Virtual Clinical Excursions Online and Print Workbook for Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2014-09-30

Simulation Learning System for Hockenberry: Wong's Essentials of Pediatric Nursing (User Guide and Access Code) - Marilyn J. Hockenberry 2009-12

The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Essentials of Pediatric Nursing, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Virtual Clinical Excursions--pediatrics - David Wilson 2008

One of the most complete nursing education learning systems available, Virtual Clinical Excursions guides you through a virtual hospital setting where the patients are real and their conditions are constantly changing. By immersing yourself in a realistic, yet safe, nursing environment, VCE allows you to get acclimated to the routine and rigors of the average clinical rotation where you can conduct a complete assessment of a patient and set priorities for care, collect data, analyze and interpret data, prepare and administer medications, and reach conclusions about complex problems. Each lesson has a textbook reading assignment and activities based on "visiting" the patients in the hospital, which provide a perfect environment in which you may "practice" what you are learning. The CD-ROM uses streaming videos to represent patients just as you would see them in a hospital setting and gives you access to highly detailed patient records - including charts, medication administration records, a Kardex-type plan of care, a drug guide, and an extensive electronic patient record system that has data for each client from the time of their admission throughout their simulation. Promotes active learning as you collect information and process data for evidence-based patient care. Includes five unique patients/cases, each with complex medical conditions. Allows you to monitor and care for one or more patients during four, 45-minute periods of care within a 12-hour shift. Workbook lessons complement the content of the textbook and link reading assignments with patients in the virtual hospital. Online workbook lessons allow you to complete assignments online. Exposes you to realistic information resources, such as the EPR, MAR, and patient charts, to prepare you for managing data and decision-making on the floor. A Medication Room contains a wide variety of drug storage areas. A medication administration function allows you to select, prepare, and administer medications. Contains over 55 common medication errors embedded within the software to boost clinical realism and reinforce the precepts of safe medication administration in a harm-free environment. Includes a Drug Guide with drug monographs for all medications used within the program. Fully integrates psychosocial aspects of nursing through nurse-client interaction videos that underscore the psychosocial component of patient care. Clinical Alerts highlight major changes in each patient's condition. An Online Testing Program with over 250 NCLEX(R) exam-style questions on each patient/case allows you

to measure your understanding of the content and access your relevant clinical judgment.

Wong's Essentials of Pediatric Nursing - Text and Study Guide Package - Marilyn J. Hockenberry 2011-05-24

This money-saving package includes the 8th edition of Wong's Essentials of Pediatric Nursing Text and Study Guide.

Wong's Essentials of Pediatric Nursing - Marilyn J. Hockenberry 2016

Awarded first place in the 2017 AJN Book of the Year Awards in the Child Health category. Known for its accuracy, evidence-based focus, and engaging writing style, Wong's Essentials of Pediatric Nursing, 10th Edition has been the #1 title in the pediatric nursing market since it first published in 1980! Thoroughly revised to equip you with the latest research and guidelines for treating children today, it encourages a whole-body approach by beginning with child development and health promotion to better understand the later chapters on specific health problems. A new chapter featuring all systems cancers provides comprehensive information in one place. Nursing Care Plans now incorporate additional case studies to personalize interventions and promote critical thinking. A developmental approach clearly identifies key tasks, influences, and differences at each stage of a child's growth to help students provide appropriate, individualized care for each child. UNIQUE! Critical thinking case studies allow you to test and develop your analytical skills in a variety of clinical situations. UNIQUE! Quality Patient Outcomes content in Nursing Care Management discussions for major diseases and disorders helps you understand how the care you provide directly impacts patient safety and promotes positive outcomes. Updated genetic content in the Developmental and Genetic Influences on Children chapter addresses rapidly changing and important information as it relates to children in health and illness. UNIQUE! Family focus includes a separate chapter on the role of the family in child health, family content throughout the text, and Family-Centered Care boxes that highlight information on patient teaching, home care, and incorporating the family in the child's care. UNIQUE! Translating Evidence into Practice boxes focus your attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. UNIQUE! Atraumatic Care boxes guide you through performing procedures in a caring manner, promoting more positive experiences for children, families, and nurses. Drug Alerts throughout the text emphasize important drug information and point out potential safety issues. An emphasis on wellness offers health promotion and injury prevention strategies for each age group. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Nursing Care Plans, including Nursing Diagnoses, Patient/Family Goals, Nursing Interventions/Rationales, and Expected Outcomes, provide you with a model for planning patient care. Research Focus boxes help you remain abreast of current studies that impact pediatric nursing today. Cultural content, integrated throughout the text and highlighted in Cultural Considerations boxes, exposes you to customs and beliefs of different cultures that influence child care, enhancing your ability to provide quality nursing care to ALL children and their families. Nursing Tips throughout the text offer helpful hints and practical, clinical information of a non-emergency nature. Nursing Alerts throughout the text provide you with critical information that must be considered in providing care. UNIQUE! Emergency Treatment boxes serve as a quick reference in critical situations. Nursing Care Guidelines boxes provide you with clear, step-by-step, detailed instructions for performing specific skills or procedures. NEW! Updated content throughout, notably methods of measuring

