The Hollow Chocolate Bunnies of the Apocalypse - Robert Rankin 2011-06-16
A hilarious comic fantasy from the bestselling cult creator of the Brentford Triangle Trilogy Once upon a time Jack set out

to find his fortune in the big city. But the big city is Toy City, formerly known as Toy Town, and it has grown considerably since the good old days and isn't all that jolly any more. And there is a serial killer loose on the

streets. The old, rich nursery rhyme characters are being slaughtered one by one and the Toy City police are getting nowhere in their investigations.

Meanwhile, Private Eye Bill Winkie has gone missing, leaving behind his sidekick Eddie Bear to take care of things. Eddie may be a battered teddy with an identity crisis, but someone's got to stop the killer. When he teams up with Jack, the two are ready for the challenge. Not to mention the heavy drinking, bad behaviour, car chases, gratuitous sex and violence, toy fetishism and all-round grossness along the way. It's going to be an epic adventure!

Winter in the Morning -

Janina Bauman 1991
Janina Bauman was thirteen-years-old when Hitler's decree forced her family into the Jewish ghetto in Warsaw. The young, bright and lively girl suddenly found herself in a cramped flat hiding with other Jewish families. At first even curfews

and the casual cruelty meted out by the German occupiers could not completely wipe out her passion for books, boys and romance, 'Perhaps we've been wasting the last bits of our lives not even trying to find out what life is?' Then came the raids and Janina, with her sister and mother, had to keep on the move to avoid being one of thousands rounded up every day and deported to the camps. Their escape to the 'Aryan' side was followed by years spent behind hidden doors, where dependence on others was crucial, and all that a growing girl craves, denied. Told through her teenage diaries, this is an extraordinary tale of a passionate young woman's survival and courage. GROSS JOKES. - HINKLER BOOKS.

The Wallflower's Revenge
- SWEETBLUNCH 2015-08-03
"I will come back for my revenge." That was Tatiana Rostova's promise to herself as she fought for her life

one cold night out at sea, after the two people she loved the most betrayed her and watched as the ruthless ocean tried to swallow her whole. She would even sell herself to the devil—even if the devil came in the form of a six-foot-two, silver-eyed Italian duke named Lucca Cavelli. She would take everything that was rightfully hers—and this will be the start of the wallflower's revenge.

The Substitute Bride - SWEETBLUNCH 2018-02-05
"I need you to go to New York and pretend to be your twin sister." That was the command Laila Fiorenza's father gave her when her sister ran away from home just days before she had to meet her betrothed, the handsome, party-going, Greek shipping magnate, Nikos Pallis. But after being jilted in a previous betrothal, Laila had only one wish, which is to never be the second choice in love again. So, eager to go back to her sheltered life in Sicily and unwilling to do what her father commands, Laila comes clean to Nikos about the farce, hoping he would call off the wedding. However, Nikos had other plans, and he might just be willing to grant her wish.

The Man With the Golden Torc - Simon R. Green 2007-06-05

Teaching for Diversity and Social Justice -

Maurianne Adams

2007-05-11

For nearly a decade, *Teaching for Diversity and Social Justice* has been the definitive sourcebook of theoretical foundations and curricular frameworks for social justice teaching practice. This thoroughly revised second edition continues to provide teachers and facilitators with an accessible pedagogical approach to issues of

oppression in classrooms. Building on the groundswell of interest in social justice education, the second edition offers coverage of current issues and controversies while preserving the hands-on format and inclusive content of the original. *Teaching for Diversity and Social Justice* presents a well-constructed foundation for engaging the complex and often daunting problems of discrimination and inequality in American society. This book includes a CD-ROM with extensive appendices for participant handouts and facilitator preparation.

