Henry James's Europe - Dennis Tredy
2011

As an American author who chose to live in Europe, Henry James

frequently wrote about cultural differences between the Old and New World. The plight of bewildered Americans adrift on a sea of European sophistication became a regular theme in his fiction. This collection of twenty-four papers from some of the world's leading James scholars offers a comprehensive picture of the author's crosscultural aesthetics. It provides detailed analyses of James's perception of Europe - of its people and places, its history and culture, its artists and thinkers, its aesthetics and its ethics - which ultimately lead to a profound reevaluation of his writing. With in-depth analysis of his works of fiction, his autobiographical and personal writings, and his critical works, the collection is a major contribution to

current thinking about James, transtextuality and cultural appropriation.

Jean-Christophe Journey's End -

Romain Rolland 2021-01-01

For the time being they were in the period of the lean kine. Christophe had stayed up half the night to finish a dull piece of musical transcription for Hecht: he did not get to bed until dawn, and slept like a log to make up for lost time.

Olivier had gone out early: he had a lecture to give at the other end of Paris. About eight o'clock the porter came with the letters, and rang the bell. As a rule he did not wait for them to come, but just slipped the letters under the door. This morning he went on knocking. Only half awake,

Christophe went to the door growling: he paid no attention to what the smiling, loquacious porter was saying about an article in the paper, but just took the letters without looking at them, pushed the door to without closing it, went to bed, and was soon fast asleep once more.

A History of the French in London - Debra Kelly 2013
This book examines, for the first time, the history of the social, cultural, political and economic presence of the French in London, and explores the multiple ways in which this presence has contributed to the life of the city. The capital has often provided a place of refuge,

from the Huguenots in the 17th century, through the period of the French Revolution, to various exile communities during the 19th century, and on to the Free French in the Second World War. It also considers the generation of French citizens who settled in post-war London, and goes on to provide insights into the contemporary French presence by assessing the motives and lives of French people seeking new opportunities in the late 20th and early 21st centuries. It analyses the impact that the French have had historically, and continue to have, on London life in the arts, gastronomy, business, industry and education, manifest in diverse places and institutions from the religious to the political via the educational, to the commercial and creative

industries.
