BOOK #1 PREVIEW Healing with essential oils isn't something that is commonly considered possible. Although it seems like it is unlikely to work and wouldn't be something the typical scientist would recommend to treat any ailments, ancient people have been using oils for at least as long as the Biblical days in order to uplift the body and heal the spirit. All of the general uses of essential oils seem to be lost on modern medicine, but there are people today who are more than willing to share their insight on the healing benefits of ancient essential oils.

BOOK #2 PREVIEW I am tired of relying on pharmaceuticals and chemicals to deal with every day common illness, from a cold to a headache to high blood pressure. Every medication we use, no matter how common or well-researched, comes with intended and unintended effects. Some of these effects, such as the intended effects, are desired, like pain relief when taking pain relief medication. The problem is the unintended effects these medications cause in the body. I am not a doctor or a pharmacist, but I tend to rely on my common sense. My common sense dictates that I should not take something for symptom. BOOK #3 PREVIEW Each culture in the world brings its own particular traditions and ideas and stories when it comes to the theme of health and wellness. In the past, many people in the United States considered these remedies to be folklore, old wives tales, and overall ineffective remedies. We became reliant on medication for everything and less focused on the effects of the chemicals

that we were putting in our bodies. Everything was processed, sterilized and pasteurized and preserved for our safety. The ideas of ancient remedies were ignored and forgotten. BOOK #4 PREVIEW Essential oils have been known for centuries to help people with their common health problems and beauty needs. They are a reliable and natural way to bring a vibrant glow of health and beauty to our bodies and help us to deal with our problems. They are even known to help problems like insomnia, which is mostly a psychological issue. BOOK #5 PREVIEW Because of the recent rise of concern with the modern medicine industry, many people are looking more and more toward natural solutions to their medical problems. Many illnesses and infections have been properly treated and eliminated using cures that have been around for centuries. People are suspicious of a medical industry that makes a profit from keeping people sick so that they can give them temporary solutions to problems that could easily be cured

using a proper diet, exercise, and herbal antibiotics. BOOK #6 PREVIEW All of us are looking for great beauty products that can help make ourselves look better, and our skin shine. There are so many beauty products out there that you can use, and you might be wondering what is best. The truth is, there are some that are better than others, and some that work better than others and it's important to know about them. Many times, we end up getting suckered into using the wrong beauty products, and sometimes our efforts are useless, causing us to just waste money on items that we need. Some of these effects, such as the intended effects, are desired, like pain relief when taking pain relief medication. The problem is the unintended effects these medications cause in the body. I am not a doctor

or a pharmacist, but I tend to rely on my common sense. Fortunately, nature has always offered us solutions to these very vast and unfortunate problems. But something incredible is happening now. Maybe it can be attributed to the influx of international information that is now readily available through the internet, maybe it can be attributed to the diversity that the United States is now enjoying due to modern immigration, or maybe it is more of a need to simplify. We, in the United States, are more and more connected with other cultures around the world. We are learning that not everyone lives like we do, and that there are many other opinions about health and wellness than what we have learned at home or in our culture.
