The 7 Habits of Highly Effective Families - Stephen R. Covey 1998-09-15

Describes how successful families build a loving environment, effectively resolve problems, and cope with human relations issues

The 8th Habit - Stephen R. Covey 2013-01-08

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human

attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the

higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

The 4 Disciplines of Execution - Chris McChesney 2016-04-12

BUSINESS STRATEGY. "The 4 Disciplines of Execution "offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator s Dilemma)." Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it s likely no one even noticed. What happened? The whirlwind of urgent activity

required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever. Primary Greatness - Stephen R. Covey 2016-11-15

"This book is a collection of several of [Sean Covey's] father's best essays that have never appeared in book form before and aren't well known. But they are vintage Stephen Covey and contain some of his best thinking"--Foreword.

The 48 Laws of Power - Robert Greene
2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute

self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Why Smart Executives Fail - Sydney

Finkelstein 2004-05-25

Bob Pittman and AOL Time Warner. Jean Marie Messier and Vivendi. Jill Barad and Mattel. Dennis Kozlowski and Tyco. It’s an all too common scenario. A great company breaks from the pack; the analysts are in love; the smiling CEO appears on the cover

of Fortune. Two years later, the company is in flames, the pension plan is bleeding, the stock is worthless. What goes wrong in these cases? Usually it seems that top management made some incredibly stupid mistakes. But the people responsible are almost always remarkably intelligent and usually have terrific track records. Just as puzzling as the fact that brilliant managers can make bad mistakes is the way they so often magnify the damage. Once a company has made a serious mis-step, it often seems as though it can't do anything right. How does this happen? Instead of rectifying their mistakes, why do business leaders regularly make them worse? To answer these questions, Sydney Finkelstein has carried out the largest research project ever devoted to corporate mistakes and failures. In **WHY SMART EXECUTIVES FAIL**, he and his research team uncover-with startling clarity and unassailable documentation-the causes

regularly responsible for major business breakdowns. He relates the stories of great business disasters and demonstrates that there are specific, identifiable ways in which many businesses regularly make themselves vulnerable to failure. The result is a truly indispensable, practical, must-read book that explains the mechanics of business failure, how to avoid them, and what to do if they happen.

The Leader in Me - Stephen R. Covey
2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities,

focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to

understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Dare to Lead - Brené Brown 2018-10-09
#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that

potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that

give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because

choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring

Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.