competency and outcomes (QSEN and others), ambiguous genitalia, pediatric measurements, guidelines, and standards as defined by the American Academy of Pediatrics, and clear definitions of adolescent and young adult, keeps you up-to-date on important topic areas. NEW! The Child with Cancer chapter includes all systems cancers for ease of access. NEW and UPDATED! Case Studies now linked to Nursing Care Plans to personalize interventions, while also providing questions to promote critical thinking.

Wong's Clinical Manual of Pediatric Nursing - E-Book - David Wilson 2014-04-14

Portable and convenient, Wong's Clinical Manual of Pediatric Nursing, 8th Edition is your "go-to" clinical guide for the care of children and their families, whether in the hospital, clinic, community setting, or home. It includes assessment tools that may be used in practice, nursing care plans for specific disorders, and new information on pediatric pain assessment and management. Evidence-based guidelines are updated and also include patient teaching instructions, so you'll find all information on a specific procedure in one location. Written by leading pediatric experts David Wilson and Marilyn Hockenberry, this reference includes a companion Evolve website with nursing care plans that may be customized and printed for use with individual patients. Complete, concise assessment data on general health, specific problems, nutrition, sleep, and growth and development is easy to access in the clinical setting. UNIQUE! Evidence-based interventions include guidelines for treating pediatric patients and providing information to their families and caregivers, with new interventions added on phototherapy and asthma inhalers. UNIQUE! Safety Alerts highlight safety information throughout the book. UNIQUE! Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, and stress. Nursing Care Plans include guidelines and examples for developing care plans for patients, and a companion Evolve website allows you to modify, customize, and print these care plans. UNIQUE! A community focus includes guidelines to interventions, patient teaching, and home care, along with Community Focus boxes throughout book. Tables and charts for health promotion summarize nutrition, immunizations, safety and injury prevention, and parental guidance. Common laboratory test data is provided at your fingertips. UNIQUE! Modifiable Nursing Care Plans for 24 pediatric conditions are included in the care plan constructor on the companion Evolve website. UNIQUE! Patient teaching instructions on Evolve allow you to print and disseminate sets of easy-to-understand instructions to caregivers, with 15 translated into Spanish. NEW Pain Assessment and Management unit presents pain management strategies for the neonate, child, and adolescent. NEW! Full-color photos of dermatologic conditions help you diagnose the pediatric dermatologic problems most commonly seen in practice.

Wong's Nursing Care of Infants and Children Australia and New Zealand Edition - E-Book - Lisa Speedie 2021-11-09

This new text has been adapted from the highly trusted Wong's Nursing Care of Infants and Children to provide a reference for professional nurses working in paediatric and child and family health settings in Australia and New Zealand. The content covers all aspects of infant, child and adolescent care, including anatomy and physiology, child and adolescent mental health, nursing care guidelines, critical thinking, family-centred care, rural and remote health, cultural and psychosocial considerations, common presenting conditions, and therapeutic management. With input from leading local expert paediatric clinicians and academics, and carefully curated for practising paediatric nurses, and nurses newly entering paediatrics, the text aligns with local professional standards, health policies, legal and ethical considerations and population data. Well-established, comprehensive text that focuses on clinical relevance for professional nurses Covers all aspects of infant, child and adolescent health through an assessment and management approach Foundational information builds a solid knowledge base in paediatric nursing Written to help nurses develop a deeper understanding of the psychosocial needs of infants, children, adolescents and their families Case studies and research questions to build critical thinking skills Aligned to National Safety and Quality Health Service (NSQHS) Standards User-friendly, accessible content suitable for practising paediatric nurses across a variety of clinical settings and geographic locations

