**Spices and how to Know Them** - Walter M. Gibbs 1909

**Formerly Known As Food** - Kristin Lawless 2018-06-19

One of Bustle's "17 Best Nonfiction Books Coming Out In June 2018" • One of The Revelator's "16 New Environmental Books for June" • One of Equinox's "5 Books High Performers Should Read in June" • One of Foodtank's "18 Books Making a Splash This Summer" • One of CivilEats' "22 Noteworthy Food and Farming Books for Summer Reading—and Beyond" From the voice of a new generation of food activists, a passionate and deeply-researched call for a new food movement. If you think buying organic from Whole Foods is protecting you, you're wrong. Our food—even what we're told is good for us—has changed for the worse in the past 100 years, its nutritional content deteriorating due to industrial farming and its composition altered due to the addition of thousands of chemicals from pesticides to packaging. We simply no longer know what we're eating. In *Formerly Known as Food*, Kristin Lawless argues that, because of the degradation of our diet, our bodies are literally changing from the inside out. The billion-dollar food industry is reshaping our food preferences, altering our brains, changing the composition of our microbiota, and even affecting the expression of our genes. Lawless chronicles how this is happening and what it means for our bodies, health, and survival. An independent journalist and nutrition expert, Lawless is emerging as the voice of a new generation of food thinkers. After years of "eat this, not that" advice from doctors, journalists, and food faddists, she offers something completely different. Lawless presents a comprehensive explanation of the problem—going beyond nutrition to issues of food choice, class, race, and gender—and provides a sound and simple philosophy of eating, which she calls the "Whole Egg Theory." Destined to set the debate over food politics for the next decade, *Formerly Known as Food* speaks to a new generation looking for a different conversation about the food on our plates. Naomi Klein, author of *No Is Not Enough* and *This Changes Everything*: "In this revelatory survey of the dangers of the industrial food system, Lawless offers crucial tools for navigating it safely. The best ones have nothing to do with shopping advice: she asks us to think holistically about food, why it can't be separated from other struggles for justice, and what it means to demand transformative change." Mark Bittman, author of *How to Cook Everything*: "A stirring call to action. Lawless has done a thorough job of describing how so much of what we eat doesn't qualify as 'food'" Laurie David, Academy Award winning producer of *An Inconvenient Truth* and *Fed Up*: "You better read this book before you put another bite of food in your or your kids' mouths!" Mary Esther Malloy, MA, *Mindful Birth* NY: "Groundbreaking... will get you thinking differently about how you nourish yourself and your family."

**The Lean Muscle Diet** - Lou Schuler 2014-12-23

Research shows that although people can lose 5 to 10 percent of their body weight on any given diet, dieting itself is a consistent predictor of future weight gain. Why? At some point, everyone stops dieting. The Lean Muscle Diet solves the sustainability problem while offering immediate results. It's simple: act as if you already have the body you want. If a reader is, say, a 220-pound

man who wants to become a muscular 180-pounder, he then uses The Lean Muscle Diet's formula to eat and train to sustain a 180-pound body. The transformation begins immediately, and the results last for life. Lou Schuler, who has sold more than one million copies of his fitness books worldwide, and Alan Aragon, nutrition advisor to *Men's Health*, have created an eating and "metabolically expensive" exercise plan designed to melt fat while building muscle. The best part? The plan allows readers to eat their favorite foods, no matter how decadent. With full support from *Men's Health*, The Lean Muscle Diet delivers a simple--and simply sustainable--body transformation plan anyone can use.

**Plenty** - Alisa Smith 2008-04-22

The remarkable, amusing and inspiring adventures of a Canadian couple who make a year-long attempt to eat foods grown and produced within a 100-mile radius of their apartment. When Alisa Smith and James MacKinnon learned that the average ingredient in a North American meal travels 1,500 miles from farm to plate, they decided to launch a simple experiment to reconnect with the people and places that produced what they ate. For one year, they would only consume food that came from within a 100-mile radius of their Vancouver apartment. The 100-Mile Diet was born. The couple's discoveries sometimes shook their resolve. It would be a year without sugar, Cheerios, olive oil, rice, Pizza Pops, beer, and much, much more. Yet local eating has turned out to be a life lesson in pleasures that are always close at hand. They met the revolutionary farmers and modern-day hunter-gatherers who are changing the way we think about food. They got personal with issues ranging from global economics to biodiversity. They called on the wisdom of grandmothers, and immersed themselves in the seasons. They discovered a host of new flavours, from gooseberry wine to sunchokes to turnip sandwiches, foods that they never would have guessed were on their doorstep. The 100-Mile Diet struck a deeper chord than anyone could have predicted, attracting media and grassroots interest that spanned the globe. *The 100-Mile Diet: A Year of Local Eating* tells the full story, from the insights to the kitchen disasters, as the authors transform from megamart shoppers to self-sufficient urban pioneers. The 100-Mile Diet is a pathway home for anybody, anywhere. Call me naive, but I never knew that flour would be struck from our 100-Mile Diet. Wheat products are just so ubiquitous, "the staff of life," that I had hazily imagined the stuff must be grown everywhere. But of course: I had never seen a field of wheat anywhere close to Vancouver, and

my mental images of late-afternoon light falling on golden fields of grain were all from my childhood on the Canadian prairies. What I was able to find was Anita's Organic Grain & Flour Mill, about 60 miles up the Fraser River valley. I called, and learned that Anita's nearest grain suppliers were at least 800 miles away by road. She sounded sorry for me. Would it be a year until I tasted a pie? —From *The 100-Mile Diet*

**The Power Plate Diet** - Erin Oprea 2021-01-12

A simple, targeted diet plan that balances your plate to reduce inflammation and help you get healthy, from celebrity trainer Erin Oprea. “Erin has turned the idea of health into something that doesn't feel boring or depriving, but rather something that helps me be a better human and artist.”—Kelsea Ballerini, singer-songwriter

After publishing her popular diet and exercise book *The 4 x 4 Diet*, Erin Oprea discovered the link between food and inflammation and the huge impact it has on our bodies. Chronic inflammation can lead to inflamed fat cells that are unable to release fat and produce unhealthy levels of hormones, causing weight gain. Foods like sugar, vegetable oil, refined flour, grain-fed meats, seed oils, and dairy products are often the true culprits of inflammation. The good news is that by prioritizing clean foods like lean proteins, omega-3 fats, healthy carbs, and antioxidant-rich veggies in your diet, you can reverse the damage and shed the weight. In *The Power Plate Diet*, you'll be able to cool inflammation by removing reactive foods and combining the healthiest proteins, carbs, and fats for the most powerful plate possible. Using a few simple guidelines, you have the freedom to make your plates as creative as you'd like with nutrient-dense foods that keep your body free of inflammation. *The Power Plate Diet* includes a four-week meal plan, tips and tricks like carb substitutes and diet boosters (such as beet juice!), and the exercises and lifestyle principles that work for Erin and her clients. With a balanced, effective approach to diet and exercise, you'll eat clean and fat-proof your body for a healthier, trimmer you.

**Spices and how to know them** - W.M. Gibbs

Good and Cheap - Leanne Brown 2015-07-14

A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.
