Digital Scholarship in the Tenure, Promotion, and Review Process - Deborah Lines Andersen
2003-09-04

To receive tenure college and university professors have long been required to write scholarly monographs or articles, engage in serious research, and teach effectively. In recent years, however, the emergence of digital scholarship has revolutionized - and complicated - the picture in unexpected ways as new electronic media have enabled academics to communicate scholarly material in innovative formats such as websites, PowerPoint presentations, CD-ROMs, and virtual reality "tours." Despite this growing output of sophisticated digital scholarship, there has been little attempt to set standards, define

basic issues and concepts, or integrate electronic scholarship into the tenure debate. This collection of cutting-edge articles marks the first effort to evaluate the place of digital scholarship in the tenure, promotion, and review process. As a primer aimed at scholars, faculty members, and department chairs in the humanities, social sciences, and other fields, as well as deans, provosts, and university administrators, this collection examines the evolution of nontraditional scholarship, analyzes the various formats, and suggests guidelines for assessment on a scholarly level. It also examines the impact of digital scholarship in the classroom and academy and explores new directions for the future. This book will help shape policy in the murky world of tenure review and could become a central text for scholars and administrators everywhere.

Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Ensuring Adult and Non-Traditional Learners' Success With Technology, Design, and Structure - Jennings, Charity L. B. 2021-04-23

With the increasing share of adult and non-traditional students in the higher education student body, higher education faculty and

administrators must ensure that the design of programs, courses, and student services support the success of all students. The needs and wants of these adult and non-traditional learners will differ, and it is important that research helps advance the understanding of these students to increase their success, acclimation, and experience in institutions. Ensuring Adult and Non-Traditional Learners' Success With Technology, Design, and Structure is designed to provide higher education professionals with current research and research-based best practices for ensuring student success for adult learners and non-traditional students. The research presented in this book will help ensure that programs, courses, and student services are designed and implemented in a manner that supports student success for all learners in the institution. Chapters include research on student motivation, program design, educational technology, student engagement, and more. This book is intended for post-secondary administrators, faculty, teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students interested in relevant educational services for adult learners and non-traditional students.

To the Top - Jenna C. Fisher 2023-03-14

The Next-Generation Women Leadership Playbook In To the Top: How Women in Corporate Leadership Are Rewriting the Rules for Success, accomplished leadership advisor Jenna Fisher reveals how the world faces a once-in-a-generation opportunity to close the gender gap at the top of organizations today. You'll discover how traits often held by women—including compassion, empathy, communication, mentorship, and collaboration—are now in high demand. And why, in this time of volatility and disruption, women are standing on the most solid foundation for success than ever before. Drawing on scientific research and the powerful stories of women business leaders who have already made it to the top, the book sets out how we can seize this opportunity in front of us. You'll learn: Why corporate progress for women has historically been stubbornly slow and strategies for breaking through systemic biases to take a seat at the top table Why women are particularly well-suited to lead companies through the complex challenges facing our world The specific leadership skills that are in high demand and how to develop a compassionate and commanding leadership presence The stories of women business leaders at the top of organizations today—their success, their missteps, and their lessons for success An essential and insightful treatment of women leadership in a world that desperately needs more of it, To the Top is the first book since Lean In

that promises to energize and accelerate the potential of woman leaders everywhere.

The SAGE Handbook of Management Learning, Education and Development - Steven J Armstrong 2009-05-07

The scholarship of management teaching and learning has established itself as a field in its own right and this benchmark handbook is the first to provide an account of the discipline. Original chapters from leading international academics identify the key issues and map out where the discipline is going. Each chapter provides a comprehensive and critical overview of the given topic area, highlights current debates and reviews the emerging research agenda. Chapters embrace the study of organizations as a whole, the concepts of individual and collective learning, the delivery of formal management education and the facilitation of management development. Through consideration of these themes the Handbook analyzes, promotes and critiques the contribution of management learning, education and development to management understanding. It will be an invaluable point of reference for all students and researchers interested in broadening their understanding of this exciting and dynamic new field.

The 24-Carrot Manager - Adrian Gostick 2002

"After years of being driven forward by fear and intimidation, troops aren't willing to fight the battle anymore. They're leaving the ranks to join a growing number of recruits at firms that lead with carrots," say nationally renowned employee-recognition experts Adrian Gostick and Chester Elton. In this companion volume to their successful *Managing with Carrots*, Gostick and Elton present a remarkable story of how a great leader can unleash human potential, creating success in either good economies or bad.

