**Oxford Latin Course** - M. G. Balme 1999-06

Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In

addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part.

Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans--with their daily activities, concerns, and habits--and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of

grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome--one that builds skills effectively and is exciting to use.

#### **Milton, Toleration, and Nationhood - Elizabeth Sauer 2014**

"John Milton lived at a time when English nationalism became entangled with principles and policies of cultural, religious, and ethnic tolerance. Combining political theory with close readings of key texts, this study examines how Milton's polemical and imaginative prose intersects with representations of English Protestant nationhood. Through detailed case studies of Milton's works, Elizabeth Sauer charts the fluctuating narrative of Milton's literary engagements in relation to social, political, and philosophical themes such as ecclesiology, exclusionism, Irish alterity, natural law, disestablishment, geography, and intermarriage. In so doing, Sauer shows the extent to which nationhood and toleration can be subjected to literary and historicist inquiry. Her study makes a salient contribution to Milton studies and to scholarship on Early Modern literature and the development of the early nation-state"--

Toy rocket in hand, the boy finds himself in a crowded, stuffy lecture hall. At first he is amazed by the charts and the figures. But when he finds himself overwhelmed by the pontifications of an academic, he retreats to the great outdoors and does something as universal as the stars themselves... he dreams.

*The Model Millionaire* - Oscar Wilde 2021-02-26

"Romance is the privilege of the rich, not the profession of the unemployed." Hughie, a charming young man with no money, wants to marry a girl named Laura. But Laura's father is concerned with Hughie's lack of wealth and tells him he can only have his daughter if he comes up with 10,000 pounds. Defeated, Hughie visits his artist friend, who is painting a portrait of a beggar. Meeting the beggar outside, Hughie gives him some money. What he doesn't know is that the man isn't a beggar at all but a wealthy baron, and Hughie's generosity might just be the thing to change his life. *The Model Millionaire* is a charming and funny little story, similar in setting to *The Picture of Dorian Gray*, but far more optimistic. A delightful read. Oscar Wilde (1854-1900) was an Irish playwright, novelist, essayist, and poet, famous for 'The Picture of Dorian Gray' and 'The Importance of Being Earnest' to name a couple. He was believed to be a homosexual and met a lot of resistance in his life on that account. He died in Paris at the age of 46.

Mathematics for Machine Learning - Marc Peter Deisenroth 2020-04-23

The fundamental mathematical tools needed to understand machine learning include linear algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For those learning the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

**The Skylark** - Christina Georgina Rossetti 1991-12-01

Christina Rossetti's poem focusing on a skylark in nature is illustrated with paintings from the Victorian and Edwardian eras.

**A Shot in the Dark** - Saki 2006

H.H. Munro's razor-toothed wit, discerning eye, and taste for the absurd are delightfully evident in this collection of little-known tales. In Saki's world, a despotic dog becomes his owner's master, a rural community is hoodwinked into believing in the predictive powers of a pair of friends, and Eve stubbornly refuses to touch the Forbidden Fruit. Although unquestionably of its time, each story ridicules the follies of society—follies still all too clearly familiar today. Best known to the world as Saki, Scottish writer Hector Hugo Munro won fame by skewering the British upper class in his chronicles of Clovis and Reginald.