Gender, Branding, and the Modern Music Industry -

Kristin J. Lieb 2013-02-11

Gender, Branding, and The Modern Music Industry combines interview data with music industry professionals with theoretical frameworks from sociology, mass

communication, and marketing to explain and explore the gender differences female artists experience. This book provides a rare lens on the rigid packaging process that transforms female artists of various genres into female pop stars. Stars -- and the industry power brokers who make their fortunes -- have learned to prioritize sexual attractiveness over talent as they fight a crowded field for movie deals, magazine covers, and fashion lines, let alone record deals. This focus on the female pop star's body as her core asset has resigned many women to being "short term brands," positioned to earn as much money as possible before burning out or aging ungracefully. This book, which includes interview data from music industry insiders, explores the sociological forces that drive women into these tired representations, and the ramifications on the greater social world. This book is for

Sociology of Media and Sociology of Popular Culture courses.

Two from the Heart -

James Patterson

2017-04-10

From the author of Suzanne's Diary for Nicholas and Sundays at Tiffany's comes the New York Times bestseller featuring two heartwarming stories of loss, love, and the life-changing power of stories. Anne McWilliams has lost everything. After her marriage falls apart and a hurricane destroys her home she realizes that her life has fallen out of focus. So she takes to the road to ask long-lost friends and strangers a simple question: "What's your best story?" Can the funny, tragic, inspirational tales she hears on her journey help Anne see what she's been missing? Tyler Bron seemingly has it all: a successful company and more money than he knows how to spend. But he has no life. So he hires a struggling novelist to write one for him. There are no limits to the

fictional world that Bron's money can transform into a reality, and he soon becomes the protagonist of a love story beyond his wildest imagination. But will Tyler be able to write the happy ending himself?

Clara and Mr. Tiffany -
Susan Vreeland
2012-03-20

NATIONAL BESTSELLER It's 1893, and at the Chicago World's Fair, Louis Comfort Tiffany makes his debut with a luminous exhibition of innovative stained-glass windows that he hopes will earn him a place on the international artistic stage. But behind the scenes in his New York studio is the freethinking Clara Driscoll, head of his women's division, who conceives of and designs nearly all of the iconic leaded-glass lamps for which Tiffany will long be remembered. Never publicly acknowledged, Clara struggles with her desire for artistic recognition and the seemingly insurmountable challenges that she

faces as a professional woman. She also yearns for love and companionship, and is devoted in different ways to five men, including Tiffany, who enforces a strict policy: He does not employ married women. Ultimately, Clara must decide what makes her happiest—the professional world of her hands or the personal world of her heart.

Urban Green Spaces -
Viniece Jennings
2019-03-28

This book crosses disciplinary boundaries to investigate how the benefits of green spaces can be further incorporated in public health. In this regard, the book highlights how ecosystem services provided by green spaces affect multiple aspects of human health and well-being, offering a strategic way to conceptualize the topic. For centuries, scholars have observed the range of health benefits associated with exposure to nature. As people

continue to move to urban areas, it is essential to include green spaces in cities to ensure sustained human health and well-being. Such insights can not only advance the science but also spark interdisciplinary research and help researchers creatively translate their findings into benefits for the public. The book explores this topic in the context of 'big picture' frameworks that enhance communication between the environmental, public health, and social sciences.

Jump-Starting America -

Jonathan Gruber

2019-04-09

The untold story of how America once created the most successful economy the world has ever seen and how we can do it again. The American economy glitters on the outside, but the reality is quite different. Job opportunities and economic growth are increasingly concentrated in a few crowded coastal

enclaves. Corporations and investors are disproportionately developing technologies that benefit the wealthiest Americans in the most prosperous areas -- and destroying middle class jobs elsewhere. To turn this tide, we must look to a brilliant and all-but-forgotten American success story and embark on a plan that will create the industries of the future -- and the jobs that go with them. Beginning in 1940, massive public investment generated breakthroughs in science and technology that first helped win WWII and then created the most successful economy the world has ever seen. Private enterprise then built on these breakthroughs to create new industries -- such as radar, jet engines, digital computers, mobile telecommunications, life-saving medicines, and the internet-- that became the catalyst for broader economic growth that generated millions

of good jobs. We lifted almost all boats, not just the yachts. Jonathan Gruber and Simon Johnson tell the story of this first American growth engine and provide the blueprint for a second. It's a visionary, pragmatic, sure-to-be controversial plan that will lead to job growth and a new American economy in places now left behind.

