The Abaya Chronicles - Tina Leshner 2010-10-27

Since the discovery of oil in the Middle East, life has changed dramatically for 60-year-old Farah Abdullah al Matari of the United Arab Emirates. Raised in poverty in the desert, she now lives with her daughter in a spacious Abu Dhabi villa with a domestic staff. But the independent woman wants more out of life than sitting around and being waited on. The *Abaya Chronicles* centers on Farah, her family and her friends. In many respects, the novel also provides an education about life in an oil-rich country.

Less - Rachel Aust 2018-06-12

Simplify life and amplify living by mastering the fundamentals of minimalism through this visual guide to embracing a minimalist lifestyle. How can living with less contribute to a greater sense of fulfillment? It seems contradictory, yet the minimalist lifestyle, which focuses on scaling back your possessions and simplifying your life to just the essentials, achieves just that. Adopt minimal living, and you'll find that less is more: More time because you don't waste it caring for and organizing stuff. More space because you don't fill it with objects of marginal value. More money because you don't spend it on unnecessary things. More clarity because your mind isn't bogged down by the clutter around you. More enjoyment because your energy is spent on experiences and connections. Using decision trees, flow charts, icons, and other graphics, *Less* shows how minimalism can be applied to any area of life--including home, wardrobe, decor, cooking, cleaning, finances, and organizing your time--and how it can be adapted to suit your own goals and help you achieve your version of happiness.

Gender and Sexuality in Muslim Cultures - Gul Ozyegin 2016-03-09

A must-read for anyone interested in Muslim cultures, this volume not

only explores Muslim identities through the lens of sexuality and gender - their historical and contemporary transformations and local and global articulations - but also interrogates our understanding of what constitutes a 'Muslim' identity in selected Muslim-majority countries at this pivotal historical moment, characterized by transformative destabilizations in which national, ethnic, and religious boundaries are being re-imagined and re-made. Contributors take on the most fundamental questions at the intersections of gender, sexuality, and the body. Several overarching questions frame the volume: How does studying gender and sexuality expand and enrich our understanding of Muslim-majority countries, historically and at present? How does the embodiment of 'Muslim' identity get reconfigured in the context of twenty-first-century globalism? What analytical questions are raised about 'Islam' when its diverse meanings and multifaceted expressions are closely examined? What roles do gender and sexuality play in the construction of cultural, religious, nationalistic, communal, and militaristic identities? How have power struggles been signified in and on the bodies of women and sexuality? How have global dynamics, such as the intensification and spread of neoliberal ideologies and policies, affected changing dynamics of gender and sexuality in specific locales? Here global dynamics touch down in diverse contexts, from masculinity crises around war disabilities, transnational marriages, and fathering in Turkey, Egypt, and Pakistan; to Muslim femininity narratives around female genital cutting, sexuality in divorce proceedings, and spouse selection; to gender crossing practices as well as protesting bodies, queering voices, and claims of authenticity in literary and political discourse. This book brings exciting research on these and other topics together in one place, allowing the essa

Pattern Cutting and Making Up - Janet Ward 2012-08-21

Major changes have occurred in the last few years in the methods of cutting and manufacturing outerwear. Light clothing companies are now manufacturing these heavy garments because of the development of fusible interlinings and new manufacturing techniques which have

resulted in the deskilling of traditional tailoring methods. Outerwear has consequently assumed much greater importance in light clothing courses and this book - the first of its kind - has been written to reflect these industrial changes. It offers a course of practical and theoretical study which is related to specific garment types and fabrics. An essential manual for students at every level. Suitable for use in CGLI, BTEC and degree courses, this uniquely comprehensive work is certain to become a standard textbook on its subject.

Journalism and Politics in Indonesia - David T. Hill 2010-01-21

Mochtar Lubis was one of Indonesia's best-known newspaper editors, authors and cultural figures, with a national, regional and international prominence that he retained from the early 1950s until his recent death in 2004. This book traces the major events in the life of Mochtar Lubis, which is also a prism through which much of Indonesia's post-independence history can be interpreted. This book is also the story of Indonesia in the second half of the twentieth century, when the people of the archipelago became an independent nation, and when print media and the influential

figures who controlled and produced newspapers, played a pivotal role in national political, educational and cultural life, defining Indonesia. Editors with strong personalities dominated the industry and sparred with the nation's leadership; Lubis was a vocal critic of the abuse of power and a thorn in the side of the country's first two presidents, becoming synonymous with combative journalism. Under both Sukarno and Suharto, Lubis had his newspaper closed down and was imprisoned. As the only comprehensive biography of this towering figure, the book provides a unique insight into the history and development of media, literature and the political system in Indonesia.

