Strategic Management and Business Policy - Thomas L. Wheelen 1998

Business Analysis and Valuation - Sue Joy Wright 2014

Business Analysis and Valuation has been developed specifically for students undertaking accounting Valuation subjects. With a significant number of case studies exploring various issues in this field, including a running chapter example, it offers a practical and in-depth approach. This second edition of the Palepu text has been revitalised with all new Australian content in parts 1-3, making this edition predominantly local, while still retaining a selection of the much admired and rigorous Harvard case studies in part 4. Retaining the same author team, this new edition presents the field of valuation accounting in the Australian context in a clear, logical and thorough manner.

Business Accounting - Frank Wood 1997-09

Written for South African students on a first course in financial accounting at foundation level, first degree level or the first level of professional accountancy courses, this text provides information on accounting standards extant in Ireland and the relevant provisions of company law.

Intermediate Financial Management - Eugene F. Brigham 2018-05-07

The only textbook written specifically for Intermediate or Advanced Corporate Finance courses, Brigham/Daves' INTERMEDIATE FINANCIAL MANAGEMENT, 13E equips readers with a solid understanding of both conceptual theories and practical financial skills. With corporate valuation as a unifying theme, the text emphasizes the theoretic groundwork for value maximization, while actual business examples, integrated cases and Excel spreadsheet models demonstrate how financial theory in practice leads to solid financial decisions. Combining a clear, focused presentation with the most current coverage available, the 13th Edition delivers an in-depth introduction to core financial theories as well as emerging financial management developments and issues. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Accounting, Text and Cases - Robert Newton Anthony 1983

ACCOUNTING: Text and Cases, 10/E is a 28 chapter book. Chapters 1-14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that largely make up the end-of-chapter material are a combination of classic Harvard style cases, as well as extended problems. New to this edition is the inclusion of 2-3 problems per chapter. These problems, while not as involved as the case material, allow the students to exercise the concepts

demonstrated in each chapter. The goal of the problem material is to provide a transition to the case material, which is a response to customer requests.

Financial Reporting and Analysis - Charles H. Gibson 2012-05-10

Now you can teach financial accounting from both a user's and preparer's perspective with a wealth of actual examples, cases, and real financial statements found in Gibson's FINANCIAL REPORTING & ANALYSIS: USING FINANCIAL ACCOUNTING INFORMATION, 13e. This effective text emphasizes the analysis and interpretation of the end result of financial reporting--financial statements. The author focuses on the language and preparation of financial statements throughout. Students analyze real financial reports, 10Ks, proxy statements, other exhibits, and cases drawn from actual companies. Nike, used as a continuing focus company throughout the text, provides the opportunity for students to become familiar with a single organization and better understand the meaning of its statements within a competitive context. In addition to a wide variety of problems, questions, cases, and Web references for practice and application, students also have access to the robust Thomson ONE: Business School Edition--the same online financial analysis tool used by Wall Street professionals every day. With the book's well-organized framework for learning and emphasis on numerous industries, your students leave the course prepared for success, no matter what area of business they pursue. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Applied Corporate Finance, 4th Edition - Aswath Damodaran 2014-10-27

Aswath Damodaran, distinguished author, Professor of Finance, and David Margolis, Teaching Fellow at the NYU Stern School of Business, have delivered the newest edition of Applied Corporate Finance. This readable text provides the practical advice students and practitioners need rather than a sole concentration on debate theory, assumptions, or models. Like no other text of its kind, Applied Corporate Finance, 4th Edition applies corporate finance to real companies. It now contains six real-world core companies to study and follow. Business decisions are classified for students into three groups: investment, financing, and dividend decisions.

Accounting Theory - Jayne M. Godfrey 1994-01

Second edition of a 1992 Australian adaptation of a US text for undergraduate and postgraduate students of accounting theory. Focuses separately on the theoretical and professional approaches to accounting. Includes student exercises, index and tables. The authors are Australian and US academics.

