language in the English-speaking world. It covers the various social dynamics that generate swearing, foul language, and insults in the entire range of the English language. A-Z entries cover the full range of swearing and foul language in English, including fascinating details on the history and origins of each term and the social context in which it found expression. Categories include blasphemy, obscenity, profanity, the categorization of women and races, and modal varieties, such as the ritual insults of Renaissance "flyting" and modern "sounding" or "playing the dozens." Entries cover the historical dimension of the language, from Anglo-Saxon heroic oaths and the surprising power of medieval profanity, to the strict censorship of the Renaissance and the vibrant, modern language of the streets. Social factors, such as stereotyping, xenophobia, and the dynamics of ethnic slurs, as well as age and gender differences in swearing are also addressed, along with the major taboo words and the complex and changing nature of religious, sexual, and racial taboos.

**Naked: The Life And Pornography Of Michael Lucas** - Corey Taylor 2012-04-24

Ask anyone who the biggest name in gay porn is and they'll tell you, "Michael Lucas." Ask what he's like and you'll get the gamut of replies: He's a smart, shrewd businessman who studied law and loves the opera. A witty raconteur who doesn't drink, smoke or do drugs. A loyal son who is close to his family. Bracingly honest. Ruthless. A hot top with a killer body. Sexy. Razor-tongued and iron-fisted. Michael Lucas has been called everything on his climb from rent boy to running the most successful gay porn business in the entire world--but he's never been called boring. Now, in this no-holds-barred biography, Corey Taylor delivers a delicious portrait of gay porn's hottest maverick. From the start, Michael Lucas challenged the stereotype of a porn star. He did not grow up in an abusive family. Instead, he was born and raised in Soviet Russia as Andrei Treyvas to a close-knit family of outspoken, intellectual Russian Jews. The shy, skinny kid grew up to be a handsome man determined to make his mark on the world--and how. From his start as an escort in Europe, to his hustling days in America, making the money he would invest in his own company, Lucas Entertainment, Michael's life is inspiring, provocative, and 100% candid--no filter. NAKED lays bare the fascinating, often surreal life of a sexy, complex man who has set his own standards and played by his own rules. Chock full of outrageous quotes and "you've got to hear this" stories, this is one biography just like its subject: one of a kind. Corey Taylor has a Bachelor of Arts degree in English from the University of Memphis. He has written for U.S. publications (Unzipped, Men, Artisan Northwest) as well as for publications in the UK (reFRESH) and Australia

(DNA), covering celebrity features, art, fashion, and politics. Corey lives in Chicago, Illinois.

**Taylor Swift** - Louisa Jepsen 2013-08-29

As one of the biggest and brightest stars of the music industry today, Taylor Swift's rise to international superstardom is what childhood dreams are made of. Instant success followed, as fans everywhere fell in love with her passionate and honest lyrics, her catchy tunes and her genuine, girl-next-door charm. Known for her confessional songs, many of her past boyfriends have featured in her music, including One Direction's Harry Styles, Jake Gyllenhaal, John Mayer and Joe Jonas. After less than a decade in the music industry Taylor has smashed records, collected hundreds of awards - including seven Grammys - and completed three sell-out tours. She has sold more than 26 million albums and her most recent record, *RED*, topped the charts in 12 countries.

Computational Propaganda - Samuel C. Woolley 2018-11-12

Social media platforms do not just circulate political ideas, they support manipulative disinformation campaigns. While some of these disinformation campaigns are carried out directly by individuals, most are waged by software, commonly known as bots, programmed to perform simple, repetitive, robotic tasks. Some social media bots collect and distribute legitimate information, while others communicate with and harass people, manipulate trending algorithms, and inundate systems with spam. Campaigns made up of bots, fake accounts, and trolls can be coordinated by one person, or a small group of people, to give the illusion of large-scale consensus. Some political regimes use political bots to

silence opponents and to push official state messaging, to sway the vote during elections, and to defame critics, human rights defenders, civil society groups, and journalists. This book argues that such automation and platform manipulation, amounts to a new political communications mechanism that Samuel Woolley and Philip N. Noward call "computational propaganda." This differs from older styles of propaganda in that it uses algorithms, automation, and human curation to purposefully distribute misleading information over social media networks while it actively learns from and mimics real people so as to manipulate public opinion across a diverse range of platforms and device networks. This book includes cases of computational propaganda from nine countries (both democratic and authoritarian) and four continents (North and South America, Europe, and Asia), covering propaganda efforts over a wide array of social media platforms and usage in different types of political processes (elections, referenda, and during political crises).

