Informal Payments and Regulations in China's Healthcare System - Jingqing Yang 2016-11-26

This text addresses the key issue of informal payments, or 'red packets', in the Chinese Healthcare system. It considers how transactions take place at the clinical level as well as their regulation. Analysing the practice from the perspectives of institutions and power structure, it examines how institutional changes in the pre-reform and reform era have changed the power structure between medical professions, patients and the Party-state, and how these changes have given rise and perpetuate the practice. Drawing from qualitative data from interviews of medical professionals, the author recognises the medical profession as a major player in the health care system and presents their perception of the practice as the taker of 'red packets' and their interactions with the patient and the state surrounding the illegal practice in an authoritarian power structure. The books considers the institutional reasons that motivate doctors to take, patients to give, and the government to "tolerate" red packets, arguing that the bureaucratization of the medical profession, society of acquaintances and shortage of quality of medical services jointly create an institutional setting that has given rise to these informal payments. Contributing to a rounded understanding of the problems of healthcare reform in China, this book is a key read for all scholars interested in the issue of informal payments and healthcare politics in transition economies.

Trouble in the Middle - Steven P. Feldman 2013-05-20

This book will help readers better understand the ethical and cultural assumptions that both American and Chinese business cultures bring to business relationships in China. It analyzes the relationships developed between the two cultures, areas where they conflict, and how these conflicts are (or are not) resolved. These relationships are investigated in three stages. The author: describes and interprets American business experience in China describes and interprets Chinese business experience in China, including interaction with Americans compares these two business cultures as they are experienced in China to investigate the relationships between them, centering the cultural analysis on ethical issues. Feldman's thorough research gets to the crux of how American and Chinese executives perceive the ethical and cultural aspects of doing business. The result is a book that will prove helpful to all those looking to expertly navigate Chinese-American business relationships.

Encountering the Chinese - Hu Wenzhong 2010-12-15

"A classic must-read for everyone coming to work or live in China." - Shelley Warner and Tony Voutas, cross-cultural trainers and founders of Asia Pacific Access Ltd, China China is in the midst of unprecedented economic and cultural growth. In the last decade alone, China joined the World Trade Organization, hosted the 2008 Olympics and experienced a remarkable, record-high increase in its foreign currency reserves. As these changes unfold, frequency of contact between the Chinese and Westerners is dramatically increasing in the office, the classroom and the home. With thought-provoking glimpses into history and tradition, *Encountering the Chinese* provides fundamental information on Chinese cultural norms and values, giving clear context for contemporary social standards. Readers will learn the etiquette necessary to build successful personal and professional relationships with the Chinese both inside and outside the People's Republic of China. This revised edition of *Encountering the Chinese* also explains how Chinese values are changing rapidly-and why it is more important than ever to keep up. For instance, compliments, once declined out of modesty, are now widely accepted in coastal cities; and some terms of address that were proper to use only a decade ago have grown offensive. *Encountering the Chinese* provides invaluable insight into the diverse and changing Chinese culture.

Christian China and the Light of the World - David Wang 2013-11-01

The Light Shines in the Darkness There is more to China's story than its rise as a global economic power. The Holy Spirit has birthed a vibrant, rapidly growing house church movement in China's cities. For years, Christians in the West

have heard rumors of house churches in the rural countryside with believers numbering in the tens of millions. Now the underground movement has emerged among China's upwardly mobile, globally connected urbanites--and there will be no turning back! In *Christian China and the Light of the World*, you'll meet believers serving God's people in the People's Republic of China. Learn about the political, social and economic pressures faced by the urban Chinese church, and find out how you can pray for and support your sisters and brothers in Christ who are following Him no matter the cost. Their true stories of the Holy Spirit's miraculous move across the most populous nation on earth will thrill and inspire you . . . and lead you to worship the Light that darkness cannot overcome.

Chinese Transformation of Buddhism -

Kenneth Kuan Sheng Ch'en 2015-03-08

When Buddhism was introduced into China at about the beginning of the Christian era, the Chinese were captivated at first by its overpowering world view. Consequently, Buddhism in China has usually been discussed in terms of the Indianization of Chinese life and thought, but Kenneth Ch'en shows that as Indian ideas were gaining ground the Chinese were choosing among them and modifying them to fit their situation. To demonstrate how the Chinese transformed Buddhism the author investigates its role in the ethical, political, literary, educational, and social life of the Chinese. Buddhism was able to gain a wide following by accommodating itself to Chinese ethical practices. The Buddhist monastic community submitted to the jurisdiction of the state and the monasteries also became integrated into the economic life of the empire through their ownership of land and their operation of industrial and commercial enterprises. Through an analysis of the work of a representative Chinese poet the author reveals the ways in which Buddhism came to be reflected in the literary life of China. Finally, he explores the methods used by the Buddhists to popularize their religion. Originally published in 1973. Social Media in Industrial China - Xinyuan Wang 2016-09-13

'Life outside the mobile phone is unbearable.' Lily, 19, factory worker. Described as the biggest migration in human history, an estimated 250 million Chinese people have left their villages in recent decades to live and work in urban areas. Xinyuan Wang spent 15 months living among a community of these migrants in a small factory town in southeast China to track their use of social media. It was here she witnessed a second migration taking place: a movement from offline to online. As Wang argues, this is not simply a convenient analogy but represents the convergence of two phenomena as profound and consequential as each other, where the online world now provides a home for the migrant workers who feel otherwise 'homeless'. Wang's fascinating study explores the full range of preconceptions commonly held about Chinese people - their relationship with education, with family, with politics, with 'home' - and argues why, for this vast population, it is time to reassess what we think we know about contemporary China and the evolving role of social media.

Consuming China - Kevin Latham 2012-08-21
Post-Mao China has been characterized in literature and the media as a burgeoning

consumer society. *Consuming China* investigates this characterization by examining the cultural significance of consumption and consumerism in the People's Republic of China today. In questioning the notion of consumption, this impressive work suggests that it is not simply a symptom of economic reform within China neither a product of the emergence and transformation of contemporary Chinese capitalism. Rather, the essays offer a new perspective on Chinese consumption by focusing on more than just consumerism, looking at the practices of consumption in relation to different manifestations of social and cultural change. Drawing on case studies from Taiwan, Hong Kong and the People's Republic of China, *Consuming China* affords a greater understanding of the practice of Chinese consumption and will appeal to China scholars and anthropologists, and to those with an interest in cultural and gender studies.

Anthropology Of China, The: China As Ethnographic And Theoretical Critique - Stephan Feuchtwang 2016-07-13

Putting China into the context of general anthropology offers novel insights into its history, culture and society. Studies in the anthropology of China need to look outwards, to other anthropological areas, while at the same time, anthropologists specialised elsewhere cannot afford to ignore contributions from China. This book introduces a number of key themes and in each case describes how the anthropology and ethnography of China relates to the surrounding theories and issues. The themes chosen include the anthropology of intimacy, of morality, of food and of feasting, as well as the anthropology of civilisation, modernity and the state. The Anthropology of China covers both long historical perspectives and ethnographies of the twenty-first century. For the first time, ethnographic perspectives on China are contextualised in comparison with general anthropological debates. Readers are invited to engage in and rethink China's place within the wider world, making it perfect for professional researchers and teachers of anthropology and Chinese history and society, and for advanced undergraduate and graduate study.
