Advanced Problem Solving with Maple - William P. Fox 2019-05-29
Problem Solving is essential to solve real-world problems. *Advanced Problem Solving with Maple: A First Course* applies the mathematical modeling process by formulating, building, solving, analyzing, and criticizing mathematical models. It is intended for a course introducing students to mathematical topics they will revisit within their further studies. The authors present mathematical modeling and problem-solving topics using Maple as the computer algebra system for mathematical explorations, as well as obtaining plots that help readers perform analyses. The book presents cogent applications that demonstrate an effective use of Maple, provide discussions of the results obtained using Maple, and stimulate thought and analysis of additional applications. Highlights: The book's real-world case studies prepare the student for modeling applications Bridges the study of topics and applications to various fields of mathematics, science, and engineering Features a flexible format and tiered approach offers courses for students at various levels The book can be used for students with only algebra or calculus behind them About the authors: Dr. William P. Fox is an emeritus professor in the Department of Defense Analysis at the Naval Postgraduate School. Currently, he is an adjunct professor, Department of Mathematics, the College of William and Mary. He received his Ph.D. at Clemson University and has many publications and scholarly activities including twenty books and over one hundred and fifty journal articles. William C. Bauldry, Prof. Emeritus and Adjunct Research Prof. of Mathematics at Appalachian State University, received his PhD in Approximation Theory from Ohio State.

He has published many papers on pedagogy and technology, often using Maple, and has been the PI of several NSF-funded projects incorporating technology and modeling into math courses. He currently serves as Associate Director of COMAP's Math Contest in Modeling (MCM).

English in mind - Herbert Puchta 2004-01-01

English in Mind is a 4-level course for teenagers. Each level contains 16 units grouped into 4 modules. Clear learning objectives at the beginning of each module, plus 'Check your Progress' sections at the end, help students and teachers plan learning more effectively. Each level of the course provides 80-90 hours of class work with extra photocopiable activities and tests in the Teacher's Resource Pack. The Workbook comes with a free CD combining interactive CD-ROM and audio material. The course can be used with mixed-ability classes and offers dual entry points - starter level is for complete beginners, Level 1 is for elementary students and contains a 16-page starter section to revise key language. Levels 2 and 3 take students from pre-intermediate to intermediate level. The Polish version caters specifically for Polish students, giving them Polish rubrics and Polish wordlists.

Oxford Thesaurus of English - Maurice Waite 2009-08-13

"The leading single-volume English thesaurus explores the richness of the English language with hundreds of thousands of synonyms and antonyms, and thousands of example sentences drawn from the Oxford English Corpus; finds the word you need quickly with carefully chosen and arranged synonyms; broadens your vocabulary and finds solutions to word puzzles and crosswords with hundreds of thematic word lists; and helps express yourself more accurately with

hundreds of 'Choose the Right Word' boxes exploring the difference between similar words." --Book Jacket.

Complete First Certificate Student's Book Pack - Guy Brook-Hart 2008-04-24

Complete First Certificate is a new course for the 2008 revised FCE exam. Informed by the Cambridge Learner Corpus and providing a complete FCE exam paper specially prepared for publication by Cambridge ESOL, it is the most authentic exam preparation course available. This topic-based course covers every part of the FCE exam in detail, ensuring that students are fully equipped to tackle each part of every paper. In addition, the accompanying free CD-ROM enables students to focus on their own particular areas of difficulty and work at their own pace.

Polish Customs, Traditions and Folklore - Sophie Hodorowicz Knab 1996

Polish Customs, Traditions, & Folklore is organized by months beginning with December and Advent, St. Nicholas Day, the Wigilia (Christmas Eve) nativity plays, caroling and then New Year celebrations. It proceeds from the Shrovetide period to Ash Wednesday, Lent, the celebration of spring, Holy Week customs then superstitions, beliefs and rituals associated with farming, Pentecost, Corpus Christi, midsummer celebrations, harvest festivities, wedding rites, nameday celebrations, birth and death rituals. Line illustrations enhance

