At Last - Edward St. Aubyn
2018-05-08
Now a 5-Part Limited Event Series on Showtime, Starring Benedict Cumberbatch and Blythe Danner A New York Times Notable Book of the Year • One of TIME's Top 10 Fiction Books of the Year • Named One of the best books of the Year by The Telegraph and Esquire Here, from the writer described by The Guardian as "our purest living prose stylist" and whom Alan Hollinghurst has called "the most brilliant English novelist of his generation," is a work of glittering social comedy, profound emotional truth, and acute verbal wit. *At Last* is also the stunning culmination of one of the great fiction enterprises of the past two decades in the

life of the English novel. As readers of Edward St. Aubyn's extraordinary earlier works—*Never Mind*, *Bad News*, *Some Hope*, and the Man Booker Prize finalist *Mother's Milk*—are well aware, for Patrick Melrose, "family" has always been a double-edged sword. *At Last* begins as friends, relatives, and foes trickle in to pay final respects to his mother, Eleanor. An American heiress, Eleanor married into the British aristocracy, giving up the grandeur of her upbringing for "good works" freely bestowed on everyone but her own son, who finds himself questioning whether his transition to a life without parents will indeed be the liberation he had so long imagined. The service ends, and family and friends gather for a final party. Amid the social niceties and social horrors, Patrick begins to sense the prospect of release from the extremes of his childhood, and at the end of the day, alone in his room, the promise some form of safety...at last.

A-Level Study Guide Chemistry

Ed H2.2 - CS Toh 2016-03-08

This is an ebook version of the "A-Level Study Guide - Chemistry (Higher 2) - Ed H2.2" published by Step-by-Step International Pte Ltd. [For the revised Higher 2 (H2) syllabus with first exam in 2017.] This ebook gives concise illustrated notes and

worked examples. It is intended as a study guide for readers who have studied the O-Level Chemistry or the equivalent. It contains material that most readers should want to take note of when attending formal lessons and/or discussions on the Singapore-Cambridge GCE A-Level Higher 2 (H2) Chemistry. [As the Higher 1 (H1) Chemistry syllabus is a subset of the H2 Chemistry syllabus, this ebook is also suitable for readers studying Chemistry at the H1 level.] The concise notes cover essential steps to understand the relevant theories. The illustrations and worked examples show essential workings to apply those theories. We believe the notes and illustrations will help readers learn to "learn" and apply the relevant knowledge. The ebook should help readers study and prepare for their exams. Relevant feedbacks from Examiner Reports, reflecting what the examiners expected, are incorporated into the notes and illustrations where possible, or appended as

notes (NB) where appropriate. It is also a suitable aid for teaching and revision.
