Demography of Refugee and Forced Migration - Graeme Hugo 2017-12-19

This authoritative and comprehensive edited volume presents current research on how demography can contribute to generating scientific knowledge and evidence concerning refugees and forced migration, developing evidence based policy recommendations on protection for forced migrants and reception of refugees, and revealing the determinants and consequences of migration for origin and destination regions and communities. Refugee and other forced migrations have increased substantially in scale, complexity and diversity in recent decades. These changes challenge traditional approaches in response to refugee and other forced migration situations, and protection of refugees. Demography has an important contribution to make in this analytic space. While other disciplines (especially anthropology, law, geography, political science and international relations) have made major contributions to refugee and forced migration studies, demography has been less present with most research focusing on issues of refugee mortality and morbidity. This book specifies the range of topics for which a demographic approach is highly appropriate, and identifies findings of demographic research which can contribute to ever more effective policy making in this important arena of human welfare and international policy.

The Good Death - Ann Neumann 2017-02-07

Following the death of her father, journalist and hospice volunteer Ann Neumann sets out to examine what it

means to die well in the United States. When Ann Neumann's father was diagnosed with non-Hodgkin's lymphoma, she left her job and moved back to her hometown of Lancaster, Pennsylvania. She became his full-time caregiver—cooking, cleaning, and administering medications. When her father died, she was undone by the experience, by grief and the visceral quality of dying. Neumann struggled to put her life back in order and found herself haunted by a question: Was her father's death a good death? The way we talk about dying and the way we actually die are two very different things, she discovered, and many of us are shielded from what death actually looks like. To gain a better understanding, Neumann became a hospice volunteer and set out to discover what a good death is today. She attended conferences, academic lectures, and grief sessions in church basements. She went to Montana to talk with the attorney who successfully argued for the legalization of aid in dying, and to Scranton, Pennsylvania, to listen to "pro-life" groups who believe the removal of feeding tubes from some patients is tantamount to murder. Above all, she listened to the stories of those who were close to death. What Neumann found is that death in contemporary America is much more complicated than we think. Medical technologies and increased life expectancies have changed the very definition of medical death. And although death is our common fate, it is also a divisive issue that we all experience differently. What constitutes a good death is unique to each of us, depending on our age, race, economic status, culture, and beliefs. What's more, differing concepts of choice, autonomy, and consent make death a contested landscape, governed by social, medical, legal, and religious systems. In these pages, Neumann brings us intimate portraits of the nurses, patients, bishops, bioethicists, and activists who are shaping the way we die. The Good Death presents a fearless examination of how we approach death, and how those of us close to dying loved ones live in death's wake.

Huawei - Tian Tao 2018-04-30

The inspirational business story of Huawei: how to grow from start up to world leader in two decades... With over 170,000 employees in more than 170 countries and regions, serving more than one-third of the world's population, how does entrepreneur Ren Zhengfei manage a telcoms giant called Huawei? What is the secret to Huawei's global success? In 1987, a 44-year-old man founded a telecom equipment-trading firm in Shenzhen, China, with start-up capital of \$5,000. In 29 years, it grew to become the largest telcoms company in the world. This book goes behind the scenes to explore the story of what Ren Zhengfei did differently, how the company he started reached the top spot, and why Huawei is known as a "collective" and not a private company: Learn how this Chinese start up business became an international success Understand the business strategy, leadership skills and management philosophy of Huawei's entrepreneurial founder Get tips, inspiration and motivation for your own business start-up. 14 years of meticulous research and 136 senior management and employee interviews reveal how Huawei's international business success lies in its ability to transform the intellectual elite into a band of soldiers with the same set of values and resolve, while at the same time preventing a culture of subservience. This fascinating story provides a unique glimpse into the machinations of one of the world's most powerful companies. "The company serves as an example for many Chinese entrepreneurs striving to go global, and also presents valuable lessons for Western companies striving to integrate Eastern and Western values and ways of looking at business." - Co-author David De Cremer, KPMG Professor of Management Studies at Cambridge Judge Business School

Several are used to going back and forth across borders, either as transnational professionals or as migrant workers. About one-third of these immigrants are successful entrepreneurs. As you will find out, the journeys of these immigrants have not been easy, but all of them are glad they wound up in this state and are proud of their new identities as Mainers.