Strategic Management - Fred R. David 2015

"In today's economy, gaining and sustaining a competitive advantage is harder than

ever. Strategic Management captures the complexity of the current business environment and delivers the latest skills and concepts with unrivaled clarity, helping students develop their own cutting-edge strategy through skill-developing exercises"--Publisher's website.

Accounting Principles, 13th edition EPUB Reg Card with LLPC and WileyPLUS Card Set
- Jerry J. Weygandt 2018-01-16

Managerial Accounting - Kurt Heisinger 2018

Financial Accounting and Reporting - Barry Elliott 2011

Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.

Financial Statement Analysis - John J. Wild 2007

Financial Statement Analysis, 9e, emphasizes effective business analysis and decision making by analysts, investors, managers, and other stakeholders of the company. It continues to set the standard (over 8 prior editions and hundreds of thousands in unit book sales) in showing students the keys to effective financial statement analysis. It begins with an overview (chapters 1-2), followed by accounting analysis (chapters 3-6) and then financial analysis (chapters 7-11). The book presents a balanced view of analysis, including both equity and credit analysis, and both cash-based and earnings-based valuation models. The book is aimed at accounting and finance classes, and the professional audience as it shows the relevance of financial statement analysis to all business decision makers. The authors: 1. Use numerous and timely "real world" examples and cases 2. Draw heavily on actual excerpts from financial reports and footnotes 3. Focus on analysis and interpretation of financial reports and their footnotes 4. Illustrate debt and equity valuation that uses results of financial statement analysis 5. Have a concise writing style to make the material accessible

Contemporary Research on Business and Management - Siska Noviaristanti 2020-09-15

This book contains selected papers presented at the 3rd International Seminar of Contemporary Research on Business and Management (ISCRBM 2019), which was organized by the Alliance of Indonesian Master of Management Program (APMMI) and held in Jakarta, Indonesia on 27-29th November 2019. It was hosted by the Master of Management Program Indonesia University and co-hosts Airlangga University, Sriwijaya University, Trunojoyo University of Madura, and Telkom University, and supported by Telkom Indonesia and Triputra. The seminar aimed to provide a forum for leading scholars, academics, researchers, and practitioners in business and management area to reflect on current issues, challenges and opportunities, and to share the latest innovative research and best practice. This seminar brought together participants to exchange ideas on the future development of management disciplines: human resources, marketing, operations, finance, strategic management and entrepreneurship.

Loose Leaf for Business Foundations - O. C. Ferrell 2017-01-30

Business Foundations: A Changing World carefully blends the right mix of content

and applications to give students a firm grounding in business principles. Where other products have you sprinting through the semester to cover everything, Business Foundations: A Changing World allows breathing space to explore topics and incorporate additional activities to complement your teaching. Build from the ground up, Business Foundations: A Changing World is for faculty and students who value a briefer, flexible, and integrated resource that is exciting, happening, focused and applicable! What sets this learning program apart from the competition? An unrivaled, focused mixture of exciting content and resources blended with application examples, activities, and fresh topics that show students what is happening in the world of business today!

Financial Management - Eugene F. Brigham 2002

Intended for use in an introductory finance course, this textbook emphasizes the skills needed to make good financial decisions. It outlines fundamental concepts and provides detailed discussions of topics like securities, corporate valuation, strategic investment, and working capital management. Two CD-ROMs contain displays, tools kits, models, files, spreadsheets, and reference materials. Brigham teaches at the University of Florida. Ehrhardt teaches at the University of Tennessee. Distributed by ISBS. c. Book News Inc.

Managerial Accounting - Garrison 2008-10-15

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of Managerial Accounting by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting 8ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.

Essentials of Accounting - Robert Newton Anthony 2003

-- Exhibits post tests answers to post tests glossary and index.

Introduction to Management Science with Spreadsheets - William J. Stevenson 2007

This text combines the market leading writing and presentation skills of Bill Stevenson with integrated, thorough, Excel modeling from Ceyhun Ozgur. Professor Ozgur teaches Management Science, Operations, and Statistics using Excel, at the undergraduate and MBA levels at Valparaiso University --and Ozgur developed and tested all examples, problems and cases with his students. The authors have written this text for students who have no significant mathematics training and only the most elementary experience with Excel.