Taylor's Handbook of Clinical Nursing Skills - Pamela Lynn 2010-11-01

Taylor's Handbook of Clinical Nursing Skills is a step-by-step guide to basic and advanced nursing skills. This book will be a quick reference tool for review of cognitive and technical knowledge and will assist students and practicing nurses to provide safe and effective healthcare. It is an ideal companion to any

nursing skills or nursing fundamentals text, including Lynn, Taylor's Clinical Nursing Skills and Taylor, Fundamentals of Nursing: The Art and Science of Nursing Care.

Avery & MacDonald's Neonatology - James Boardman 2021-05-18

For more than 45 years, Avery & MacDonald's Neonatology has been the premier text on the pathophysiology and management of both preterm and full-term neonates, trusted by neonatologists, neonatology fellows, pediatricians, neonatal nurse practitioners, and ob/gyn practitioners worldwide. Continuing the tradition of excellence established by Drs. Gordon B. Avery and Mhairi G. MacDonald, this fully revised eighth edition features three new lead editors, numerous new chapters, reorganized and updated content, and an increased focus on global neonatology.

Maternal Child Nursing Care - E-Book - Shannon E. Perry 2017-09-09

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions.

Wong's Clinical Manual of Pediatric Nursing - David Wilson 2012

Conditions are included in the care plan constructor on the companion Evolve website. UNIQUE! Patient teaching instructions on Evolve allow you to print and disseminate sets of easy-to-understand instructions to caregivers, with 15 translated into Spanish. NEW Pain Assessment and Management unit presents pain management strategies for the neonate, child, and adolescent. NEW! Full-color photos of dermatologic conditions help you diagnose the pediatric dermatologic problems most commonly seen in practice.

Health, Safety, and Nutrition for the Young Child - Lynn R Marotz 2014-01-01

HEALTH, SAFETY, AND NUTRITION FOR THE YOUNG CHILD, 9th Edition, covers contemporary health, safety, and nutrition needs of infant through school-age children--and guides teachers in implementing effective classroom practices--in one comprehensive, full-color volume. Concepts are backed by the latest research findings and linked to NAEYC standards. The book emphasizes the importance of respecting and partnering with families to help children establish healthy lifestyles and achieve their learning potential. Early childhood educators, professionals, and families will find the latest research and information on many topics of significant concern, including food safety, emergency and disaster preparedness, childhood obesity, children's mental health, bullying, resilience, chronic and acute health conditions, environmental quality, and children with special medical needs. Also provided are easy-to-access checklists, guidelines, and activities that no early childhood student or professional should be without. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Clinical Companion for Wong's Essentials of Pediatric Nursing - Marilyn J. Hockenberry 2009

"Carry this pocket guide and you'll have the information at your fingertips to provide better care for children at all ages and developmental stages! You'll find brief, bulleted information on more than 130 of the most commonly encountered childhood illnesses and disorders - information that helps you assess and care for children of all ages in the clinical setting."--BOOK JACKET.

Wong's Essentials of Pediatric Nursing - Text and Mosby's Care of Infants and Children Nursing Video Skills Package - Marilyn J. Hockenberry 2008-10

This money-saving package is a must-have for nursing students! It includes Wong's Essentials of Pediatric Nursing 8th edition text and an electronic version of the textbook that allows students to search, highlight information, take notes, share notes and more. This package makes it simple for students to make the most of their study time and get more use out of their textbooks!

Neonatal Pain - Giuseppe Buonocore 2008-02-13

This is the first book dealing with fetal pain and its consequences and with pain in premature babies. The volume gives an overview of the current knowledge in this field. An international team of renowned specialists evaluates neonatal and fetal pain from the different points of view, and possible consequences of pain - even psychological - on the brain. This book will be an invaluable resource for professionals and for post-graduate students in all disciplines.

Pediatric Nursing - Kathryn Rudd 2013-10-10

All of the field's must-have information is delivered in an easy-to-grasp, visually clear and precise design.

Introductory Maternity and Pediatric Nursing - N. Jayne Klossner 2009

The Second Edition of Introductory Maternity and Pediatric Nursing reflects the underlying philosophy of love, caring, and support for the childbearing woman, the child, and the families of these individuals.

