different tale, something with better truth in it—and on that same day a stranger in town, drawn to the sight of a girl who seems akin to the sea, helps Annie understand how special she is. Featuring Beatrice Alemagna's expressive illustrations, this enchanting coming-of-age tale by the award-winning David Almond borrows from lore and flirts at the edges of mystery.

Marcel Dzama: The Book of Ballet - Marcel Dzama 2016-03-15

Marcel Dzama's prolific output as a draftsman has, in recent years, expanded to include works in many different media—film, sculpture, dance, collage, and even a recent collaboration with artist Raymond Pettibon are all part of his current practice. His at times surreal, often frightening vision, translates beautifully to film and dance, where actors in complex costumes bring to life the worlds Dzama draws on paper. Published on the occasion of his collaborative ballet with choreographer Justin Peck and musician Bryce Dessner at the New York City Ballet, *The Book of Ballet* documents the genesis of all aspects of the project. The gem-like booklet begins with “The Most Incredible Thing,” the Hans Christian Andersen story on which the ballet is based, and continues to present Dzama's costume designs. The images not only show final design decisions, but also chart the changes in costumes as the project unfolded, and the ways in which Dzama's conception of the characters in the ballet shifted over time. The book closes with a

conversation between Dzama and Peck in which choreographer and artist discuss the nuances of their collaborative process, and the important role of renowned composer Dessner in bringing the project to life. Also included is a poster made specifically for this book by the artist.

Well-known algorithms and data structures that are built into the Python language are explained, and the user is shown how to implement and evaluate others.

A Zen Harvest - 2015-12-29

One of the vital aspects of traditional Rinzai Zen koan study in Japan is *jakugo*, or capping-phrase exercises. When Zen students have attained sufficient mastery of meditation or concentration, they are given a koan (such as the familiar "What is the sound of one hand clapping?") to study. When the student provides a satisfactory response to the koan, he advances to the

jakugo exercise—he must select a “capping phrase,” usually a passage from a poem among the thousands in a special anthology, the only book allowed in the monastery. One such anthology, written entirely in Chinese, was translated by noted Zen priest and scholar Soiku Shigematsu as *A Zen Forest: Sayings of the Masters*. Equally important is a Japanese collection, the *Zenrin Segoshu*, which Mr. Shigematsu now translates from the Japanese, including nearly eight hundred poems in sparkling English versions that retain the Zen implications of the verse.

The Poetics of Time – Metaphors and Blends in Language and Literature - Anna Piata
2018-01-15

How does the concept of time, elusive and inconceivable as it may be, lend itself to verbal creativity? Is it possible to trace something like a “poetics of time”? This book embarks on this endeavor initiated by the assumption that verbal creativity can shed some new light on our understanding of time, challenging everyday linguistic patterns and manipulating mental representations in unforeseen ways. Drawing on empirical evidence from Modern Greek poetry, the book offers a unified account of time conceptualization along a continuum of various degrees of non-conventionality. It also shows, unlike what has been traditionally assumed in the literature, that creativity in the expression of time is not limited to metaphor but extends to other figurative tropes that are perhaps specific to poetry. Poetry thus transpires as an ideal testing frame for exploring temporal cognition and meaning construction alike.

The Neanderthals Rediscovered: How Modern Science Is Rewriting Their Story - Dimitra Papagianni 2013-10-07

“Even-handed, up-to-date, and clearly written. . . . If you want to navigate between the Scylla and Charybdis of Neanderthal controversies, you’ll find no better guide.”
—Brian Fagan, author of *Cro-Magnon*

In recent years, the common perception of the Neanderthal has been transformed thanks to new discoveries and paradigm-shattering scientific innovations. It turns out that the Neanderthals’ behavior was surprisingly modern: they buried the dead, cared for the sick, hunted large animals in their prime, harvested seafood, and spoke. Meanwhile, advances in DNA technologies have forced a reassessment of the Neanderthals’ place in our own past. For hundreds of thousands of years, Neanderthals evolved in Europe very much in parallel to the *Homo sapiens* line evolving in Africa, and, when both species made their first forays into Asia, the Neanderthals may even have had the upper hand. Here, Dimitra Papagianni and Michael A. Morse look at the Neanderthals through the full dramatic arc of their existence—from their evolution in Europe to their expansion to Siberia, their subsequent extinction, and ultimately their revival in popular novels, cartoons, cult movies, and TV commercials.

The Dream-Eater - Michael Ende 1978

The Mirror in the Mirror - Michael Ende 2022-09-13

“The Mirror in the Mirror” – in the E-Book now also with illustrations by his father Edgar Ende, to whom Michael Ende dedicated this book. It is a fantastic story labyrinth of a very special kind. For the author himself, this work was of great importance: in interviews, he liked to call it his “never-ending story for adult readers.” The reader is taken into a mysterious narrative world, full of bizarre situations and mysterious fates, surreal images and philosophical thoughts. Those who open themselves in amazement to these enigmatic visions and allow themselves to be drawn into the fantastic stories will

emerge from Michael Ende's magic labyrinth with a new perspective. The core question is: What is reflected in a mirror that is reflected in a mirror? If two readers read the same book, they are still not reading the same thing. For both people immerse themselves into the reading. The book becomes a mirror in which the reader is reflected. But in the same way, the reader is also a mirror in which the book is reflected: The mirror in the mirror refers the reader back to himself. The FAZ, one of the major newspapers in Germany, writes that Michael

Ende shows with the book "how much darkness, wildness and rawness is inherent in dreams. He does not trivialize. His dreams make reference to reality because in dreams, Cicero wrote, 'the remnants of those objects roll and tumble about in the souls which we have thought and impelled while awake'."