Advanced Accounting - Floyd A. Beams 2013-07-17

For undergraduate and graduate courses in advanced accounting. An in-depth guide to accounting that reflects the most up-to-date business developments. This comprehensive textbook addresses practical financial reporting problems while reflecting recent business developments and changes in accounting standards. This edition has been rewritten to align with the Financial Accounting Standards Board Accounting Standards Codification.

Evidence - R. J. Delisle 2010

Financial Reporting & Analysis - Charles H. Gibson 2004

The extensively revised 8th edition thoroughly involves readers with Financial Statements by using real-world examples. The emphasis is on the analysis and interpretation of the end result of financial reporting and financial statements.

Governing Texas - Anthony Champagne 2017

The #1 selling book for Texas government courses, with a new focus on the future of Texas politics.

Business Law: Text & Cases - Commercial Law for Accountants - Roger LeRoy Miller 2016-12-05

Comprehensive, authoritative, and reader-friendly, market-leader BUSINESS LAW: TEXT AND CASES - Commercial Law for Accountants delivers an ideal blend of classic black letter law and cutting-edge contemporary issues and cases. Today, BUSINESS LAW - Commercial Law for Accountants, 14E continues to set the standard for excellence. The book's strong reader orientation makes the law accessible, interesting, and relevant. Intriguing cases, timely content, and effective learning features are thoroughly updated to represent the latest developments in business law. Cases range from precedent-setting landmarks to important recent decisions. Ethical, global, e-commerce, digital, and corporate themes are integrated throughout this edition with new features, such as new Digital Update that shows how digital progress is affecting the law. Numbered examples, Case in Points, sample answers, new reader-friendly Concept Summary Designs and helpful exhibits all work together to ensure reader comprehension. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Management Information Systems - Kenneth C. Laudon 2004

Management Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases.

Principles of Financial Accounting - Christine Jonick 2018-09-30

The University of North Georgia Press and Affordable Learning Georgia bring you Principles of Financial Accounting. Well-written and straightforward, Principles of Financial Accounting is a needed contribution to open source pedagogy in the business education world. Written in order to directly meet the needs of her students, this textbook developed from Dr. Christine Jonick's years of teaching and commitment to effective pedagogy. Features: Peer reviewed by academic professionals and tested by students Over 100 charts and graphs Instructional exercises appearing both in-text and for Excel Resources for student professional development

The Financial Numbers Game - Charles W. Mulford 2011-03-10

Praise for The Financial Numbers Game "So much for the notion 'those who can, do those who can't, teach.' Mulford and Comiskey function successfully both as college professors and real-world financial mercenaries. These guys know their balance sheets. The Financial Numbers Game should serve as a survival manual for both serious individual investors and industry pros who study and act upon the interpretation of financial statements. This unique blend of battle-earned scholarship and quality writing is a must-read/must-have reference for serious

financial statement analysis." --Bob Acker, Editor/Publisher, The Acker Letter "Wall Street's unforgiving attention to quarterly earnings presents ever increasing pressure on CFOs to manage earnings and expectations. The Financial Numbers Game provides a clear explanation of the ways in which management can stretch, bend, and break accounting rules to reach the desired bottom line. This arms the serious investor or financial analyst with the healthy skepticism required to drive beyond reported results to a clear understanding of a firm's true performance." --Mark Hurley, Managing Director, Training and Development, Global Corporate and Investment Banking, Bank of America "After reading The Financial Numbers Game, I feel as though I've taken a master's level course in financial statement analysis. Mulford and Comiskey's latest book should be required reading for anyone who is serious about fundamentally analyzing stocks." --Harry Domash, San Francisco Chronicle investing columnist and investment newsletter publisher

Accounting - Robert Newton Anthony 2011

Accounting: Text and Cases is a product of lifelong dedication to the discipline of accounting. Covering both financial and managerial accounting as well as broader managerial issues, the book incorporates a breadth of experience that is sure to enrich your course and your students. The 109 cases that make up most of the end of chapter material are a combination of classic Harvard style cases and extended problems, with 12 complete new cases added to the thirteenth edition. -- Book Jacket.