Recognizing that the responsibility of caring for the pregnant woman and ill child increasingly falls on the family, this text stresses teaching the patient, family, and child with an emphasis on prevention. This edition's updated full-color photos and drawings enliven and support the text, especially for visual learners.

A companion Website includes video clips related to developmental tasks of pregnancy, vaginal birth, Cesarean delivery, assisting with breastfeeding, developmental considerations in caring for children, care of the hospitalized child, and pediatric medication administration.

Wong's Essentials of Pediatric Nursing - Text and Simulation Learning System Package - Marilyn J. Hockenberry 2009-02-11

This money saving package includes the Hockenberry: Wong's Essentials of Pediatric Nursing, 8th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Hockenberry: Wong's Essentials of Pediatric Nursing, 8th edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Essentials of Pediatric Nursing, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Clinical Case Studies for the Family Nurse Practitioner - Leslie Neal-Boylan 2011-11-28

Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

Burns and Grove's The Practice of Nursing Research - E-Book - Jennifer R. Gray 2020-07-21

Winner of the 1st-place American Journal of Nursing Book of the Year award in nursing research/evidence-

based practice for 2021! Burns & Grove's The Practice of Nursing Research: Appraisal, Synthesis, and Generation of Evidence, 9th Edition is the trusted resource for those wanting to master the research methods that are foundational to evidence-based practice. This highly respected textbook covers how to appraise and apply existing research evidence, as well as how to participate in research and quality improvement projects. This new 9th edition has been extensively updated to reflect today's focus on online research in the digital era and includes clear, step-by-step guidelines for all major quantitative and qualitative research approaches — including supporting examples from the latest high-quality literature. There's also new content on translational research, coverage of the most current research tools and techniques, and an increased use of illustrations, tables, and other visuals to help engage visually oriented readers of all levels. Coverage of quantitative, qualitative, and other research methodologies provides a solid foundation to conduct, appraise, and apply research evidence to the realities of today's clinical practice. Balanced coverage of qualitative and quantitative methods addresses the qualitative research methodologies that are often the starting point of research projects, particularly in magnet hospitals and DNP programs. Clear, comprehensive coverage is organized into five units that include: an introduction to nursing research; coverage of the research process; application for evidence-based health care; how to analyze data, determine outcomes, and disseminate research; and how to propose and seek funding for research. Strong emphasis on evidence-based practice addresses this key graduate-level QSEN competency and reinforces how to generate research evidence and appraise and synthesize existing research for application to clinical practice. Rich examples from nursing literature bring research principles to life. Emphasis on the most currently used research methodologies focuses on the methods used in both quantitative research and qualitative research, as well as outcomes research and mixed-methods research. Coverage of digital data collection examines the use of online research tools. Quick-reference summaries include a table of research methods inside the front cover and a list of types of research syntheses (with definitions) inside the back cover. Helpful user resources are included with each new text purchase on the companion Evolve website and feature 400 interactive review questions along with a library of 10 full-text research articles.

We Move Together - Kelly Fritsch 2021-04-14

A bold and colorful exploration of all the ways that people navigate through the spaces around them and a celebration of the relationships we build along the way. We Move Together follows a mixed-ability group of kids as they creatively negotiate everyday barriers and find joy and connection in disability culture and community. A perfect tool for families, schools, and libraries to facilitate conversations about disability, accessibility, social justice and community building. Includes a kid-friendly glossary (for ages 3-10). This fully accessible ebook includes alt-text for image descriptions, a read aloud function, and a zoom-in function that allows readers to magnify the illustrations and be able to move around the page in zoom-in mode.

Wong's Nursing Care of Infants and Children - Text and Simulation Learning System for Hockenberry: Wong's Essentials of Pediatric Nursing, 8e Package - Marilyn J. Hockenberry 2009-12

This convenient, money-saving package is a must-have for students training for a career in nursing. It includes Wong's Nursing Care of Infants and Children, 8th edition and Mosby's Nursing VideoSkills: Care of Infants and Children.

Wong's Nursing Care of Infants and Children - Text and Mosby's Care of Infants and Children Nursing Video Skills Package - Marilyn J. Hockenberry 2007-09

This convenient, money-saving package is a must-have for students training for a career in nursing. It includes Wong's Nursing Care of Infants and Children, 8th edition and Mosby's Nursing VideoSkills: Care of Infants and Children.

