The Lost Chalice - Vernon Silver 2010-06-29

Sotheby's. New York City. On a warm June evening, with the auction-house showroom crammed with the wealthy, the curious, and the press, history was made when an anonymous man in a green golf sweater paid three quarters of a million dollars to win a 2,500-year-old chalice—the Greek artist Euphronios's wine cup depicting the death of Zeus's son Sarpedon at Troy. After that night, this historical artifact disappeared, its

whereabouts a mystery.

Until now. In this breathtaking tale of adventure and intrigue, archaeologist and journalist Vernon Silver pieces together the extraordinary tale of the lost cup and offers a portrait of the modern antiquities trade: a world of smugglers, wealthy collectors, ambitious archaeologists, rapacious dealers, corrupt curators, and international law enforcement. Epic and thrilling, *The Lost Chalice* is a driving true-life detective story that illuminates a big-money, high-stakes, double-dealing world, which is as fascinating as it is unforgettable.

**Tangled Fate: Harmony
Entwined** - TLCsDestiny
(Terri-Ann Cantle) 2020-07
If only he had different
blood. Ethan has had to
tirelessly change from the
age of twelve, just because
of his blood. Being the only

remaining male left from
the royal line, Ethan had to
change from his natural
instinct of that of an Omega,
to that of an Alpha, so that
he would act and feel like a
King. And so, a secret is
born. Since it was critical
that only he could take the
part of 'King', Ethan was
also forced to take a
'chosen' mate, so that he
could produce an heir. And
so, a forced family is
placed. The fact that his
'destined' mate was still out
there, was nothing to the
one that Ethan calls 'Owen',
who seems to act like the
real leader. But with these
problems, there's more.
Again, because of blood,
Ethan's life is in trouble
with the same thing that
had put him into this
mess! Then, adding to the
troubles, he finally meets
his 'destined' mate and they
have troubles because of all
these troubles. It really is a
tangled fate.

Virtual Strangers - Lynne Barrett-Lee 2014-05-05

Fed up, frustrated and fast approaching forty, Charlie Simpson hasn't had many high points in her life just lately. The only peak on the horizon is her ambition to climb Everest, if she could only get organised and save up the cash. Unfortunately, though, she has more pressing things to deal with; her eldest son moving out,

her father moving in, and her best friend moving two hundred miles away. She finds solace, however, via her newly acquired modem, when she stumbles upon a stranger who's a like-minded soul. Like-minded, perhaps, but no fantasy dream date. Though virtual, he's of the real-life variety - he may be a hero, but he has a wife. Charlie hasn't got a husband, but she certainly has principles, and they're about to be hauled up a mountain themselves. And, of course, her mum's always said she shouldn't talk to strangers. The question is, is now the time to start breaking the rules? 'A fantastic book that gets you hooked from the first page' New Woman 'It's wonderfully funny and rather inspiring...I enjoyed it hugely and I confess I read it all in one go, wolfing it down like a delicious box of chocolates' Judy Astley 'A charming and optimistic novel about modern love' - Hello Magazine 'A laugh out

Elleander Morning -

Yulsman, Jerry 2015-12-16

A dying woman, given a second chance to relive her life, travels back in time. Her goal: the execution of an obscure Viennese artist named Adolf Hitler. Two generations later, the assassin's granddaughter is mystified to discover a book relating the history of World War II — the chronicle of a conflict that never took place. *Elleander Morning*

spans eight decades of the twentieth century, tracing two different timelines from two very different worlds and raising thought-provoking questions along the way. Literature as Cultural Ecology - Hubert Zapf

2016-04-21

Drawing on the latest debates in ecocritical theory and sustainability studies, *Literature as Cultural Ecology: Sustainable Texts* outlines a new approach to the reading of literary texts. Hubert Zapf considers the ways in which literature operates as a form of cultural ecology, using language, imagination and critique to challenge and

transform cultural narratives of humanity's relationship to nature. In this way, the book demonstrates the important role that literature plays in creating a more sustainable way of life. Applying this approach to works by writers such as Emily Dickinson, Edgar Allan Poe, Herman Melville, William Faulkner, Toni Morrison, Zakes Mda, and Amitav Ghosh, *Literature as Cultural Ecology* is an essential contribution to the contemporary environmental humanities.

Blueprint for Black Power -

Amos N. Wilson 1998

Afrikan life into the coming millennia is imperiled by White and Asian power.

True power must nest in the ownership of the real estate wherever Afrikan people

dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

Lights Out - T. S. Wiley
2002-01-18

When it comes to obesity, diabetes, heart disease, cancer, and depression, everything you believe is a lie. With research gleaned from the National Institutes of Health, T.S. Wiley and

Bent Formby deliver staggering findings: Americans really are sick from being tired. Diabetes, heart disease, cancer, and depression are rising in our population. We're literally dying for a good night's sleep. Our lifestyle wasn't always this way. It began with the invention of the lightbulb. When we don't get enough sleep in sync with seasonal light exposure, we fundamentally alter a balance of nature that has been programmed into our physiology since day one. This delicate biological rhythm rules the hormones and neurotransmitters that determine appetite, fertility, and mental and physical health. When we rely on artificial light to extend our day until 11 p.m., midnight, and beyond, we fool our bodies into living in a perpetual state of summer. Anticipating the scarce food supply and forced inactivity of winter, our bodies begin storing fat and slowing

metabolism to sustain us through the months of hibernation and hunger that never arrive. Our own survival instinct, honed over millennia, is now killing us. Wiley and Formby also reveal: -That studies from our own government research prove the role of sleeplessness in diabetes, heart disease, cancer, infertility, mental illness, and premature aging -Why the carbohydrate-rich diets recommended by many health professionals are not only ridiculously ineffective but deadly -Why the lifesaving information that can turn things around is one of the best-kept secrets of our day. Lights Out is one wake-up call none of us can afford to miss.
