Brithop - Justin A. Williams 2020-10-05

With ongoing debates on Scottish independence, immigration, Britain's place in the EU, multiculturalism, national identity and the specter of a past Empire complicating ethnically-defined notions of "Britishness," the Kingdom seems far from United. As a cultural force that is often discussed as giving voice to the voiceless and empowering marginalized communities, hip-hop has become a space in which to explore and debate these issues-defining global community while celebrating locality. In *Brithop*, author Justin A. Williams finds new hope in an often-neglected figure: the British rapper. Through themes of nationalism, history, subculture, politics, humor and identity, *Brithop*

explores multiple forms of politics in rap discourses from Wales, Scotland and England. Featuring rappers and groups such as The Streets, Goldie Lookin Chain, Akala, Lowkey, Stanley Odd, Loki, Speech Debelle, Lady Sovereign, Shadia Mansour, Shay D, Stormzy, Sleaford Mods, Riz MC and Lethal Bizzle, Williams investigates how rappers in the UK respond to the "postcolonial melancholia" of post-Empire Britain. *Brithop* shows a rich, multifaceted cultural reality reflective of both the postcolonial condition of the UK and the importance of localism within its varying cultures.

Cycles, Sequels, Spin-offs, Remakes, and Reboots - Amanda Ann Klein 2016-03-15

With sequels, prequels, remakes, spin-offs, or copies of successful films or franchises dominating film and television production, it sometimes seems as if Hollywood is incapable of making an original film or TV show. These textual pluralities or multiplicities—while loved by fans who flock to them in droves—tend to be dismissed by critics and scholars as markers of the death of high culture. *Cycles, Sequels, Spin-offs,*

Remakes, and Reboots takes the opposite view, surveying a wide range of international media multiplicities for the first time to elucidate their importance for audiences, industrial practices, and popular culture. The essays in this volume offer a broad picture of the ways in which cinema and television have used multiplicities to streamline the production process, and to capitalize on and exploit viewer interest in previously successful and/or sensational story properties. An impressive lineup of established and emerging scholars talk seriously about forms of multiplicity that are rarely discussed as such, including direct-to-DVD films made in Nigeria, cross-cultural Japanese horror remakes, YouTube fan-generated trailer mash-ups, and 1970s animal revenge films. They show how considering the particular bonds that tie texts to one another allows us to understand more about the audiences for these texts and why they crave a version of the same story (or character or subject) over and over again. These findings demonstrate that, far from being lowbrow art, multiplicities are actually doing important cultural work that is very worthy of serious study.

Robin - Dave Itzkoff 2018-05-15

From New York Times culture reporter Dave Itzkoff, the definitive biography of Robin Williams – a compelling portrait of one of America's most beloved and misunderstood entertainers. From his rapid-fire stand-up comedy riffs to

his breakout role in *Mork & Mindy* and his Academy Award-winning performance in *Good Will Hunting*, Robin Williams was a singularly innovative and beloved entertainer. He often came across as a man possessed, holding forth on culture and politics while mixing in personal revelations – all with mercurial, tongue-twisting intensity as he inhabited and shed one character after another with lightning speed. But as Dave Itzkoff shows in this revelatory biography, Williams's comic brilliance masked a deep well of conflicting emotions and self-doubt, which he drew upon in his comedy and in celebrated films like *Dead Poets Society*; *Good Morning, Vietnam*; *The Fisher King*; *Aladdin*; and *Mrs. Doubtfire*, where he showcased his limitless gift for improvisation to bring to life a wide range of characters. And in *Good Will Hunting* he gave an intense and controlled performance that revealed the true range of his talent. Itzkoff also shows how Williams struggled mightily with addiction and depression – topics he discussed openly while performing and during interviews – and with a debilitating condition at the end of his life that affected him in ways his fans never knew. Drawing on more than a hundred original interviews with family, friends, and colleagues, as well as extensive archival research, Robin is a fresh and original look at a man whose work touched so many lives.

Hannibal for Dinner - Kyle A. Moody
2021-02-12

NBC's *Hannibal* only lasted for three seasons but became a critical darling and quickly inspired a ravenous fanbase. Bryan Fuller's adaptation of Hannibal Lecter's adventures created a new set of fans and a cult audience through its stunning visuals, playful characters, and mythical tableaux of violence that doubled as works of art. The show became a nexus point

for viewers that explored consumption, queerness, beauty, crime, and the meaning of love through a lens of blood and gore. Much like the show, this collection is a love letter to America's favorite cannibal, celebrating the multiple ways that Hannibal expanded the mythology, food culture, fandom, artistic achievements, and religious symbolism of the work of Thomas Harris. Primarily focusing on Hannibal, this book combines interviews and academic essays that examine the franchise, its evolution, creatively bold risks, and the art of creating a TV show that consumed the hearts and minds of its audience.