Complementary & Alternative Therapies in Nursing - Ruth Lindquist 2013-11-05

Print+CourseSmart

Clinical Companion for Wong's Essentials of Pediatric Nursing - E-Book - Marilyn J. Hockenberry 2008-09-17

Carry all of the most essential knowledge on pediatric care in your pocket with the Clinical Companion for Wong's Essentials of Pediatric Nursing! This indispensable guide from the authors of the most trusted pediatric nursing textbook on the market includes need-to-know information for the clinical setting in a

quick-reference format. Content on the procedures and diagnostic tests you're most likely to perform, plus brief discussions of over 130 commonly encountered childhood illnesses and disorders, makes this the perfect companion for practice. The History and Physical Assessment section includes atraumatic methods and age appropriate techniques. The Pain Assessment and Management section features pain scales and information on pharmacologic and nonpharmacologic management of pain. Over 130 entries in the Common Childhood Illnesses/Disorders section cover the most clinically relevant information in a handy, quick-reference format. Detailed information on bone marrow aspiration, cardiac catheterization, echocardiography, pulmonary function tests, and more in Common Diagnostic Tests and Tools explains the diagnostic tests you're most likely to perform in practice. The Common Nursing Procedures section includes essential information on procedures you need to know, including medication administration routes and procedures, oxygen therapy, specimen collection, central venous line access and care, and much more.

Foundations of Nursing - E-Book - Barbara Lauritsen Christensen 2013-12-27

Part of the popular LPN Threads series, this comprehensive text prepares you for safe and effective nursing practice in today's fast-paced healthcare environment. Covering maternal and neonatal, pediatric, geriatric, mental health, and community nursing, *Foundations of Nursing, 6th Edition*, includes all of the essential LPN/LVN content you need. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. The consistent, logical framework of the nursing process connects specific disorders to patient care. A mathematics review chapter provides a complete review of basic arithmetic skills and practice in drug dosage calculation to ensure safe medication administration. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. More than 100 skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. Coordinated Care boxes emphasize parameters for prioritizing tasks, as well as assigning tasks to and supervising unlicensed assistive personnel. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

Wong's Essentials of Pediatric Nursing - Marilyn J. Hockenberry 2008-11

This money-saving package is a must-have for nursing students! It includes Wong's Essentials of Pediatric Nursing 8th edition text and an electronic version of the textbook that allows students to search, highlight information, take notes, share notes and more. This package makes it simple for students to make the most of their study time and get more use out of their textbooks!

Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2018-10

Wong's Nursing Care of Infants and Children - E-Book

Virtual Clinical Excursions - Pediatrics - Marilyn J. Hockenberry 2006-11-13

This innovative workbook/CD-ROM package helps bridge the gap between the classroom and the real world by teaching students about clinical settings and critical thinking before they actually start clinical rotations - making the transition from nursing student to caregiver a smoother process. A guided learning experience, VCE features textbook reading assignments that correspond with the CD-ROM and workbook activities. The workbook acts as a map, guiding students through the CD-ROM as they care for patients in the virtual hospital, making connections between what they experience in the virtual hospital and what they learn in the textbook. Throughout each lesson, students access realistic information resources essential to patient care, resulting in a true-to-life, hands-on learning experience. Promotes active learning as students identify information to collect and process data for evidence-based patient care. Exposes students to realistic information resources - such as the EPR, MAR, and extensive Charts - to prepare them for data management and decision-making on the floor. Improves core computing skills as students access and evaluate the diverse hospital databases. Reinforces the precepts of safe medication administration as students select, prepare, and administer medications in a harm-free environment. Augments knowledge of physical assessment by allowing students to examine and record vital signs, head & neck, chest, back & spine, upper extremities, abdomen, pelvic, and lower extremities. Fully integrates the psychosocial aspect of nursing through nurse-client interaction videos, underscoring the psychosocial component of patient care. Includes over 250 NCLEX® examination-style questions that offer built-in testing of clinical knowledge. New flash-based technology allows more ease of use, featuring seamless one-click navigation, no plug-ins, and automatic installations. The cases in VCE are all new along with new patient data in the Electronic Patient Record, Patient Charts, KARDEX, and Medication Administration Record. A new medication room simulates what students will encounter in practice or in a real clinical setting. Over 55 embedded medication administration errors force students to think critically about safe medication practices and follow safe medication standards. Students can now sign in for multiple patients as a nurse would in practice. A new Medication Scorecard provides instant feedback on correctly and incorrectly administered medications. A new Examination Report checklist tracks performance on baseline and focused assessments. Students now have the ability to "take a break" - leaving the software at anytime and picking up where they left off without losing any information. New workbook icons for time show approximately how long it will take to complete a particular exercise. Workbook icons for linked activities indicate that a particular exercise is linked to another exercise and cannot be completed independently.

