From Caterpillar to Butterfly - Deborah Heiligman 2017-06-06

Read and find out about how a caterpillar becomes a butterfly in this colorfully illustrated nonfiction picture book. After a caterpillar comes to school in a jar, the children are captivated as it eats, grows, and eventually becomes a beautiful Painted Lady butterfly. This is a clear and appealing environmental science book for early elementary age kids, both at home and in the classroom. Plus it includes web research prompts and an activity encouraging kids to identify the different types of butterflies all around them. This is a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades. The 100+ titles in this leading nonfiction series are: hands-on and visual acclaimed and trusted great for classrooms Top 10 reasons to love LRFOS: Entertain and educate at the same time Have appealing, child-centered topics Developmentally appropriate for emerging readers Focused; answering questions instead of using survey approach Employ engaging picture book quality illustrations Use simple charts and graphics to improve visual literacy skills Feature hands-on activities to engage young scientists Meet national science education standards Written/illustrated by award-winning authors/illustrators & vetted by an expert in the field Over 130 titles in print, meeting a wide range of kids' scientific interests Books in this series support the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

A Hunger for God - John Piper 2013-04-23

There is an appetite for God. And it can be awakened. I invite you to turn from the dulling effects of food and the dangers of idolatry, and to say with some simple fast: "This much, O God, I want you." Our appetites dictate the direction of our lives - whether it be the cravings of our stomachs, the passionate desire for possessions or power, or the longings of our spirits for God. But for the Christian, the hunger for anything besides God can be an arch-enemy. While our hunger for God - and Him alone - is the only thing that will bring victory. Do you have that hunger for Him? As John Piper puts it: "If we don't feel strong desires for the manifestation of the glory of God, it is not because you have drunk deeply and are satisfied. It is because we have nibbled so long at the table of the world. Our soul is stuffed with small things, and there is no room for the great." If we are full of what the world offers, then perhaps a fast might express, or even increase, our soul's appetite for God. Between the dangers of self-denial and self-indulgence is this path of pleasant pain called fasting. It is the path John Piper invites you to travel in this book. For when God is the supreme hunger of your heart, He will be supreme in

everything. And when you are most satisfied in Him, He will be most glorified in you.

Women Living Well - Courtney Joseph 2013-10-08

Women desire to live well. However, living well in this modern world is a challenge. The pace of life, along with the new front porch of social media, has changed the landscape of our lives. Women have been told for far too long that being on the go and accumulating more things will make their lives full. As a result, we grasp for the wrong things in life and come up empty. God created us to walk with him; to know him and to be loved by him. He is our living well and when we drink from the water he continually provides, it will change us. Our marriages, our parenting, and our homemaking will be transformed. Mommy-blogger Courtney Joseph is a

cheerful realist. She tackles the challenge of holding onto vintage values in a modern world, starting with the keys to protecting our walk with God. No subject is off-limits as she moves on to marriage, parenting, and household management. Rooted in the Bible, her practical approach includes tons of tips that are perfect for busy moms, including: Simple Solutions for Studying God's Word How to Handle Marriage, Parenting, and Homemaking in a Digital Age 10 Steps to Completing Your Husband Dealing With Disappointed Expectations in Motherhood Creating Routines that Bring Rest Pursuing the Discipline and Diligence of the Proverbs 31 Woman There is nothing more important than fostering your faith, building your marriage, training your children, and creating a haven for your family. *Women Living Well* is a clear and personal guide to making the most of these precious responsibilities.

Win the Day - Mark Batterson 2023-02-21

The New York Times bestselling author of *Chase the Lion* reveals seven powerful habits that can help you tackle God-sized goals by turning yesterday's regrets and tomorrow's anxieties into fuel for a better today. "This book will change the trajectory of your life."—John Maxwell, #1 New York Times bestselling author, entrepreneur, and leadership expert Too many people delay, downsize, or shrug off their dreams just because they don't know where to start, but playing it safe doesn't account for the massive cost of a life not fully lived. *Win the Day* is the jump-start you need to go after your goals, one day at a time. You'll discover how to: 1. Flip the Script: If you want to change your life, start by changing your story. 2. Kiss the Wave: The obstacle is not the enemy; the obstacle is the way. 3. Eat the Frog: If you want God to do the super, you've got to do the natural. 4. Fly the Kite: How you do anything is how you'll do everything. 5. Cut the Rope: Playing it safe is risky. 6. Wind the Clock: Time is measured in minutes; life is measured in moments. 7. Seed the Clouds: Sow today what you want to see tomorrow. As Batterson unpacks each of these daily habits, you'll see how simple it is to pursue them with focus and dedication—not someday down the road, but now. Transform your perspective of a single day and you'll discover the potential waiting to be grasped at the beginning of each new sunrise.
