Teaching English to the
World: History,
Curriculum, and Practice
is a unique collection
of English language
teaching (ELT)
histories, curricula,

and personal narratives from non-native speaker (NNS) English teachers around the world. No other book brings such a range of international ELT professionals together to describe and narrate what they know best. The book includes chapters from Brazil, China, Germany, Hong Kong, Hungary, India, Indonesia, Israel, Japan, Lebanon, Poland, Saudi Arabia, Singapore, Sri Lanka, and Turkey. All chapters follow a consistent pattern, describing first the history of English language teaching in a particular country, then the current ELT curriculum, followed by the biography or the autobiography of an English teacher of that country. This consistency in the structuring of chapters will enable readers to assimilate the information easily while also comparing and contrasting the context of ELT in each country. The chapter authors--all born in or residents of the countries they

represent and speakers of the local language or languages as well as English--provide insider perspectives on the challenges faced by local English language teachers. There is clear evidence that the majority of English teachers worldwide are nonnative speakers (NNS), and there is no doubt that many among them have been taught by indigenous teachers who themselves are nonnative speakers. This book brings the professional knowledge and experience of these teachers and the countries they represent to a mainstream Western audience including faculty, professionals, and graduate students in the field of ESL; to the international TESOL community; and to ELT teachers around the world.

The Current State of Social Studies - 1982

This volume, one in a series resulting from Project SPAN (Social Studies/Social Science Education: Priorities, Practices, and Needs), reviews and analyzes the current state of K-12 social studies. A major purpose of the review and analysis was to form a basis for recommendations for

future directions that might be taken to improve social studies. The report contains six sections. The first section provides a broad and integrative analysis of the interrelated topics of rationales, definitions, approaches, goals, and objectives of social studies. The second section, "Curriculum Organization in Social Studies," describes the typical pattern of social studies programs from kindergarten through grade 12, stating that despite numerous variations that have occurred, the dominant pattern throughout the nation is one that was established more than 60 years ago. "Social Studies Curriculum Materials," the third section of the volume, describes the great extent to which students, teachers, administrators, and the public accept and rely on curriculum materials as essential aids to teaching, learning, and classroom management. Foremost among

curriculum materials being used are textbooks. The topic of the fourth section is "Social Studies Teachers." There is general agreement that the teacher is "the central figure," the "key," or "the magic ingredient" in the learning process. The fifth section, "Instructional Practices in Social Studies," presents a detailed report on what teachers do. The last section, "Barriers to Change in Social Studies," focusing on the fact that the new social studies had relatively little impact on the schools, explores reasons for lack of change in schools.

Just Mercy - Bryan Stevenson 2015
From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case drew Stevenson into a tangle of conspiracy, political machination, and legal brinkmanship - and transformed his understanding of mercy and justice forever.--