Varcarolis' Foundations of Psychiatric Mental Health Nursing - Margaret Jordan Halter 2014
Rev. ed. of: *Foundations of psychiatric mental health nursing* / [edited by] Elizabeth M. Varcarolis, Margaret Jordan Halter. 6th ed. c2010.

Pediatric Nursing - E-Book - Debra L. Price 2014-04-11

Covering evidence-based pediatric nursing care from infancy through adolescence, *Pediatric Nursing: An Introductory Text, 11th Edition* provides a clear, easy-to-read guide to pediatric nursing for LPN/LVN students. Content in this edition is reorganized for a "best of both worlds" approach to pediatric nursing, with early chapters devoted to normal growth and development by age group followed by chapters covering the most common childhood disorders grouped by body system. Updated coverage reflects the latest issues in pediatric nursing care, including childhood obesity and teenage pregnancy. Clinical Snapshots and Nursing Care Plans with critical thinking questions show how to apply the nursing process in real patient care scenarios. Written by noted pediatric nursing educators Debra L. Price and Julie F. Gwin, this market-leading textbook provides the essential knowledge you need to succeed in LPN/LVN practice. Reading Level: 9.6 Nursing Care Plans with critical thinking questions reinforce problem-solving skills as the nursing process is applied to pediatric nursing, with NEW critical thinking answer guidelines provided on the companion Evolve website Evolve to help you understand how a care plan is developed and how to evaluate care of a patient. UNIQUE! Free, built-in Study Guide includes scenario-based clinical activities and practice questions for each chapter. Complete, concise coverage of evidence-based pediatric nursing care includes cultural and spiritual influences, complementary and alternative therapies for pain management, and pediatric psychophysiologic responses to bioterrorism and threats of bioterrorism. UNIQUE! Clinical Snapshots describe patient scenarios and include photographs of pediatric assessment

and specific disorders, helping you apply critical thinking skills to clinical situations. Did You Know boxes list assessment data to help you recognize possible pediatric disorders. Nursing Brief boxes stress key points and help in prioritizing information. Communication boxes offer tips and techniques for successful nurse-patient-family communication. Health Promotion boxes and content highlight family-centered care, wellness, and illness prevention. Home Care Considerations boxes address home care issues for children with chronic illnesses and congenital disorders as well as community-based care issues including immunization, nutrition, and overall health promotion. UNIQUE! LPN Threads make learning easier, featuring an student-friendly reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Study Guide for Wong's Nursing Care of Infants and Children - E-Book - Marilyn J. Hockenberry 2018-09-03

Corresponding chapter by chapter to the completely reorganized and revised Wong's Nursing Care of Infants and Children, 11th Edition, this study guide helps you apply pediatric nursing concepts to real-world practice. It assesses, reinforces, and strengthens your understanding of pediatric nursing with learning activities, review questions, and case studies with critical thinking questions. Learning Key Terms — consisting of matching and fill-in-the-blank questions — test your ability to define all key terms highlighted in each textbook chapter. An answer key for the review questions and learning activities is included in the back of the study guide. Pages are perforated, so submitting assignments is easy. Reviewing Key Concepts and Content includes questions in various formats to provide you ample opportunity to assess your knowledge and comprehension of information covered in the text. Activities include matching, fill-in-the-blank, true/false, short answer, and multiple choice to help you identify the core content of the chapter — and test your understanding upon completion of reading the chapter. Thinking Critically case-based activities require you to apply the concepts found in the chapters to solve problems, make decisions concerning care management, and provide responses to patient questions and concerns. Learning Key Terms consists of matching and fill-in-the-blank questions that let you test your ability to define all key terms highlighted in the corresponding textbook chapter. An answer key is included at the end of the Study Guide. Perforated pages allow you to submit assignments to your instructor. NEW! Updated chapter organization and content matches revised and reorganized text.