Providing strategies and solutions for the

managers of today, this book offers answers for improving employee commitment and profitability through strategically acknowledging employee effort. How is it done? The answer is deceptively simple: with carrots. Plentiful examples show how to choose the right reward for each employee, how to time the giving of a reward to motivate performance, how to effectively present rewards, when to give praise in private and when to make it a public celebration, and how to motivate employees to work harder and work smarter with the company's goals in mind.

America the Principled - Rosabeth Moss Kanter
2007-10-23

Sometimes it seems that Americans are divided in countless ways—red or blue; black, brown, or white; rich or poor; male or female. What happened to America as the land of freedom and openness? In *America the Principled*, renowned Harvard Business School professor and bestselling author Rosabeth Moss Kanter tackles the hardest questions our nation faces, and challenges us to recommit ourselves to pursuing our nation's noblest goals: equality and opportunity. As our open minds, open markets, and open borders—our nation's highest ideals—are besieged by ideologues and zealots, Dr. Kanter shows us how to recapture the American Dream. Artfully mixing practical ideas with compassionate guidance, she reminds us that the stakes have never been higher: Our

economic vitality and democratic ideals are both at risk. In order to compete in the global market, we must invest in people and ideas, reward hard work, value dialogue and debate, and listen to dissenting voices. We must curtail our desire for worldwide empire, build bridges through citizen diplomacy, and pursue happiness instead of hegemony. Dr. Kanter proposes six vital items on the agenda for restoring American strengths:

- Widening the net of prosperity by creating opportunities for people of all social and economic classes to participate in the science-based “white coat” economy. We can't afford to have large segments of people—and areas of our country—existing outside the foundations of our future, innovation-seeking society.
- Supporting real family values through fair and flexible workplaces that reduce stress and close gender gaps, enabling people to earn a living, be productive, and have the time and energy for the other side of life
- Ridding the private sector of imperial excess by instilling a values-based capitalism of businesses that are well run, make lots of money, and do lots of good
- Reinventing government and stop denigrating it so that when the next Katrina strikes, we have the right people in place with the motivation, capability, and resources to deal with it
- Doing something about the “Ugly American” by earning back the respect that we have lost in the last six years through individual grass-roots engagement with people in

other countries • Moving from “me” to “we” through national service programs that tap both young people as well as aging baby boomers to create a community ethos that unites people behind common purposes Empowering and surprisingly optimistic, *America the Principled* urges us to work together for a bright future we’ll be proud to share, having earned the respect of the world once more—and shows us how to do it.

Success with your Education Research Project - John Sharp 2009-01-08

Research projects are carried out in schools and non-school settings by virtually all final-year undergraduates in the areas of teacher training, Education Studies and other educational contexts, and often in earlier years too. This text, part of the Study Skills in Education series, is written for this specific target audience, and makes clear references to these courses and contexts throughout. Hot topics such as using the net and plagiarism are covered with up-to-date information, while key content on literature searches, critical thinking and the development of argument provide clear guidance and ensure academic rigour.

Coercion - Kelly M. Greenhill 2018

In 'Coercion', leading international relations scholars Kelly M. Greenhill and Peter Krause have gathered together an eminent cast of

contributors to produce what promises to be a field-shaping work on one of IR's most essential subjects: coercion, whether in the form of compellence, deterrence, or a mix of the two. The volume moves beyond these traditional premises and examines the critical issue of coercion in the 21st century, capturing fresh theoretical and policy relevant developments and drawing upon data and cases from across time and around the globe.

The Psychology of Friendship - Mahzad Hojjat 2016-10-24

In the late 20th and 21st centuries, the meteoric rise of countless social media platforms and mobile applications have illuminated the profound need friendship and connection have in all of our lives; and yet, very few scholarly volumes have focused on this unique and important bond during this new era of relating to one another. Exploring such topics as friendship and social media, friendship with current and past romantic partners, co-workers, mentors, and even pets, editors Mahzad Hojjat and Anne Moyer lead an expert group of global contributors as they each explore how friendship factors within our lives today. What does it mean to be a friend? What roles do friendships play in our own development? How do we befriend those across the race, ethnicity, gender, and orientation spectrums? What happens when a friendship turns sour? What is the effect of friendship - good

and bad - on our mental health? Providing a much needed update to the field of interpersonal relations, *The Psychology of Friendship* serves as a field guide for readers as they shed traditional definitions of friendship in favor of contemporary contexts and connections.

