Politics and Letters - Raymond Williams 2015-03-24

Raymond Williams made a central contribution to the intellectual culture of the Left in the English-speaking world. He was also one of the key figures in the foundation of cultural studies in Britain, which turned critical skills honed on textual analysis to the examination of structures and forms of resistance apparent in everyday life. *Politics and Letters* is a volume of interviews with Williams, conducted by New Left Review, designed to bring into clear focus the major theoretical and political issues posed by his work. Introduced by writer Geoff Dyer, *Politics and Letters* ranges across Williams's biographical development, the evolution of his cultural theory and literary criticism, his work on dramatic forms and his fiction, and an exploration of British and international politics.

The Battlecruiser New Zealand - Matthew Wright 2021-08-31

This book tells the story of HMS *New Zealand*, a battlecruiser paid for by the government of New Zealand at the height of its pro-Imperial "jingo" era in 1909, when Britain's ally Japan was perceived as a threat in Australasia and the Pacific. Born of the collision between New Zealand's patriotic dreams and European politics, the tale of HMS *New Zealand* is further wrapped in the turbulent power-plays at the Admiralty in the years leading up to the First World War. The ship went on to have a distinguished First World War career, when she was present in all three major naval battles - Heligoland, Dogger Bank and Jutland - in the North Sea. The book "busts" many of the myths associated with the ship and her construction, including the intent of the gift, New Zealand's ability to pay, deployment, and the story behind the piupiu (skirt) and tiki (pendant) that, the crew believed, bestowed special protection upon the vessel. All is inter-woven with the human and social context to create a "biography" of the ship as an expression of human endeavour, in significantly more detail than any of the summaries available in prior accounts. Extensively illustrated, this is a book with appeal to a wide audience, from naval enthusiasts and historians to the general reader with a wider interest in the story of Empire. The use of archival material available only in New Zealand, including the Ship's Book, adds a dimension and novelty not previously included in histories of this great battlecruiser.