Wong's Essentials of Pediatric Nursing: Second South Asian Edition - A. Judie 2018-09-18

Wong's Essentials of Pediatric Nursing: Second South Asian Edition

Essentials of Nursing Leadership and Management - Ruth M. Tappen 2004-01

This new edition focuses on preparing your students to assume the role as a significant member of the health-care team and manager of care, and is designed to help your students transition to professional nursing practice. Developed as a user-friendly text, the content and style makes it a great tool for your students in or out of the classroom. (Midwest).

Pediatric Nursing - Debra L. Price 2008-01-01

Part of the popular LPN Threads series, the new edition of this market-leading textbook presents a clear, well-organized exploration of pediatric nursing for LPN/LVN students. It integrates cutting edge information with updated content, offering useful learning tools to reinforce fundamental concepts.

Organized according to developmental stages, the book covers pediatric nursing from infancy to adolescence, with a separate chapter on end-of-life care for children and their families. With its easy-to-read, clear writing style, it provides exactly the right depth and breadth of content for LPN/LVNs.

Organization by developmental stages. UNIQUE! Pediatric psychophysiologic responses to bioterrorism and threats of bioterrorism are found in Chapter 1. UNIQUE! Nursing Briefs stress important content-related

points and help you prioritize information. Communication Alert boxes identify key tips, specific to establishing successful nurse-patient-family communication. UNIQUE! Community Cues address home care and community-based care issues and tie in nursing care with larger community-based problems, such as nutrition, immunization, and health promotion. UNIQUE! Data Cues list assessment data to help you recognize possible pediatric disorders. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process as applied to pediatric disorders. 13 Skills follow the nursing process and are clearly presented in an Action/Rationale format and teach basic procedures used by the LPN/LVN in pediatric nursing settings. UNIQUE! Chapter 3 includes a section on NIC/NOC, classification systems used in many clinical and hospital settings. Online Resources appear at the end of each chapter and provide an opportunity for further study. Perforated Self-Assessment Workbook included at the back of the book features a variety of matching, multiple-choice, study questions, case studies with critical thinking questions, and Internet activities. UNIQUE! Critical Thinking Snapshots of selected clinical situations with brief scenarios are located after the Critical Thinking Questions at the end of selected Nursing Care Plans and provide visual examples of specific disorders to help you apply critical thinking skills to clinical situations. UNIQUE! January 2007 Recommended Childhood Immunization Schedule (Appendix A) for children, adolescents, and catch-up growth immunizations provide the most up-to-date information for nurses and families. UNIQUE! JCAHO's Lists of Dangerous Abbreviations, Acronyms, and Symbols provides guidelines for the prevention of medication administration error, especially serious in pediatric dosages. Health Promotion boxes highlight wellness and disease prevention in light of relevant Healthy People 2010 objectives. Content on evidence-based practice, increased cultural content added to Chapter 1: Child Health Evolution and new information on complementary and alternative therapies in Chapter 3: Care of the Hospitalized Child have been added. Home Care Tips related to specific disorders supplement the content on home care in Chapter 3.

Stanford Wong Flunks Big-Time (The Millicent Min Trilogy, Book 2) - Lisa Yee 2015-04-28

Stanford Wong is in big trouble--or as he would spell it, "trubble"--in this laugh-out-loud companion to the award-winning MILLICENT MIN, GIRL GENIUS and this season's SO TOTALLY EMILY EBERS. Stanford Wong is having a bad summer. If he flunks his summer-school English class, he won't pass sixth grade. If that happens, he won't start on the A-team. If *that* happens, his friends will abandon him and Emily Ebers won't like him anymore. And if THAT happens, his life will be over. Soon his parents are fighting, his grandmother Yin-Yin hates her new nursing home, he's being "tutored" by the world's biggest nerdball Millicent Min--and he's not sure his ballpoint "Emily" tattoo is ever going to wash off.

Maternity & Women's Health Care - Deitra Leonard Lowdermilk 2007

Accompanying CD-ROM contains ... "case studies, clinical thinking questions, videos, animations, a care plan constructor, illustrated skills, English-Spanish translations, and an audio glossary."--Page 4 of cover.

Wong's Essentials of Pediatric Nursing - Marilyn J. Hockenberry 2020-09-03

Study Guide for Wong's Essentials of Pediatric Nursing - E-Book - Marilyn J. Hockenberry 2013-12-27