The Historical Sociology of Japanese Martial Arts

- Raul Sanchez Garcia
2018-08-14

This is the first long-term analysis of the development of Japanese

martial arts, connecting ancient martial traditions with the martial arts practised today. The Historical Sociology of Japanese Martial Arts captures the complexity of the emergence and development of martial traditions within the broader Japanese Civilising Process. The book traces the structured process in which warriors' practices became systematised and expanded to the Japanese population and the world. Using the theoretical framework of Norbert Elias's process-sociology and drawing on rich empirical data, the book also compares the development of combat practices in Japan, England, France and Germany, making a new contribution to our understanding of the socio-cultural dynamics of state formation. Throughout this analysis light is shed onto a gender blind spot, taking into account the neglected role of women in martial arts. The

Historical Sociology of Japanese Martial Arts is important reading for students of Socio-Cultural Perspectives in Sport, Sociology of Physical Activity, Historical Development of Sport in Society, Asian Studies, Sociology and Philosophy of Sport, and Sports History and Culture. It is also a fascinating resource for scholars, researchers and practitioners interested in the historical and socio-cultural aspects of combat sport and martial arts.

Night of the Blackbird: "Moira Kelly has come home to Boston to celebrate St. Patrick's Day at the family pub, but soon confronts an undercurrent of danger as talk turns to politics. She's caught in the clash between the

convictions of her new boyfriend and the anger of her old flame, who is unexpectedly in town. When suspicious events at the bar turn into cold-blooded murder, she doesn't know who to trust. There's a conspiracy that threatens to bring forth the violence and hatred of a different time and place, and Moira discovers that a generation is not long enough to soften the desire for revenge."-- Back cover.

Juvenile Crime, Juvenile Justice - Institute of Medicine 2001-06-05

Even though youth crime rates have fallen since the mid-1990s, public fear and political rhetoric over the issue have heightened. The Columbine shootings and other sensational incidents add to the furor. Often overlooked are the underlying problems of child poverty, social disadvantage, and the pitfalls inherent to adolescent decisionmaking that contribute to youth

crime. From a policy standpoint, adolescent offenders are caught in the crossfire between nurturance of youth and punishment of criminals, between rehabilitation and "get tough" pronouncements. In the midst of this emotional debate, the National Research Council's Panel on Juvenile Crime steps forward with an authoritative review of the best available data and analysis. Juvenile Crime, Juvenile Justice presents recommendations for addressing the many aspects of America's youth crime problem. This timely release discusses patterns and trends in crimes by children and adolescents--trends revealed by arrest data, victim reports, and other sources; youth crime within general crime; and race and sex disparities. The book explores desistance--the probability that delinquency or criminal activities decrease with age--and evaluates different approaches to predicting future crime

rates. Why do young people turn to delinquency? Juvenile Crime, Juvenile Justice presents what we know and what we urgently need to find out about contributing factors, ranging from prenatal care, differences in temperament, and family influences to the role of peer relationships, the impact of the school policies toward delinquency, and the broader influences of the neighborhood and community. Equally important, this book examines a range of solutions: Prevention and intervention efforts directed to individuals, peer groups, and families, as well as day care-, school- and community-based initiatives. Intervention within the juvenile justice system. Role of the police. Processing and detention of youth offenders. Transferring youths to the adult judicial system. Residential placement of juveniles. The book includes background on the

American juvenile court system, useful comparisons with the juvenile justice systems of other nations, and other important information for assessing this problem.

Coercive Control - Evan Stark 2009

Drawing on cases, Stark identifies the problems with our current approach to domestic violence, outlines the components of coercive control, and then uses this alternate framework to analyse the cases of battered women charged with criminal offenses directed at their abusers.