Chart Patterns - Thomas N. Bulkowski 2016-06-01

Take chart patterns beyond buy triggers to increase profits and make better trades Chart Patterns: After the Buy goes beyond simple chart pattern identification to show what comes next. Author and stock trader Thomas Bulkowski is one of the industry's most respected authorities in technical analysis; for this book, he examined over 43,000 chart patterns to discover what happens after you buy the stock. His findings are detailed here, to help you select better buy signals, avoid disaster, and make more money. Bulkowski analyzed thousands of trades to identify common paths a stock takes after the breakout from a chart pattern. By combining those paths, he discovered the typical routes a stock takes, which he calls configurations. Match your chart to one of those configurations and you will know, before you buy, how your trade will likely perform. Now you can avoid potentially disastrous trades to focus on the big winners. Each chapter illustrates the behavior of a specific pattern. Identification guidelines help even beginners recognize common patterns, and expert analysis sheds light on the period of the stock's behavior that actually affects your investment. You'll discover ideal buy and sell setups, how to set price targets, and more, with almost 370 charts and illustrations to guide you each step of the way. Coverage includes the most common and popular patterns, but also the lesser-

known ones like bad earnings surprises, price mirrors, price mountains, and straight-line runs. Whether you're new to chart patterns or an experienced professional, this book provides the insight you need to select better trades. Identify chart patterns Select better buy signals Predict future behavior Learn the best stop locations Knowing the pattern is one thing, but knowing how often a stop will trigger and how often you can expect a stock to reach its target price is another matter entirely—and it impacts your trade performance immensely. Chart Patterns: After the Buy is the essential reference guide to using chart patterns effectively throughout the entire life of the trade.

In Your Defence - Sarah Langford 2018-06-28

'As thrilling as a detective novel.' The Times 'Powerful, moving and often captivating.' Financial Times 'A compelling read for anyone who cares about fairness, justice and humanity.' Observer The Sunday Times bestseller ___ Sarah Langford is a barrister. Her job is to stand in court representing the mad and the bad, the vulnerable, the heartbroken and the hopeful. She must become their voice. Sarah weaves their story around the black and white of the law and tell it to the courtroom. These stories may not make headlines but they will change the lives of ordinary people in extraordinary ways. They are stories which, but for a twist of luck, might have been yours. With remarkable candour, Sarah describes eleven cases which reveal what goes on in our criminal and family courts: these are tales of domestic fall out, everyday burglary, sexual indiscretion, and children caught up in the law. They are sometimes shocking and they are often heart-stopping. She examines how she feels as she defends the person standing in the dock. She also shows us how our attitudes and actions can shape not only the outcome of a case, but the legal system itself. ___ What readers are saying: ***** 'Absolutely fascinating . . . thought provoking, powerful and a compelling read.' ***** 'This book broke my heart at times but also contained humour and such poignant insights into the criminal justice system.' ***** 'Sarah writes incredibly well - she's informative while maintaining suspense and tension, and conveys so much emotion in her writing

Julian Assange - Julian Assange 2011-09-22

In December 2010, Julian Assange signed a contract with Canongate Books to write a book – part memoir, part manifesto – for publication the following year. At the time, Julian said: 'I hope this book will become one of the unifying documents of our generation. In this highly personal work, I explain our global struggle to force a new relationship between the people and their governments.' In the end, the work was to prove too personal. Despite sitting for more than fifty hours of taped interviews and spending many late nights at Ellingham Hall (where he was living under house arrest) discussing his life and the work of WikiLeaks with the writer

he had enlisted to help him, Julian became increasingly troubled by the thought of publishing an autobiography. After reading the first draft of the book at the end of March, Julian declared: 'All memoir is prostitution.' In June 2011, with thirty-eight publishing houses around the world committed to releasing the book, Julian told us he wanted to cancel his contract. We disagree with Julian's assessment of the book. We believe it explains both the man and his work, underlining his commitment to the truth. Julian always claimed the book was well written; we agree, and this also encouraged us to make the book available to readers. And the contract? By the time Julian wanted to cancel the deal he had already used the advance money to settle his legal bills. So the contract still stands. We have decided to honour it – and to publish. This book is the unauthorised first draft. It is passionate, provocative and opinionated – like its author. It fulfils the promise of the original proposal and we are proud to publish it. Canongate Books, September 2011

