Parables of the Kingdom - Melissa Lynch 2012-07-31
Parables of the Kingdom is a language arts curricular unit on the New Testament Parables for seventh grade and up. The unit correlates to state standards and outcomes and the curriculum calendar provides over 30 hours of content material. Each session is accommodated with a full lesson plan, as well as the accompanying worksheets and keys. The narrative unit investigates the parables as literature,

and provides historic critical and sociological background of the text. This unit is based on best practices in teaching and learning, and it is enriched by socratic circles, story-maps, role plays as well as relevant reading and writing assignments, and creative, productive projects.

50 Pre-Algebra Activities

- Mary Lou Witherspoon
1998

From geometric and numerical patterns to graphing non-linear figures, 50 reproducible activities make pre-algebra less intimidating by exploring why formulas work rather than just having students memorize them. Students work individually or in groups on lessons covering variables, numerical relationships, equations, and patterns. Teacher pages give you objectives, prerequisite lessons, materials needed, and procedures for each activity.

Periodic Table - Cindy

Blobaum 2005

What do chocolate chip cookies, chemistry and logic have in common? They are the basis for a unit that lets students become actively engaged in discovering the arrangement of the periodic table. This learning activity takes the periodic table out of the static presentation usually associated with textbooks and chemistry courses and interjects an element of discovery. The two activities in this unit provide students with information that they have to arrange in organized charts. In the process of creating the arrangements, students will be involved in problem solving and will gain an appreciation for the scientific process of exploration and verification. This dynamic unit meets national science standards in seven teaching and content areas. Bring the periodic table to life with this hands-on, minds-on

unit. Book jacket.

God's Power to Help

Hurting People - Colleen Birchett 2006-03

Discover how to help those who are hurting through this practical and encouraging study. Each chapter tells the story of one person's emotional crisis, a soul cry for help, and a corresponding Bible personality who had the same ardent crisis. Learn to effectively minister God's power over 12 commonly experienced emotions by hurting people including, guilt, insecurity, loneliness, fear, anxiety, low self-esteem, grief, and anger.

Middle School Life Science -

Judy Capra 1999-08-23

Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and

place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.

A Method for Developing Mariner Assessments - 2000

This report presents a systematic method for developing reliable and valid performance-based assessments (PBA) of mariner proficiencies. The method is compliant with: the requirements of the International Maritime Organization's (IMO) Seafarers' Training, Certification and Watchkeeping Code (STCW Code), as amended in 1995; with all relevant U.S. Coast Guard Navigation and Vessel Inspection Circulars (NVIC); with Instructional Systems Development (ISD); and with the best practices of the maritime industry. The method guides the developer through five

steps: (1) specify assessment objectives, (2) determine assessment methods, (3) specify assessment conditions, (4) develop proficiency criteria, and (5) prepare the assessment materials. The report provides materials for a developer's workshop, a stand-alone assessment development manual, and four sample assessments that have been developed by project participants. Guiding materials for the actual conduct of such assessments are provided in a separate report (R & DC-204).

Image Reflector

Geometry - Ernest Woodward 1996

Using the Image Reflector, this powerful collection of more than 20 activities is ideal for investigating symmetry, transformations, and geometric relationships along line segments. Designed to provoke thinking and motivate further exploration as students gain mastery of

moving an image, making lines perpendicular. and other invaluable skills. Includes teacher's notes and blackline masters.
