Malgré les moyens déployés, il reste insaisissable. Ayant travaillé pour certaines missions spéciales de la DGSE, il a toujours un coup d'avance. Man V. Liver - Neil Hinson 2013-09-24

What you would have said had you thought of it last night at the bar. Meet Man: He's witty, carefree, and probably not sober. He's Dean Martin meets Jack Benny, Don Draper, and Jack Donaghy. He imparts upon readers his clever, unabashed musings of romance, party culture, and bachelorhood. The life of the party, the collected contemplations in Man v. Liver will amuse and inform aspiring connoisseurs of class. In Man v. Liver, Man expels his alcohol-fueled wisdom to all who yearn to encapsulate themselves in a life of forgotten nights and fine tailored suits--which, as he will tell you, are handy to sleep in if you wish to be the best dressed at breakfast. Man v. Liver is a collection of witty musings accompanied by their creator: a roughly sketched, style-conscious bachelor who's never short on quips aimed at fellow party guests, dates, and, of course, his beloved liver.

The Martini-Henry Rifle - Stephen Manning 2013-05-20

The breech-loading, single-shot .458in Martini-Henry rifle has become a symbol of both the Anglo-Zulu War of 1879 and the numerous battles in Egypt and the Sudan in 1884-85, but continued to be used by both British and colonial troops well into the 20th century. Its invention and introduction into British service were in direct response to the success of the Prussian Dreyse needle gun, which demonstrated that the breech-loading rifle offered faster loading, improved accuracy and superior range; significantly, the weapon could be loaded and fired from a prone position, thus offering the rifleman greater security on the battlefield. Due to the longevity of service, many Martini-Henry rifles survive today, both in museums and in private collections, and the weapon is highly prized by shooting enthusiasts. Featuring specially commissioned full-colour artwork and an array of arresting first-hand accounts and written by an authority on warfare in the Victorian era, this engaging study tells the story of the powerful Martini-Henry and its impact on the battlefield, from the Anglo-Zulu War to the opening months of World War I.

*Attracting Science and Mathematics Ph.D.s to Secondary School Education* - National Research Council 2000-08-16

The National Research Council conducted a study to identify a set of incentives that state governments and local school districts can use to attract Ph.D. scientists and mathematicians to secondary school teaching positions. This project investigated the career ambitions of Ph.D.s in the physical and life sciences through focus groups and a national survey to determine the kinds of work conditions and compensation packages that would induce them to take positions teaching physics, chemistry, biology, and various electives in public high schools or positions developing secondary school science and mathematics curricula. The study conducted interviews with Ph.D.s who are already teaching in secondary schools to ascertain information from their experiences, with local school district administrators to assess what they are realistically willing to offer Ph.D. scientists to attract them, and with higher education administrators to explore programmatic changes they would need to institute to provide Ph.D.s with skills tailored to secondary school teaching. These investigations led to this report which describes the incentives local school districts could use in establishing pilot programs in this area.

**Bugles and a Tiger** - John Masters 2022-11-03

The first of John Master's evocative memoirs about life in the Gurkhas in India on the cusp of WWII John Masters was a soldier before he became a bestselling novelist. He went to Sandhurst in 1933 at the age of eighteen and was commissioned into the 4th Gurkha Rifles in time to take part in some of the last campaigns on the turbulent north-west frontier of India. John Masters joined a Gurhka regiment on receiving his commission, and his depiction of garrison life and campaigning on the North-West Frontier has never been surpassed. BUGLES AND A TIGER is a matchless evocation of the British Army in India on the eve of the

Second World War. Still very much the army depicted by Kipling, it stands on the threshold of a war that will transform the world. This book is the first of three volumes of autobiography that touched a chord in the post-war world.

**Rimfire Revolution: A Complete Guide to Modern .22 Rifles** - Michael R Shea 2021-07-13

The .22 Long Rifle caliber is the most popular ammunition and firearm chambering in the world. It's a

backyard plinker, small-game hunter, tactical trainer and Olympic medalist. Along with its .17-caliber cousins, the humble .22 LR is undergoing a massive resurgence in the United States, and around the world, especially in places like the United Kingdom and New Zealand, which effectively ban centerfire chamberings. The rimfire rifle, an historic centerpiece of the shooting community, is trending in a big way, and this book brings the topic into current times. Every major gun manufacturer has brought at least one new rimfire rifle to the market in the last two years, and these models are covered in detail. A sampling of topics included in

this full-color work: complete coverage of semi-autos and how they work; the magic of bolt-action accuracy; advice on sharpening up shooting accuracy; match shooting and how to succeed; DIY precision gunsmithing; hunting with rimfires; and the future of the rimfire market. And, to guarantee this work provides complete rimfire coverage, the author also goes deep into the capabilities of the "Might Mice," the .17s: 17HM2, 17HMR and 17WSM.