The Weight of Our Sky - Hanna Alkaf 2019-02-05

A music loving teen with OCD does everything she can to find her way back to her mother during the historic race riots in 1969 Kuala Lumpur, Malaysia, in this heart-pounding literary debut. Melati Ahmad looks like your typical movie-going, Beatles-obsessed sixteen-year-old. Unlike most other sixteen-year-olds though, Mel also believes that she harbors a djinn inside her, one who threatens her with horrific images of her mother's death unless she adheres to an elaborate ritual of counting and tapping to keep him satisfied. A trip to the movies after school turns into a nightmare when the city erupts into violent race riots between the Chinese and the Malay. When gangsters come into the theater and hold movie-goers hostage, Mel, a Malay, is saved by a Chinese woman, but has to leave her best friend behind to die. On their journey through town, Mel sees for herself the devastation caused by the riots. In her village, a neighbor tells her that her mother, a nurse, was called in to help with the many bodies piling up at the hospital. Mel must survive on her own, with the help of a few kind strangers, until she finds her mother. But the djinn in her mind threatens her ability to cope.

Themes and Issues in Asian Cartooning - John A. Lent 1999

Today, comic art is the favorite reading fare for millions of Asians, and is a

government-sanctioned, value-added product, as in the case of Korean and Japanese animation. Yet not much is known about Asian cartooning. Themes and Issues in Asian Cartooning uses overviews and case studies by scholars to discuss Asian animation, humor magazines, gag cartoons, comic strips, and comic books. The first half of the book looks at contents and audiences of Malay humor magazines, cultural labor in Korean animation, the reception of Aladdin in Islamic Southeast Asia, and a Singaporean comic book as a reflection of that society's personality. Four other chapters treat gender and Asian comics, concentrating on Japanese anime and manga and Indian comic books.

When I was a Kid - Cheeming Boey 2013

An enchanting graphic novel, *When I Was a Kid* is a collection of black and white drawings and handwritten narratives that depict short stories from a kid's formative years growing up in Malaysia - stories of surviving school, siblings, and parents - when the world was indeed, seen as simply black and white. Dedicated to the forgotten child in every reader, these tales of imaginary heroes, lies adults like to tell children, and the dangerous mix of boredom with curiosity appeal to anyone who might long for a more innocent time.

Pedophilia and Sexual Offending Against Children - Michael C. Seto 2008

Contrary to popular belief, not all sex offenders who target children are pedophiles, and not all pedophiles commit sexual offenses. But what is unequivocal is that pedophilia, which is defined as a persistent sexual interest in prepubescent children, is an emotionally charged and controversial topic. Parents are understandably worried about the safety and well-being of their children and want to protect them from being sexually exploited. Mental health and criminal justice professionals want to learn more about the assessment methods and intervention techniques that are available to develop and implement effective policies and practices. In this book, author Michael C. Seto addresses key concerns and questions in dealing with these clinical populations: How can pedophilia be detected? What causes pedophilia and sexual offending against children, and what is the relationship between the two? How do we assess risk to sexually offend? Finally, what do we know about intervention and

prevention to reduce the occurrence of sexual offenses against children? In addition to a comprehensive synthesis of theory and research, the author demonstrates how this knowledge informs current treatment practices with the inclusion of illustrative case examples, sample interview questions, assessment tools, and online resources.

*Sweetie 2.0* - Simone van der Hof 2019-07-06

This book centres on Webcam Child Sex Tourism and the Sweetie Project initiated by the children's rights organization Terre des Hommes in 2013 in response to the exponential increase of online child abuse. Webcam child sex tourism is a growing international problem, which not only encourages the abuse and sexual exploitation of children and provides easy access to child-abuse images, but which is also a crime involving a relatively low risk for offenders as live-streamed webcam performances leave few traces that law enforcement can use. Moreover, webcam child sex tourism often has a cross-border character, which leads to jurisdictional conflicts and makes it even harder to obtain evidence, launch investigations or prosecute suspects. Terre des Hommes set out to actively tackle webcam child sex tourism by employing a virtual 10-year old Philippine girl named Sweetie, a so-called chatbot, to identify offenders in chatrooms. Sweetie 1.0 could be deployed only if police officers participated in chats, and thus was limited in dealing with the large number of offenders. With this in mind, a more pro-active and preventive approach was adopted to tackle the issue. Sweetie 2.0 was developed with an automated chat function to track, identify and deter individuals using the internet to sexually abuse children. Using chatbots allows the monitoring of larger parts of the internet to locate and identify