Colloquial Jakartan Indonesian - James N. Sneddon 2006

This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little attention has been paid to informal styles of the language. The variety described here, Colloquial Jakartan Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta . While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

Women's Rights in the Middle East and North Africa - Sanja Kelly

2010-07-16

Freedom House's innovative publication *Women's Rights in the Middle East and North Africa: Progress Amid Resistance* analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. Freedom House is an independent nongovernmental organization that supports democratic change, monitors freedom, and advocates for democracy and human rights. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

Arab Dress - Yedida Kalfon Stillman 2000

Hilary Putnam has been convinced for some time that the present situation in philosophy calls for revitalization and renewal; in this latest book he shows us what shape he would like that renewal to take. *Words and Life* offers a sweeping account of the sources of several of the central problems of philosophy, past and present, and of why some of those problems are not going to go away. As the titles of the first four parts in the volume--"The Return of Aristotle," "The Legacy of Logical Positivism," "The Inheritance of Pragmatism," and "Essays after Wittgenstein"--suggest, many of the essays are concerned with tracing the recent, and the not so recent, history of these problems. The goal is to bring out what is coercive and arbitrary about some of our present ways of posing the problems and what is of continuing interest in certain past approaches to them. Various supposedly timeless philosophical problems appear, on closer inspection, to change with altered historical circumstances, while there turns out to be much of permanent value in Aristotle's, Peirce's, Dewey's, and Reichenbach's work on some of the problems that continue to exercise us. A unifying theme of the volume as a whole is that reductionism, scientism, and old-style disenchanting naturalism tend to be obstacles to philosophical progress. The titles of the final three parts of the volume--"Truth and Reference," "Mind and Language," and "The Diversity of the Sciences"--indicate that the sweep of the problems considered here comprehends all the fundamental areas of contemporary analytic philosophy. Rich in detail, the book is also grand in scope, allowing us to trace the ongoing intellectual evolution of one of the most significant philosophers of the century.

Minecraft the Ultimate Explorer's Gift Box - Mojang 2021-09-02

Draw Your Weapons - Sarah Sentilles 2017-07-04

A single book might not change the world. But this utterly original meditation on art and war might transform the way you see the world—and that makes all the difference. “How to live in the face of so much suffering? What difference can one person make in this beautiful, imperfect, and imperiled world?” Through a dazzling combination of memoir, history, reporting, visual culture, literature, and theology, Sarah Sentilles offers an impassioned defense of life lived by peace and principle. It is a literary collage with an urgent hope at its core: that art might offer tools for remaking the world. In *Draw Your Weapons*, Sentilles tells the true stories of Howard, a conscientious objector during World War II, and Miles, a former prison guard at Abu Ghraib, and in the process she challenges conventional thinking about how war is waged, witnessed, and resisted. The pacifist and the soldier both create art in response to war: Howard builds a violin; Miles paints portraits of detainees. With echoes of Susan Sontag and Maggie Nelson, Sentilles investigates images of violence from the era of slavery to the drone age. In doing so, she wrestles with some of our most profound questions: What does it take to inspire compassion? What impact can one person have? How should we respond to violence when it feels like it can't be stopped? Praise for *Draw Your Weapons* “A collage of death, savagery, torture, and trauma across generations and continents, Sarah Sentilles's *Draw Your Weapons* is painful to read, hard to put down, and impossible to forget.”—O: The Oprah Magazine “In her dynamic, impressionistic (and cleverly titled) book, Sentilles focuses on language and images—particularly photography—and considers what role they play in peace and war. Eschewing a traditional narrative, Sentilles focuses on two men—one a World War II conscience objector who makes violins, and the other an Abu Ghraib prison guard who paints detainee portraits. In brief, delicately layered pieces rather than a narrative, Sentilles has created a collage that explores art, violence, and what it means to live a principled life.”—The National Book Review “It's the kind of book that, after reading just half, you have to stop and catch your breath, because reading it changes you, not just in terms of what you know—it changes the way you think and how

you feel—so much so that, halfway in, I wanted to go back and start again because I felt I was already a different person to the person I was when I began.”—Turnaround
