Miracles Through Pranic Healing -
Choa Kok Sui 2000-08

Pranic Healing is a holistic healing method based on the ancient belief that there is a basic life energy force, prana, in the human body that animates and sustains life. "You can learn it in a weekend and start helping people right away", says Stephen Co, engineer turned Senior Pranic Healing Instructor. In *Miracles Through Pranic Healing*, the student learns a basic step-by-step approach to energy healing. By working with the energy systems that surround the body, the pranic practitioner learns to identify disease energy and removes it with visualization and hand motions. Using the same techniques, the practitioner then replaces it with life force energy that helps the body return to balance and heal itself.

Art of Super-Realization -
Paramahansa Yogananda 1930

By the correct practice of Kriya fourteen times, Maha Mudra twice, and

Yoti Mudra twice, twelve years of evolution of body, mind and soul will be gained in a few minutes. Mind can do everything. Through this practice, the time limitation in evolution is overcome, and the receptive power of the spine, brain and mind is increased, so that the Yogi knows, sees and feels all form within. Yoga is the super-method by which the evolution of body, mind and soul can be quickened. That is how the attainment of wisdom and realization, which usually takes a million years and numerous incarnations of natural evolution, is possible in one lifetime. By this exercise, the consciousness which is in the body, and which is identified with the senses, is transferred to the spine and the brain, and thus transmitted into Superconsciousness and Cosmic Consciousness. Kriya is an initiation into Cosmic Consciousness, or the transfer of consciousness from the body to the spirit. In order to do this, one must transfer consciousness from the senses to the spine. After practicing Kriya and resting for a short while, one is able to do inspired work in connection with literature, art of science . then intuition develops of itself, without effort, because one's consciousness is transferred from the senses to the spine and brain. Realization can come only by the development of one's intuition. Remember that through the practice of this lesson you will contact Christ, and the prophets of this world, and through them you will find your union with God the Infinite Spirit.

The Heart's Code - Paul P. Pearsall
1999-03-10

A fascinating synthesis of ancient wisdom, modern medicine, scientific research, and personal experiences that proves that the human heart, not the brain, holds the secrets that link body, mind, and spirit. You know

that the heart loves and feels, but did you know that the heart also thinks, remembers, communicates with other hearts, helps regulate immunity, and contains stored information that continually pulses through your body? In *The Heart's Code*, Dr. Paul Pearsall explains the theory and science behind energy cardiology, the emerging field that is uncovering one of the most significant medical, social, and spiritual discoveries of our time: The heart is more than just a pump; it conducts the cellular symphony that is the very essence of our being. Full of amazing anecdotes and data, *The Heart's Code* presents the latest research on cellular memory and the power of the heart's energy and explores what these breakthroughs mean about how we should live our lives. By unlocking the heart's code we can discover new ways of understanding human healing and consciousness and create a new model for living that leads to better health, happiness, and self-knowledge.

Kundalini - Pandit Gopi Krishna 2019-03-07

"What happened to me that early morning during the Christmas of 1937 changed the course of my life and outlook. I sat in a small room in a house on the outskirts of Jammu. I was meditating. Practice had accustomed me to sit in the same posture for hours without discomfort, and as I sat breathing slowly and rhythmically, my attention was drawn towards the crown of my head, contemplating an imaginary lotus in full bloom, radiating light. I sat unmoving and erect. My whole being was so engrossed in the contemplation of the lotus that for several minutes I lost touch with my body and surroundings. The only object of which I was aware was a lotus of brilliant

colour, emitting rays of light. During a spell of intense concentration I suddenly felt a strange sensation below the base of the spine, at the place touching the seat, while I sat cross-legged on a folded blanket spread on the floor. The sensation was so extraordinary and pleasing that my attention was forcibly drawn towards it. My heart beat wildly, and I found it difficult to bring my attention to the required degree of fixity. The sensation extended upwards, growing in intensity. Then, suddenly, with a roar like that of a waterfall, I felt a stream of liquid light entering my brain through the spinal cord. What had happened to me? Was I hallucinating? Or had I by some strange fate succeeded in experiencing the Transcendental? I had read glowing accounts, written by learned men, of great benefits resulting from concentration and of the miraculous powers acquired by yogis through meditation. Was there, after all, really some truth in the repeated claims of the sages and ascetics of India, made for thousands of years that it was possible to apprehend reality in this life if one practised meditation in a certain way? Little did I realize that from that day onwards I was never to be my old normal self again. I had unwittingly and without adequate knowledge, roused to activity the most powerful power in man. I had stepped unknowingly upon the key to the most guarded secret of the ancients, and thenceforth for a long time, I had to live suspended by a thread, swinging between life and death, between sanity and insanity, between lights and darkness, between heaven and earth." An extraordinary autobiographical account of what happens in the mind and body when Kundalini gets spontaneously aroused... one of the clearest

journals documenting spiritual transformation and mental evolution onto a higher plane of consciousness. **The Theosophical Glossary** - Helena Petrovna Blavatsky 1892

Mahatma I and II - Brian Grattan 1994-01-01

What all of mankind have learned in the past about creation is the way that existence isn't -- a paradox! Awaken and realize that all of mankind will create their "body for Ascension," whether they accomplish this now or later, and that this is not the exclusive domain of Christ or Buddha or many others who have ascended -- this is your birthright. You are not relegated to worshipping those who have already done this very basic initiation called Ascension. Christ and Buddha would be the first to acknowledge that they are just beginners on their eternal journey. When mankind lifts the veils of their unworthiness and recognize that they are the Sons of God, that there is divine equality and no one is greater than another, then you will have begun our journey in the way that it was intended. In your near future your Planetary Hierarchy will release the world from theology, ecclesiasticism and the wrathful Jehovah and return humanity to its rightful journey into spiritualizing matter, not worshipping it! The Mahatma is for those who are motivated to search for the answers that can respond to their mental and spiritual bodies. In the past, mankind's choices of beliefs and religions have supported only the emotional body and the darker, material side of life. And truly, if one is going to remain on Earth, very drastic shifts of consciousness will be required to have mankind remain in Earth's new fourth-dimensional reality. No matter how contrary to your current beliefs, this book

contains methods for creating your spiritual Lightbody for Ascension, and it also explains your eternal journey in a way that was never before available to mankind.

They travelled to lost civilizations in South America and the Sahara, as well as well-stocked bunkers of the ancients in the Grand Tetons, Yellowstone, and Mount Shasta.
