*Judy Hall's Crystal
Zodiac* - Judy Hall
2017-07-03
Birthstones have been
used for millennia for
luck, protection and

wisdom. Traditionally, crystals and gemstones were linked to specific astrological signs because their energies resonated. The discovery of new crystals has opened the way for a deeper connection, and each star sign now has many crystals associated with it. This comprehensive guide describes the crystals linked to each sign and explains how they can be used to enhance self-understanding and personal growth. Crystals can be used for profound soul growth, to overcome challenges or for guidance on everyday decisions. For each astrological sign, there are past-life patterns to be dissolved and wisdom to be regained. The use of appropriate crystals facilitates this process. In addition to explaining the links between crystals and both sun

and moon signs, Judy Hall's Crystal Zodiac gives instructions for laying out and working with a crystal zodiac mandala.

The Witness of the Stars

- Ethelbert William Bullinger 1928

Some years ago it was my privilege to enjoy the acquaintance of Miss

Frances Rolleston, of Keswick, and to carry on a correspondence with her with respect to her work, Mazzaroth: or, the Constellations. She was the first to create an interest in this important subject. Since then Dr. Seiss, of Philadelphia, has endeavoured to popularize her work on the other side of the Atlantic; and brief references have been made to the subject in such books as Moses and Geology, by Dr. Kinns, and in Primeval Man; but it was felt, for many reasons, that it was desirable to make another effort to set forth, in a more complete form, the witness of the stars to prophetic truth, so necessary in these last days. To the late Miss Rolleston, however, belongs the honour of collecting a mass of information bearing on

this subject; but, published as it was, chiefly in the form of notes, unarranged and unindexed, it was suited only for, but was most valuable to, the student. She it was who performed the drudgery of collecting the facts presented by Albumazer, the Arab astronomer to the Caliphs of Grenada, 850 a.d.; and the Tables drawn up by Ulugh Beigh, the Tartar prince and astronomer, about 1650 a.d., who gives the Arabian Astronomy as it had come down from the earliest times. Modern astronomers have preserved, and still have in common use, the ancient names of over a hundred of the principal stars which have been handed down; but now these names are used merely as a convenience, and without any reference to their significance. This work is an attempt to

popularize this ancient information, and to use it in the interests of truth. For the ancient astronomical facts and the names, with their signification, I am, from the very nature of the case, indebted, of course, to all who have preserved, collected, and handed them down; but for their interpretation I am alone responsible. It is for the readers to judge how far my conclusions are borne out by the evidence; and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven, as well as in the Scriptures of truth.