Hyperlocal - Jennifer S. Vey 2022-10-25

An examination of how the (hyper)local is the

locus of real change. Many of America's downtowns, waterfronts, and innovation districts have experienced significant revitalization and reinvestment in recent years, but concentrated poverty and racial segregation remain persistent across thousands of urban, suburban, and rural neighborhoods. The coronavirus pandemic magnified this sustained and growing landscape of inequality. Uneven patterns of economic growth and investment require a shift in how communities are governed and managed. This shift must take into account the changing socioeconomic realities of regions and the pressing need to bring inclusive economic growth and prosperity to more people and places. In this context, place-based ("hyperlocal") governance structures in the United States and around the globe have been both part of the problem and part of the solution. These

organizations range from community land trusts to business improvement districts to neighborhood councils. However, very little systematic research has documented the full diversity and evolution of these organizations as part of one interrelated field. Hyperlocal helps fill that gap by describing the challenges and opportunities of "place governance." The chapters in Hyperlocal explore both the tensions and benefits associated with governing places in an increasingly fragmented—and inequitable—economic landscape. Together they explore the potential of place governance to give stakeholders a structure through which to share ideas, voice concerns, advocate for investments, and co-design strategies with others both inside and outside their place. They also discuss how place governance can serve the interests of some stakeholders over

others, in turn exacerbating wealth-based inequities within and across communities. Finally, they highlight innovative financing, organizing, and ownership models for creating and sustaining more effective and inclusive place governance structures. The authors hope to provoke new thinking among place governance practitioners, policymakers, private sector leaders, urban planners, scholars, students, and philanthropists about how, why, and for whom place governance matters. The book also provides guidance on how to improve place governance practice to benefit more people and places.

If Cats Disappeared from the World - Genki

Kawamura 2019-03-12

The international phenomenon that has sold over a million copies in Japan, *If Cats Disappeared from the World* is a funny, heartwarming, and profound meditation on

the meaning of life. The postman's days are numbered. Estranged from his family, living alone with only his cat Cabbage to keep him company, he was unprepared for the doctor's diagnosis that he has only months to live. But before he can tackle his bucket list, the Devil appears to make him an offer: In exchange for making one thing in the world disappear, our narrator will get one extra day of life. And so begins a very bizarre week... With each object that disappears the postman reflects on the life he's lived, his joys and regrets, and the people he's loved and lost. Genki Kawamura's timeless tale is a moving story of loss and reconciliation, of one man's journey to discover what really matters most in life.

The Metropolitan Revolution - Bruce Katz
2013-06-19

Across the US, cities and metropolitan areas are facing huge economic and competitive challenges that Washington won't, or can't, solve. The good news is that networks of metropolitan leaders - mayors, business and labor leaders, educators, and philanthropists - are stepping up and powering the nation forward.

These state and local leaders are doing the hard work to grow more jobs and make their communities more prosperous, and they're investing in infrastructure, making manufacturing a priority, and equipping workers with the skills they need. In *The Metropolitan Revolution*, Bruce Katz and Jennifer Bradley highlight success stories and the people behind them. · New York City: Efforts are under way to diversify the city's vast economy · Portland: Is selling the "sustainability" solutions it has perfected to other cities around the world · Northeast Ohio: Groups are using industrial-age skills to invent new twenty-first-century materials, tools, and processes · Houston: Modern settlement house helps immigrants climb the employment ladder · Miami: Innovators are forging strong ties with Brazil and other nations · Denver and Los Angeles: Leaders are

breaking political barriers and building world-class metropolises · Boston and Detroit: Innovation districts are hatching ideas to power these economies for the next century The lessons in this book can help other cities meet their challenges. Change is happening, and every community in the country can benefit. Change happens where we live, and if leaders won't do it, citizens should demand it. *The Metropolitan Revolution* was the 2013 Foreword Reviews Bronze winner for Political Science. *Applications of Artificial Intelligence in Process Systems Engineering* - Jingzheng Ren 2021-06-05 *Applications of Artificial Intelligence in Process Systems Engineering* offers a broad perspective on the issues related to artificial intelligence technologies and their applications in chemical and process engineering. The book comprehensively introduces the methodology and