(potential) offenders, and to send them messages to warn of the legal consequences should they proceed further. But using artificial intelligence raises serious legal questions. For instance, is sexually interacting with a virtual child actually a criminal offence? How do rules of criminal procedure apply to Sweetie as investigative software? Does using Sweetie 2.0 constitute entrapment? This book, the outcome of a comparative law research initiative by Leiden University's Center for Law and Digital Technologies (eLaw) and the Tilburg Institute for Law, Technology, and Society (TILT), addresses the application of substantive criminal law and criminal procedure to Sweetie 2.0 within various jurisdictions around the world. This book is especially relevant for legislators and policy-makers, legal practitioners in criminal law, and all lawyers and academics interested in internet-related sexual offences and in Artificial Intelligence and law. Professor Simone van der Hof is General Director of Research at the Center for Law and Digital Technologies (eLaw) of the Leiden Law School at Leiden University, The Netherlands. Iliana Georgieva, LL.M., is a PhD researcher at the Faculty of Governance and Global Affairs at Leiden University, Bart Schermer is an associate professor at the Center for Law and Digital Technologies (eLaw) of the Leiden Law School, and Professor Bert-Jaap Koops is Professor of Regulation and Technology at the Tilburg Institute for Law, Technology, and Society (TILT), Tilburg University, The Netherlands./div

**Rethinking Ethnicity** - Richard Jenkins 2008-01-18

"A welcome and brilliantly crafted overview of this field. It represents a major advance in our understanding of how ethnicity works in specific social and cultural contexts. The second edition will be an invaluable resource for both students and researchers alike." - John Solomos, City University, London The first edition of Rethinking Ethnicity quickly established itself as a popular text for students of ethnicity and ethnic relations. This fully revised and updated second edition adds new material on globalization and the recent debates about whether ethnicity matters and ethnic groups actually exist. While ethnicity - as a social construct - is imagined, its effects are far from imaginary. Jenkins draws on specific examples to demonstrate the social mechanisms that construct ethnicity and the consequences for people's experience. Drawing upon rich case study material, the book discusses such issues as: the 'myth' of the plural society; postmodern notions of difference; the relationship between ethnicity, 'race' and nationalism; ideology; language; violence and religion; and the everyday construction of national identity.

**Creativity & Innovation** - Ashwini Kumar Singh 2021-03-17

"Creativity and innovation are to events, what the heart and soul are to the living." The book aims at encouraging readers to capture the traits and develop skills for enhancing their creative and innovative capabilities, cultivating the culture of creativity and innovation. Creativity is inventiveness with new ideas; critical thinking is generating and selecting ideas; and innovation turns creativity into products, processes and services. Creativity + Critical thinking + Innovation = Path of Desired Change The primary difference between creativity and innovation is that the former refers to conceiving a new idea while the latter involves converting that idea into a marketable commodity. Creativity and innovation are an attempt to gain a competitive advantage. Organizations are now focusing on enhancing their employees' creativity and not merely developing their technical competencies and skills. Undoubtedly, creativity is the most important human resource of all without which there would be no progress, and we would be forever repeating the same patterns. Innovation is at the heart of all successful companies.

**The Colour of Inequality** - Muhammed Abdul Khalid 2014

"This book provides an alternative insight to the debate on inequality in Malaysia, by focusing on the distribution of wealth or assets, rather than income. Despite tremendous increase in national income, the wealth gap in Malaysia is alarmingly high and extremely skewed. For instance, the top 0.2 per cent of depositors in ASB has about 1,133 times more than the bottom 80 per cent of depositors combined. This gap is echoed by the fact that approximately two-thirds of Malaysian workers earn less than RM3,000 per month, and about 90 per cent of Malaysians have nearly zero savings. The current policies are not facilitating improvements in this wealth gap, which could lead to aristocracy where birth, not hard work or talent and effort, matter the most in wealth accumulation. This book explores possible policy interventions that can be undertaken to ensure that economic growth is equitably shared, which is vital for a stable and prosperous society"--Page 4 of cover.