Human Agency at Work - Dr. Michael Goller
2017-05-05

Michael Goller gives a structured overview of the current discourses of human agency in relation to professional learning and development. Based on this discussion, the author develops a theoretical framework including human agency as an individual feature (i. e., a disposition) as well as a set of self-initiated and goal-directed behaviours that are assumed to affect employees' learning and development (e. g., crafting of new work experiences). He then further specifies this theoretical framework and investigates it empirically in the domain of geriatric care nursing.

Based on the findings of the three empirical studies conducted, the author discusses the relevance of human agency for the development of professional expertise of geriatric care nurses.

The work received the American Educational Research Association (AERA) Workplace Learning SIG 2017 Dissertation of the Year Award.

Journal - White Rose - W. M. Journals

2016-06-22

If you are going through life right now feeling like everything is out of control or that things are not happening the way you planned, you need a journal to write in. Not to be too direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. WM Journals provides you with the perfect place to write about all of that self exploration. Or you can just write stuff in your journal! The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, a place for your short stories, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more than just a notepad then keep reading. Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling doesn't matter as they kept a record of their goals, success, failures, feelings and their daily life. Your journal contains the answers to your most burning questions. It is literally the best

self-help book you could ever read because it is all about you. Just some of the benefits of journaling are:*

- * Allows you to reflect on your life and the changes you are choosing to make or not make*
- * Clarifies your thinking and as Tony Robbins says "Clarity is Power"*
- * Houses all your million dollar ideas that normally get lost in all the noise of life*
- * Exposes repeated patterns of behaviors that get you the results you DON'T want*
- * Acts as a bucket for you to brain dump in - a cluttered mind leads to a disorganized life*
- * Revisits daily situations giving you a chance to look at it with a different perspective*
- * Doesn't crash and lose everything you put into it like electronics (just like electronics though don't get it wet)

You may want to keep multiple journals; one that contains your truest and most secret feelings that you guard heavily, but need a way to express. Another that contains all those fantastic ideas, creative endeavors, dreams and awesome goals. Maybe just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life. Let's look past the simple fact you know how to physically write in a journal and dig into how to actually use your journal. It might contain all the secrets to life's biggest problems but unless you know how to uncover those secrets they stay hidden away in your words.* Let the words flow from the heart and be filled with emotions, no holdbacks*

Make a daily journaling

schedule. Each and every day take the time to record your thoughts morning and night. If you love to type notes into your phone all day transfer them to your journal after.* Sit in a quiet spot and allow yourself to be emotionally and creatively free. Your journal is not a reason to turn yourself into an emotional punching bag.* Start small. You do not need to write a specific number of words. Just the right amount of honest words that let you feel a sense of being free from negativity and energized with possibility.* If you write in your journal like someone is going to read it, you will ever allow yourself to fully express what needs to be expressed. Write like no one will ever read it because it is likely no one ever will unless you want them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I bought this awesome journal and will recommend all my friends do the same." At 6x9, WM Journals fit in most purses, totes and backpacks. WM Journals make a perfect gift for yourself or the writer in your life. 200 Writable Pages Measures 6"x9" Full Glossy Color Exterior B&W Interior on Cream Paper Softcover

Handbook of Research on Managing Information Systems in Developing Economies - Boateng, Richard 2020-04-17

Technology provides accessibility otherwise unavailable to the people who can benefit from it

the most. As new digital tools become less expensive and more widely available, research and real-world cases that examine the union between emergent countries and information systems are essential in determining the next steps for these nations. The Handbook of Research on Managing Information Systems in Developing Economies is a pivotal reference source that explores the effects of technological data handling within developing economies. Covering a broad range of topics such as emerging digital technologies, socio-economic development, and technology startups, this book is ideally designed for software programmers, policymakers, practitioners, educators, academicians, students, and researchers.

Shoe and Leather Journal - 1920

Mindset - Carol S. Dweck 2007-12-26

From the renowned psychologist who introduced the world to “growth mindset” comes this updated edition of the million-copy bestseller—featuring transformative insights into redefining success, building lifelong resilience, and supercharging self-improvement. “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes “It’s not always the people who start out the smartest who end up the smartest.” After decades of research, world-

renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.
