Long Lane With Turnings - L.J.K. Setright 2014-03-06

Leonard Setright was one of the twentieth century's most influential, opinionated and idiosyncratic motoring journalists; described as 'more Isaiah Berlin than Jeremy Clarkson', everything he wrote was inspired by his knowledge of and passion for all things automotive. Long Lane with Turnings is a dryly witty memoir of his early years and the author's last book, left unfinished at the time of his death in the summer of 2005. We encounter Setright as a child standing behind his father's driving seat in family Wolseley, enjoining him to 'Go fast!' and taking an early delight in machines of all sorts, from the camera-like precision of the Setright ticket machine for bus conductors (manufactured by his father's firm) to his first bicycle. We also see him developing that independence of mind which so characterized his writing as a critic: readers will savour his pitch-perfect descriptions of many of the cars that he drove, be it the Mini ('a very convincing little brick'), a Renault 4 ('swaying like a sailing dinghy in corners') or his beloved Bristols. The portrait of the writer which emerges from these pages is marvellously detailed, quirky and full of warmth.

The Allure of the Automobile - Ken Gross 2010

The Allure of the Automobile presents eighteen of the world's rarest and most brilliantly conceived cars from 1930 to the mid-1960s, including masterpieces from Bugatti, Dusenbergs, Delage, Porsche, Mercedes-Benz, Jaguar, and Ferrari. Created for the privileged few (and in some cases previously owned by Clark Gable and Steve McQueen), these luxurious, custom built automobiles embodied speed, style, and elegance; they influenced and were influenced by contemporary art, architecture, fashion, and design. Many of the featured automobiles are one of a kind or were built largely by hand and in small numbers. The racing motorcar is a potent symbol of twentieth century modernity, embodying speed, style, elegance, and good design. Whether a practical tool or part of a celluloid fantasy, the automobile remains a powerful symbol embedded in our collective cultural consciousness. This book contains an illustrated text with period photographs of the cars, exploring the evolution of the automobile from the opulent and luxurious French custom coachwork models of the early 1930s to post-World War II triumphs of German engineering to the supremacy of Italian sport-car design in the second half of the century. Million-Dollar Muscle Cars - Colin Comer 2007-01

About the book: In the 1960s and 1970s American automakers produced millions of muscle cars: high-performance cars more adept at competition than transportation. The baby boom generation snapped up these cars and proceeded to use them as intended, drag and street racing the cars until there was nothing left of them. No longer minimum-wage high schoolers, today's boomers enjoy more disposable income than any generation in history. And many of them are spending that income on highly collectible muscle cars. Because so few muscle cars survived the abuse of young drivers back in the day, muscle car prices have skyrocketed, with mundane muscle cars commanding six-figure prices and the most significant muscle cars surpassing the million-dollar mark. Respected muscle car expert Colin Comer and top photographer David Newhardt tell the story of each of these rarest of rare cars in Million-Dollar Muscle Cars, the only book dedicated to these top-flight cars. All in Good Time - George Daniels 2012-10-29

All in Good Time is the remarkable story of George Daniels (1926-2011), the master craftsman, who was born into poverty but raised himself to become the greatest watchmaker of the twentieth century. Daniels stands alone in modern times as the inventor of the revolutionary co-axial escapement, the first substantial advance in portable mechanical timekeeping over the lever escapement, which has dominated ever since its invention in 1759. Daniels's love of mechanics embraced not only the minute, however - he was also a passionate collector and driver of historic motorcars. This revised and expanded edition of his autobiography also contains a new section that illustrates and discusses over thirty of the pocket and wrist-watches Daniels himself made over the years. Witness here the triumph of intelligence, ingenuity, matchless skill and singularity of purpose over the most unpromising of beginnings.

High Line Nudes - 2016-05-10

From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." -- Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of *High Line Nudes*. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. *High Line Nudes* captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.

In Mortal Combat - John Toland 2016-05-31

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. *In Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.
