*Conflicting Visions* - Ryan Touhey 2015-05-15

In 1974, India shocked the world by detonating a nuclear device. In the diplomatic controversy that ensued, the Canadian government expressed outrage that India had extracted plutonium from a Canadian reactor donated only for peaceful purposes. In the aftermath, relations between the two nations cooled considerably. As *Conflicting Visions* reveals, Canada and India's relationship was turbulent long before the first bomb blast. Canada's expectations of how the former British colony would behave following its independence in 1947 led to a series of misperceptions and miscommunications that strained bilateral relations for decades.

**But for Birmingham** - Glenn T. Eskew 2000-11-09

Birmingham served as the stage for some of the most dramatic and important moments in the history of the civil rights struggle. In this vivid narrative account, Glenn Eskew traces the evolution of nonviolent protest in the city, focusing particularly on the sometimes problematic intersection of the local and national movements. Eskew describes the changing face of Birmingham's civil rights campaign, from the politics of accommodation practiced by the city's black bourgeoisie in the 1950s to local pastor Fred L. Shuttlesworth's groundbreaking use of nonviolent direct action to challenge segregation during the late 1950s and early 1960s. In 1963, the national movement, in the person of Martin Luther King Jr., turned to Birmingham. The national uproar that followed on Police Commissioner Bull Connor's use of dogs and fire hoses against the demonstrators provided the impetus behind passage of the watershed Civil Rights Act of 1964. Paradoxically, though, the larger victory won in the streets of Birmingham did little for many of the city's black citizens, argues Eskew. The cancellation of protest marches before any clear-cut gains had been made left Shuttlesworth feeling betrayed even as King claimed a personal victory. While African Americans were admitted to the leadership of the city, the way power was exercised--and for whom--remained fundamentally unchanged.

**Racism** - Albert J. Wheeler 2000

Of all mankind's vices, racism is one of the most pervasive and stubborn. This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes. Contents: Racial Attitudes; Racism and Poverty; Hate Groups; Racial Justice; Racism and Politics; Race Discrimination; Racial Identity; Racism Around the World.

*The Order of Canada* - Christopher P. McCreery 2005-12-15

In 1966, a project to create a national honour for Canadians was begun. The first recipients of the Order of Canada were announced a year later, and in the nearly forty years since, the Order has become a symbol familiar to, and respected by, people from across the country. The spirit that motivates the Order of Canada - celebration, inclusion, and democracy - was born of the memories of Canada's earlier experience with honours. From initial distrust and misunderstanding to the awakening of a national identity, the development of the Order reflects the relationship Canadians have with their country, their government, their culture, and their heroes. The Order itself is a product of national identity, politics, and history, reflected by the significance of its recipients' accomplishments. Indeed, the Order's history is as fascinating as the more than 4000 Canadians who have received it. This first book-length history of the Order of Canada - and first major work on Canadian honours - by Christopher McCreery is a celebration of the Order and a close examination of its unique design and various early incarnations. McCreery provides both a history of the Order's beginnings and a more general overview of trends in Canadian honours. Extensively illustrated with never-before-published photographs, *The Order of Canada: Its Origins, History, and Developments* pays tribute to the individuals who felt the need for a system of recognition for Canadians. *Gods of the Upper Air* - Charles King 2019-08-06

2020 Anisfield-Wolf Book Award Winner Finalist for the National Book Critics Circle Award From an award-winning historian comes a dazzling history of the birth of cultural anthropology and the adventurous scientists who pioneered it—a sweeping chronicle of discovery and the fascinating origin story of our multicultural world. A century ago, everyone knew that people were fated by their race, sex, and nationality to be more or less intelligent, nurturing, or warlike. But Columbia University professor Franz Boas looked at the data and decided everyone was wrong. Racial categories, he insisted, were biological fictions. Cultures did not come in neat packages labeled "primitive" or "advanced." What counted as a family, a good meal, or even common sense was a product of history and circumstance, not of nature. In *Gods of the Upper Air*, a masterful narrative history of radical ideas and passionate lives, Charles King shows

how these intuitions led to a fundamental reimagining of human diversity. Boas's students were some of the century's most colorful figures and unsung visionaries: Margaret Mead, the outspoken field researcher whose *Coming of Age in Samoa* is among the most widely read works of social science of all time; Ruth Benedict, the great love of Mead's life, whose research shaped post-Second World War Japan; Ella Deloria, the Dakota Sioux activist who preserved the traditions of Native Americans on the Great Plains; and Zora Neale Hurston, whose studies under Boas fed directly into her now classic novel, *Their Eyes Were Watching God*. Together, they mapped civilizations from the American South to the South Pacific and from Caribbean islands to Manhattan's city streets, and unearthed an essential fact buried by centuries of prejudice: that humanity is an undivided whole. Their revolutionary findings would go on to inspire the fluid conceptions of identity we know today. Rich in drama, conflict, friendship, and love, *Gods of the Upper Air* is a brilliant and groundbreaking history of American progress and the opening of the modern mind.

**Canada on the United Nations Security Council** - Adam Chapnick 2019-09-01

As the twentieth century ended, Canada was completing its sixth term on the UN Security Council. A decade later, Ottawa's attempt to return to the council was dramatically rejected by its global peers, leaving Canadians – and international observers – shocked and disappointed. *Canada on the United Nations Security Council* tells the story of that defeat and what it means for future campaigns, describing and analyzing Canada's attempts since 1946, both successful and unsuccessful, to gain a seat as a non-permanent member. Impeccably researched and clearly written, this is the definitive history of the Canadian experience on the world's most powerful stage.

**Grit** - Greg Donaghy 2015-05-01

"I am not afraid to be called a politician," declared Paul Martin Sr., defending his life's work in politics. "Next to preaching the word of God, there is nothing nobler than to serve one's fellow countrymen in government." This book examines Martin's remarkable career as a liberal reformer and cabinet minister who tackled the issues of his day with consummate political skill and gritty determination. Though some mocked his ambition and doubted his progressive politics, his resolute championing of health care and pension rights, new meanings for Canadian citizenship, and internationalism in world affairs would leave its mark on Canada's political landscape.

[Introduction to Spectral Theory](#) - P.D. Hislop 2012-12-06

The intention of this book is to introduce students to active areas of research in mathematical physics in a rather direct way minimizing the use of abstract mathematics. The main features are geometric methods in spectral analysis, exponential decay of eigenfunctions, semi-classical analysis of bound state problems, and semi-classical analysis of resonance. A new geometric point of view along with new techniques are brought out in this book which have both been discovered within the past decade. This book is designed to be used as a textbook, unlike the competitors which are either too fundamental in their approach or are too abstract in nature to be considered as texts. The authors' text fills a gap in the marketplace.

**McNamara, Clifford, and the Burdens of Vietnam 1965-1969** - Edward J. Drea 2011

Overseeing the Vietnam War and contending with these complex policy issues taxed even McNamara's enormous energy and brilliant intellect as he struggled to manage DoD programs. His long-cherished cost-cutting programs fell by the wayside; his favored weapons systems were swept aside; his committed efforts to limit strategic arms faltered; and his reputation was permanently tarnished. *McNamara, Clifford and the Burdens of Vietnam* highlights the interaction of McNamara and Clifford with the White House, Congress, the JCS, the Department of State, and other federal agencies involved in policy formulation. The two secretaries increasingly found that the cost of winning the war became a morally prohibitive as the price of losing.