The Moment of Speech - Annie Morrison
2021-11-18

Annie Morrison, creator of the Morrison Bone Prop, abandons the notion that language and thought are mainly processed in the left cerebral hemisphere, and coaches the actor to speak from the heart. Through this method, words acquire physical properties, such as weight, texture, colour and kinetic force. Think about Martin Luther King, Mao Zedong or Malala Yousafzai; potent speech impacts external events. And internally, it forms and shapes the world of the speaker. Seeing articulation as a purely mechanical skill is detrimental to an actor's process: it is crucial to understand what language is doing on a biological level. This workbook is invaluable for actors, both professional and in training, and also for voice and speech teachers.

Digital Humour in the Covid-19 Pandemic - Shepherd Mpofu 2021-10-21
Digital humour in the COVID-19 pandemic: Perspectives from the Global South offers a groundbreaking intervention on how digital media were used from below by ordinary citizens to negotiate the global pandemic humorously. This book considers the role played by digital media during the pandemic, and indeed in the socio-political life of the Global South, as indispensable and revolutionary to human communication. This book analyses citizens' use of social media and humour to mediate the pandemic in a diverse range of countries, including

Brazil, India, Kenya, Nigeria, South Africa and Zimbabwe. The book will appeal to academics and students of media and communication studies, political studies, rhetoric, and to policy makers.

Current Controversies in Philosophy of Film - Katherine Thomson-Jones
2016-03-02

This volume advances the contemporary debate on five central issues in the philosophy of film. These issues concern the relation between the art and technology of film, the nature of film realism, how narrative fiction films narrate, how we engage emotionally with films, and whether films can philosophize. Two new essays by leading figures in the field present different views on each issue. The paired essays contain significant points of both agreement and disagreement; new theories and frameworks are proposed at the same time as authors review the current state of debate. Given their combination of richness and clarity, the essays in this volume can effectively engage both students, undergraduate or graduate, and academic researchers.

I Think the Nurses are Stealing My Clothes: The Very Best of Linda Smith

- Edited By Warren Lakin 2012-02-16

Linda Smith was the brilliant mainstay of Radio 4's *The News Quiz*, *Just a Minute*, and *I'm Sorry I Haven't A Clue* for many years. She

was just establishing her career on TV through blistering performances on *Have I Got News for You*, *QI* and *Room 101*, when she died of ovarian cancer in 2006. Linda was one of the few women to conquer the male dominated world of comedy and she had the wit and the charm to win over millions of male and female fans in equal measure. She had an eye for the absurdities of modern life and loved to prick the egos of the pompous and the vain. When she called David Blunkett 'Satan's bearded folk singer', it was a simple statement of fact. No wonder then Linda was voted the 'wittiest person alive' by Radio 4 listeners in 2002. This collection of her material, from her early stand-up to her radio days is a must-have for any comedy fan.

The Dialects of British English in Fictional Texts - Donatella Montini
2021-06-21

This collection brings together perspectives on regional and social varieties of British English in fictional dialogue across works spanning various literary genres, showcasing authorial and translation innovation while also reflecting on their impact on the representation of sociolinguistic polarities. The volume explores the ways in which different varieties of British English, including Welsh, Scots, and Received Pronunciation, are portrayed across a range of texts, including novels, films, newspapers, television series, and plays. Building on metadiscourse which highlighted the growing importance of accent as an emblem of social stance in the eighteenth and nineteenth centuries, the chapters in this book examine how popular textual forms create and reinforce links between accent and social persona, and accent and individual idiolect. A look at these themes, as explored through the lens of audiovisual translation and the

challenges of dubbing, sheds further light on the creative resources authors and translators draw on in representing sociolinguistic realities through accent. This book will be of particular interest to students and scholars in dialectology, audiovisual translation, literary translation, and media studies.

Hannibal Lecter's Forms, Formulations, and Transformations - Jessica Balanzategui 2020-12-17

This book examines how the iconic character Hannibal Lecter has been revised and redeveloped across different screen media texts. Hannibal "The Cannibal" Lecter has become one of Western culture's most influential and enduring models of monstrosity since his emergence in 1981 in Red Dragon, Thomas Harris' first Lecter book. Lecter is now at the centre of an extensive cross-mediated mythology, the most recent incarnation of which is Bryan Fuller's television program, Hannibal (NBC, 2013-2015). This acclaimed series is the focus of Hannibal Lecter's Forms, Formulations, and Transformations, which examines how Fuller's program harnesses the iconic character to experiment with traditional boundaries of genre, medium, taste, and narrative form. Featuring chapters from established and emerging screen and popular culture scholars from around the world, the book outlines how the show operates as a striking experiment with televisual form and formula. The

book also explores how this experimentation is embodied by the boundary-defying character, the savage cannibalistic serial killer, practicing psychiatrist, and cultured art enthusiast, Hannibal Lecter. The chapters in this book were originally published as a special issue of the journal, Quarterly Review of Film and Video.