applications of AI technologies in process systems engineering, making it an indispensable reference for researchers and students. As chemical processes and systems are usually non-linear and complex, thus making it challenging to apply AI methods and technologies, this book is an ideal resource on emerging areas such as cloud computing, big data, the industrial Internet of Things and deep learning. With process systems engineering's potential to become one of the driving forces for the development of AI technologies, this book covers all the right bases. Explains the concept of machine learning, deep learning and state-of-the-art intelligent algorithms Discusses AI-based applications in process modeling and simulation, process integration and optimization, process control, and fault detection and diagnosis Gives direction to future development

trends of AI technologies in chemical and process engineering
Reforming Juvenile Justice - National Research Council
2013-05-22

Adolescence is a distinct, yet transient, period of development between childhood and adulthood characterized by increased experimentation and risk-taking, a tendency to discount long-term consequences, and heightened sensitivity to peers and other social influences. A key function of adolescence is developing an integrated sense of self, including individualization, separation from parents, and personal identity. Experimentation and novelty-seeking behavior, such as alcohol and drug use, unsafe sex, and reckless driving, are thought to serve a number of adaptive functions despite their risks. Research indicates that for most youth, the period of risky experimentation does not

extend beyond adolescence, ceasing as identity becomes settled with maturity. Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies. Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems. This imbalance model implies dual systems: one involved in cognitive and behavioral control and one involved in socio-emotional processes. Accordingly adolescents lack mature capacity for self-regulations because the brain system that influences pleasure-seeking and emotional reactivity develops more rapidly than the brain

system that supports self-control. This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system, raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century. It was in this context that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) asked the National Research Council to convene a committee to conduct a study of juvenile justice reform. The goal of Reforming Juvenile Justice: A Developmental Approach was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform, to assess the new generation of reform activities occurring in the United States, and to assess the

performance of OJJD in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts.

Pretty Little Liars TV Tie-in Edition - Sara Shepard 2010-06-08

Everyone has something to hide—especially high school juniors Spencer, Aria, Emily, and Hanna. Spencer covets her sister's boyfriend. Aria's fantasizing about her English teacher. Emily's crushing on the new girl at school. And Hanna uses some ugly tricks to stay beautiful. But they've all kept an even bigger secret since their friend Alison vanished. How do I know? Because I know everything about the bad girls they were and the naughty girls they are now. And guess what? I'm telling.

The Reader - Bernhard Schlink 2001-05-01
Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and

compassion, unfolding against the haunted landscape of postwar Germany. When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

Parenthood: it's not for the weak of heart.

The New Geography of Jobs - Enrico Moretti
2012

A rising young economist at Berkeley makes correlations between success and geography, explaining how such rising centers of innovation as San Francisco, Boston and Austin are likely to offer influential opportunities and shape the national and global economies in positive or detrimental ways.

Rural Racism - Neil Chakraborti 2013-05-13
Rural issues are currently attracting unprecedented levels of interest, with the debates surrounding the future of 'traditional' rural customs and practice becoming a significant political concern. However, the problem of racism in rural areas has been largely overlooked by academics, practitioners and researchers who have sought almost exclusively to develop an understanding of racism in urban

contexts. This book aims to address this oversight by examining notions of ethnic identity, 'otherness' and racist victimisation that have tended to be marginalised from traditional rural discourse.

Forced Marriage - Aisha Gill 2012-09-13

Forced Marriage: Introducing a social justice and human rights perspective brings together leading practitioners and researchers from the disciplines of criminology, sociology and law. Together the contributors provide an international, multi-disciplinary perspective that offers a compelling alternative to prevailing conceptualisations of the problem of forced marriage. The volume examines advances in

theoretical debates, analyses existing research and presents new evidence that challenges the cultural essentialism that often characterises efforts to explain, and even justify, this violation of women's rights. By locating forced marriage within broader debates on violence against women, social justice and human rights, the authors offer an intersectional perspective that can be used to inform both theory and practical efforts to address violence against diverse groups of women. This unique book, which is informed by practitioner insights and academic research, is essential reading for practitioners and students of sociology, criminology, gender studies and law.