this rich and varied treasury of folklore. Many of the customs and traditions found herein are extinct even in today's Poland. World wars, massive immigration, the loss of the oral tradition, urbanization and politics have changed the face of a once agrarian people and their accompanying life style. In the U.S., the desire for membership within the "melting pot", marriages outside one's ethnic group, movement to the suburbs away from the "old" communities where customs and traditions were once strong, further weakened the link. Although the purpose and meaning may have been lost and forgotten, the oczepiny ceremony (the unveiling) is still the mainstay of almost every wedding where the bride declares Polish heritage. Many Polish American communities still reenact the harvest celebrations, reminding themselves of their ancestors' reverence for the grains and gifts of bread. Eight million Americans still claim their ancestry as Polish, many still diligently practicing that which they learned at their parents' and grandparents' knees. Much has also been neglected or completely forgotten.

The Kindertransport - Jennifer Craig-Norton 2019-06-25

A timely study of the effects of family separation on child refugees, using newly discovered archival sources from the WWII era: "Highly recommended." –Choice The Kindertransport—an organized effort to extract children living under the threat of Nazism—lives in the popular memory as well as in literature as a straightforward act of rescue and salvation, but these celebratory accounts leave little room for a deeper, more complex analysis. This volume reveals that in fact many children experienced difficulties with settlement: they were treated inconsistently by refugee agencies, their parents had complicated reasons for giving them up, and their caregivers had a variety of motives for taking them in. Against the grain of many other narratives, Jennifer Craig-Norton emphasizes the use of newly discovered archival sources, which include the correspondence of refugee agencies, carers, Kinder and

their parents, and juxtaposes this material with testimonial accounts to show readers a more nuanced and complete picture of the Kindertransport. In an era in which the family separation of refugees has commanded considerable attention, this book is a timely exploration of the effects of family separation as it was experienced by child refugees in the age of fascism.

Phraseology in Legal and Institutional Settings - Stanisław Goźdź-Roszkowski 2017-08-07

This volume presents a comprehensive and up-to-date overview of major developments in the study of how phraseology is used in a wide range of different legal and institutional contexts. This recent interest has been mainly sparked by the development of corpus linguistics research, which has both demonstrated the centrality of phraseological patterns in language and provided researchers with new and powerful analytical tools. However, there have been relatively few empirical studies of word combinations in the domain of law and in the many different contexts where legal discourse is used. This book seeks to address this gap by presenting some of the latest developments in the study of this linguistic phenomenon from corpus-based and interdisciplinary perspectives. The volume draws on current research in legal phraseology from a variety of perspectives: translation, comparative/contrastive studies, terminology, lexicography, discourse analysis and forensic linguistics. It contains contributions from leading experts in the field, focusing on a wide range of issues amply illustrated through in-depth corpus-informed analyses and case studies. Most contributions to this book are multilingual, featuring different legal systems and legal languages. The volume will be a

valuable resource for linguists interested in phraseology as well as lawyers and legal scholars, translators, lexicographers, terminologists and students who wish to pursue research in the area. *The Standard American Encyclopedia of Arts, Sciences, History, Biography, Geography, Statistics, and General Knowledge ...* - John Clark Ridpath 1897

Polin: Studies in Polish Jewry Volume 22 - Adam Teller 2022-05-16
Boundaries—physical, political, social, religious, and cultural—were a key feature of life in medieval and early modern Poland. By focusing on the ways in which these boundaries were respected, crossed, or otherwise negotiated, this volume throws new light on the contacts between Jews and Christians in Poland (including the vexed question of conversion), between the various Jewish elements, and between Jews in Poland and elsewhere.

