Northeast India Through the Ages - Rituparna Bhattacharyya 2022-07-29

This volume explores the rich pre-history, history, and oral history of the northeast region of India—a land-locked region that is home to over 350 ethnolinguistic communities. Despite its uniqueness and diversity, little is known to the outside world. The book studies the vibrant and diverse socio-political and cultural history of this region through a transdisciplinary perspective, covering a wide range of topics such as the pre-history, medieval and colonial histories of Assam, the geopolitics of the creation of independent states from undivided Assam, oral narratives from Manipur, prehistoric cultures of Meghalaya, the Naga National Movement, Sikkim's Namgyal dynasty, and Tripura's transition from monarchy to democracy. It also discusses the invaluable contributions made by Professor Mohammad Taher (1931–2015), who laid the foundation of geography in Northeast India. A compelling exploration of this geo-politically contested space, this volume will be of interest to students and researchers of anthropology, archaeology, history, human geography, South Asian studies, and minority studies.

Ananda Math - Bankim Chandra Chattopadhyay 1998

One of the most popular Indian novels of all ages, 'Ananda Math' was translated innumerable times into Indian and English languages. Five editions were published in Bengali and Hindi during the author's lifetime, the first in 1882. The novel has the backdrop of the 18th century famine in Bengal, infamous as "Chhiyattorer Manvantar" (famine of 76th Bengali year, 1276), to narrate the saga of armed uprising of the ascetics and their disciples against the pillaging East India Company rulers. The uprising is historically known as 'Santan Vidroha', the ascetics being the children of Goddess Jagadambe. The saga of 'Ananda Math' is thrilling and best epitomised in the patriotic mass-puller song "Bande Mataram" ('Hail thee, O My Motherland'). The song is still a mantra that stirs imagination of millions of Hindus. The ascetics robbed the tormentors of people — the British rulers and the greedy zamindars — distributed the looted wealth to poverty-stricken people but kept nothing for themselves. Their targets were mostly the Company armoury and supplies. They had a highly organised setup, spread throughout Bengal. It was also India's first battle for freedom, and not the Sipahi Vidroha of 1857.

Topi Shukla - Rāhī Māsūma Razā 2005

"Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons." "Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.

Economics Of Informal Milk Producing Units In Assam - Dr. Jugal Saikia 2016-04-08

Despite good industrial growth, the modern sector is unable to provide employment to the surplus and marginal labor force in an urban area. The surplus labor has made a valiant effort to carve out a niche for

its own living and subsistence, within the urban economic system, undertaking a variety of informal productive activities known as the informal sector (ILO, 1972). In India, urban informal sector (IS) includes a number of activities in its ambit. Milk production and distribution is one such productive activity undertaken by a section of under-privileged urbanites (Gowalas). Small scale producers mostly carry out their production activities either in the far end of the urban boundaries or in the open spaces available in the cities and towns. Increasing urbanization has led to increase in the demand for raw milk and dairy products in most of the Indian cities. Our proposed study area - Greater Guwahati City has undergone massive population growth. Along with high urbanization, the total demand for milk consumption in the city has also increased. Due to high urbanization, high demand for milk as well as the lack of capacity of the formal milk producing sector (FMPUs) to meet the rising demand has made the role of the informal milk producing units (IMUs) become vital. Hence, the author felt the necessity to undertake a comprehensive study on the IMPUs in Guwahati City.