Transforming the Informal Sector - T. L. Maliyamkono 2012

Pan-Africanism or Pragmatism - G. Shivji 2008-05-15

The Pan-Africanist debate is back on the historical agenda. The stresses and strains in the union of Tanganyika and Zanzibar since its formation some forty years ago are not showing any sign of abating. Meanwhile, imperialism under new forms and labels continues to bedevil the continent in ever-aggressive, if subtle, ways. The political federation of East Africa, which was one of the main spin-offs of the Pan-Africanism of the nationalist period, is reappearing on the political stage, albeit in a distorted form of regional integration. It is in this context that the present study is situated. Backgrounding the major dramas of the union of Tanganyika and Zanzibar this book studies the personalities involved and their politics, and includes an account of the Dodoma CCM conference that toppled President Jumbwe. It is also a detailed legal analysis of the union incorporating powerful new material.

Westward: A Fictional History of the American West - Dale L. Walker 2013-05-10

Featuring stories handpicked by four-time Spur Award-winning author Dale L. Walker, *Westward* is a time capsule of the Old American West, from the first horse ever seen by a North American Indian to a man who escaped from the Alamo, from the massacre at Mountain Meadows to Libbie Custer's great secret, from the Apache wars to the California gold rush. Assam - Sangeeta Barooah Pisharoty 2019-08-27

The Assam Accord, which sought to end a six-year-long agitation against illegal immigrants in Assam, was signed between members of the All Assam Students Union (AASU), and state and central governments just a few hours before Rajiv Gandhi was to deliver the Independence Day address in 1985. Immediately afterwards, the student leaders were catapulted from their hostel rooms into the corridors of power. Their

party, the Asom Gana Parishad (AGP), was voted to power the same year, with Prafulla Kumar Mahanta becoming the youngest ever chief minister of an Indian state. Key clauses of the Assam Accord remained unimplemented during Mahanta's often controversial tenures (1985-1990, 1996-2001), and through three terms of Congress rule, which ended with the BJP's victory in the state in 2016. Central to the Accord was deportation of those who could not prove their roots in India prior to 24 March 1971. In 2015, the process of updating the National Register of Citizens (NRC) based on the 1971 cut-off of the Accord began. The first list was released in December 2017, and did not include 14 million names. *Assam: The Accord, The Discord* looks at the making of the Assam Accord and its long shadow on the state, through political gamesmanship between principle players, periods of ULFA and Bodo militancies, and right-wing propaganda that has split the state along communal lines.

Out of the Shadows - Erol K. Yayboke 2019-12-19

Millions of people around the world live in and travel through the shadows. Compelled to leave home, they migrate irregularly without proper documentation to gain access to jobs, education, healthcare, food, and other essential services. Irregular migration exists because there are not enough opportunities for safety and prosperity at home and too few conventional means through which to remedy that lack of opportunity.

Recognizing the critical, understudied, and often misunderstood nature of this global phenomenon, the CSIS Project on Prosperity and Development produced a research study on irregular migration involving field research in Mexico, Eritrea, and Ghana. This report, which builds on CSIS's past work on the global forced migration crisis, aims to shine a light on irregular migration and contribute to an enormously consequential conversation.

Tanzania - Issa G. Shivji 2009

Used by students of law, politics and the Tanzania union as a basic reference work the book is a product of wide ranging scholarship and close analysis of legal texts that constitute the primary sources of the Union-and the author's long engagement with the morality of constitutional politics that bear on

Zanzibar's status in the Union. Out of print for over a decade this second expanded edition includes a few

minor revisions, comments and references have been put in square brackets to distinguish them from the original text.