My Love Affair with Fear - Brad Kilb 2022-05-12
Brad's life has been tested - his body ravaged by disease; his life spared during death-defying adventures; his fear as he speaks to an audience of 1,100. As tough as these moments have been, he shares his insights into 'dancing with fear'. Brad's storytelling encompasses his remarkable gift for sharing emotions, adrenaline highs, and insights while learning to utilize that gut-wrenching feeling to his advantage by stepping into terrifying scenarios with fear as his partner - the greatest tool for personal discovery, growth, and becoming all we've been created to be. Brad believes that leaning into personal challenges shapes stronger individuals, giving us an awareness of our true selves. He himself testing his own resilience following

the two most catastrophic days of his life - the loss of two sons. "I am forever grateful for my wife Bonnie, whose true & tested partnership allows us to navigate our new reality as we strive to find ways to flourish in the midst of our pain." Brad reveals practical strategies on how to dance with that unnerving emotion we face every day - FEAR. His qualitative research with students and athletes has enabled him to transform fear from foe to friend. Get ready to binge on this entertaining memoir as you become inspired to explore and discover how to use fear as your ally. "I can't push aside my fear; it's omnipresent. Managing my fear enables me to be more alive - to live a fuller and richer life." www.bradkilb.com

Applications of Pattern-driven Methods in Corpus Linguistics -

Joanna Kopaczyk 2018-03-15

The use of corpora has conventionally been envisioned as being either corpus-based or corpus-driven. While the formal definition of the latter term has been widely accepted since it was established by Tognini-Bonelli (2001), it is often applied to studies that do not, in fact, fulfill the fundamental requirement of a theory-neutral starting point. This volume proposes the term pattern-driven as a more precise alternative. The chapters illustrate a variety of methods that fall under this broad methodology, such as the extraction of lexical bundles, POS-grams and semantic frames, and demonstrate how these approaches can uncover new understandings of both synchronic and diachronic linguistic phenomena.

Complete Polish (Learn Polish with Teach Yourself) - Joanna Michalak-Gray 2014-08-29

Language Skills - Halina Chodkiewicz 2014-01-14

This volume brings an international perspective to language skills – an area of importance to both theorists and practitioners in all contexts of language teaching and learning. The twenty-seven chapters included here are arranged into six sections devoted to fundamental background issues, spoken interaction, perception of speech sounds and production skills, reading contexts and purposes, writing challenges for advanced learners, and technology and language skills. Explored themes range from the conceptualization of

language as skill and the development of L2 skills in communicative and intercultural approaches, through challenges in teaching specific skills and their components, to the consideration of the possibilities and limitations of the use of modern technology in assisting students in skill acquisition. The volume's contributors point to the multiaspectuality of the process of developing language skills with reference to different age groups, diverse educational and social contexts, as well as instructional activities focusing on isolated and integrated skills. The book also includes original empirical studies concerning learning, teaching, and testing numerous aspects of language skills in L2 attainment. The book will be of interest to researchers, classroom teachers, and specialists in language education, philology and applied linguistics, as well as to graduate students involved in the study of language skills acquisition and instruction.

Britain and Poland-Lithuania - Richard Unger 2008-02-28

"34 fun motivating lessons. ... Audio CD contains authentic, unscripted recordings and a wide range of accents. CD-ROM features an interactive phonemic chart and an innovative worksheet creator with a bank of customisable material."--Back cover.

Globalization in Southeast Asia - Shinji Yamashita 2003

The rapid postwar economic growth in the Southeast Asia region has led to a transformation of many of the societies there, together with the development of new types of anthropological research in the region. Local societies with originally quite different cultures have been incorporated into multi-ethnic states with their own projects of nation-building based on the creation of "national cultures" using these indigenous elements. At the same time, the expansion of international capitalism has led to increasing flows of money, people, languages and cultures across

national boundaries, resulting in new hybrid social structures and cultural forms. This book examines the nature of these processes in contemporary Southeast Asia with detailed case studies drawn from countries across the region, including Indonesia, Malaysia, the Philippines, Singapore and Thailand. At the macro-level these include studies of nation-building and the incorporation of minorities. At the micro-level they range from studies of popular cultural forms, such as music and textiles to the impact of new sects and the world religions on local religious practice. Moving between the global and the local are the various streams of migrants within the region, including labor migrants responding to the changing distribution of economic opportunities and ethnic minorities moving in response to natural disaster.