Jonathan Demme's film skillfully appropriated the tropes of police procedural, gothic melodrama and contemporary horror and produced something entirely new. The resulting film was both critically acclaimed and massively popular, and went on to have an enormous influence on 1990s genre cinema. Crime and horror authority Barry Forshaw closely examines the factors that contributed to the film's impact, including the revelatory performances of Jodie Foster and Anthony Hopkins in the lead roles.

Aestheticism, Evil, Homosexuality, and Hannibal - Geoff Klock 2017-10-11

In late 19th century England, Oscar Wilde popularized aestheticism, also known as art-for-art's-sake – the idea that art, that beauty, should not be a vehicle for morality or truth, but an end in-and-of-itself. Rothko and Jackson Pollock enthroned the idea, creating paintings that are barely graded panels of color or wild splashes. Today, pop culture is aestheticism's true heir, from the perfect charismatic emptiness of Ocean's Eleven to the hyper-choreographed essentially balletic movements in the best martial arts movies. But aestheticism has a dark core, one that Social Justice Activists are now gathering to combat, revealing the damaging ideology reflected in or concealed by our most beloved pop culture icons. Taking Bryan Fuller's television version of Hannibal "The Cannibal" Lecter as its main text – and taking Žižek-style illustrative detours into Malcolm in the Middle, Dark Knight Rises, Harry Potter, Interview with a Vampire, Dexter and more – this book marshals Walter Pater, Camille Paglia, Nietzsche, the Marquis de Sade, Kant and Plato, as well as Dante, Shakespeare, Milton, Blake, Baudelaire, Beckett, Wallace Stevens and David Mamet to argue that Fuller's show is a deceptively brilliant advance of aestheticism, both in form and content – one that investigates how deeply art-for-art's-sake, and those of us who consciously or unconsciously worship at its teat, are necessarily entwined with evil.

Finding Our Tongues - Dean Falk
2010-10

Scientists have long theorized that abstract, symbolic thinking evolved to help humans negotiate such classically male activities as hunting, tool making, and warfare, and eventually developed into spoken language. In *Finding Our Tongues*, Dean Falk overturns this established idea, offering a daring new theory that springs from a simple observation: parents all over the world, in all cultures, talk to infants by using baby talk or 'Motherese.' Falk shows how Motherese developed as a way of reassuring babies when mothers had to put them down in order to do work. The melodic vocalizations of early Motherese not only provided the basis of language but also contributed to the growth of music and art. Combining cutting-edge neuroscience with classic anthropology, Falk offers a potent challenge to conventional wisdom about the emergence of human language.

Screen Media - Jane Stadler
2020-07-24

Screen Media offers screen enthusiasts the analytical and theoretical vocabulary required to articulate responses to film and television. The authors emphasise the importance of 'thinking on both sides of the screen'. They show how to develop the skills to understand and

analyse how and why a screen text was shot, scored, and edited in a particular way, and then to consider what impact those production choices might have on the audience. Stadler and McWilliam set production techniques and approaches to screen analysis in historical context. They demystify technological developments and explain the implications of increasing convergence of film and television technologies. They also discuss aesthetics, narrative, realism, genre, celebrity, cult media and global screen culture. Throughout they highlight the links between screen theory and creative practice. With extensive international examples, *Screen Media* is an ideal introduction to critical engagement with film and television. 'Screen Media offers a systematic approach to film and television analysis. The examples chosen by the authors are both appropriate and timely, and are presented in a very lively and readable form that will appeal to an international readership.' - Rebecca L. Abbott, Professor of Film, Video + Interactive Media, Quinnipiac University, USA

Directing shows you how to surpass mere technical proficiency and become a storyteller with a distinctive voice and style. forms and logs for all phases of a project with links to additional resources and set safety advice. *The Pragmatics of Humour in Interactive Contexts* - Esther Linares Bernabéu 2023-05-15
Recent years have seen a burgeoning interest in interactional humour from social and pragmatic perspectives, with fascinating results. Released more than a decade later than Norrick and Chiaro (2009) *Humor in Interaction*, *The Pragmatics of Humour in Interactive Contexts* gathers some of the most recent work on humour in interaction, with contributions taking (meta)pragmatic approaches to the analysis of various genres of interactive humour in both online and offline settings. This volume illustrates that a range of methodologies and perspectives can be applied to the study of such a complex phenomenon. These include analyses with a cognitive orientation and with multimodal approaches, work based on Relevance Theory, the General Theory of Verbal Humour, and Conversation Analysis, among others. In addition, all the authors represented here are recognised experts on the subject, and in most cases, are leading specialists in their respective fields. The book can be of use not only to scholars who study the linguistics of humour in interaction but also to students who wish to pursue research in the area.