Ask a Manager - Alison Green 2018-05-01

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations--featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does--and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you--then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged--or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."--Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."--Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces--and to do so with grace, confidence, and a sense of humor."--Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."--Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

Financial Accounting Theory and Analysis - Richard G. Schroeder 2019-10-01

Financial Accounting Theory and Analysis: Text and Cases, 13th Edition illustrates how accounting standards impact the daily decisions of accounting professionals. This authoritative textbook shows how accounting theory explains why particular companies select certain accounting methods over others, and predicts the attributes of firms by analyzing their accounting methods. The text examines empirical research relevant to various theories of accounting and the uses of accounting information, including the fundamental analysis model, the efficient markets hypothesis, the behavioral finance model, the positive accounting theory model, the human information processing model, and the value creation model. Enabling students to develop an informed perspective on accounting theory, the text reviews the development and current state of accounting theory and summarizes current disclosure requirements for various financial statement items. The new edition has been fully revised to reflect current methods of accounting education, including the incorporation of ethics into the curriculum, the analysis of a company's quality of earnings and sustainable income, the use of the internet as a source of information, the international dimensions of accounting, and more. Designed for undergraduate and graduate accounting majors, the text aligns with the latest curriculum changes in the CPA exam.

Torts - William Loutit Morison 2012

Covers the essential topics in torts law. The law is analysed in an accessible manner and is designed to encourage understanding and reflective thinking and to develop students' skills for analysis.

Two new chapters cover periimplantitis and resolving inflammation. NEW! Section on evidence-based practice consists of two chapters covering evidence-based decision making and critical thinking.

Pharmaceutical Calculations - Mitchell J. Stoklosa 1986

Financial Accounting - David Alexander 2013

Financial Accounting is the ideal introductory book to anyone with little prior knowledge or new to this subject area. Its clear writing style and unique international focus builds on the success of the previous editions. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary and real world examples from Europe, US and beyond. 'A hugely enjoyable and informative book with an international focus' Eleimon Gonis, University of the West of England, Bristol 'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow What's new! Updated to be fully compliant with International Financial Reporting Standards (IFRS) New coverage on ethics and corporate social accounting, creative accounting and groups as reporting entities Expanded discussion of revenue recognition and Islamic accounting and finance Numerous examples taken from European Union (EU) and the wider European Economic Area (EEA), showing the rules and practices of particular European countries or companies New end-of-chapter practice questions with guided solutions The text is ideal for undergraduates and MBA students worldwide, taking a first course in financial accounting. Visit www.pearsoned.co.uk/alexander to find valuable online resources for both students and lecturers, including links to relevant websites, additional practice questions, an instructor's manual and full set of power point slides. David Alexander is Professor Emeritus of Accounting at the University of Birmingham Business School, England. Christopher Nobes is Professor of Accounting at Royal Holloway, University of London, England. He is also Professor at the University of Sydney, and Adjunct Professor at the Norwegian Business School. From 1993 to 2001 he was a member of the board of the International Accounting Standards Committee.

Business Ethics - O. C. Ferrell 1990-12

Writing Research Papers - Lester James D 2014-01-27

The definitive research paper guide, Writing Research Papers combines a traditional and practical approach to the research process with the latest information on electronic research and presentation. This market-leading text provides students with step-by-step guidance through the research writing process, from selecting and narrowing a topic to formatting the finished document. Writing Research Papers backs up its instruction with the most complete array of samples of any writing guide of this nature. The text continues its extremely thorough and accurate coverage of citation styles for a wide variety of disciplines. The fourteenth edition maintains Lester's successful approach while bringing new writing and documentation updates to assist the student researcher in keeping pace with electronic sources.

Blown to Bits - Harold Abelson 2008

'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

Frank Wood's Business Accounting 1 - Frank Wood 2011

This is the latest edition of the world's best-selling textbook on bookkeeping and accounting. It contains a large number of questions and answers and worked

examples.

Principles of Management - Openstax 2022-03-25

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.
