INDIA'S NEW CAPITALISTS - Harish Damodaran 2018-11-25

It's no secret that certain social groups have predominated India's business and trading history, with business traditionally being the preserve of particular `Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book ? acclaimed for being the first social history to document and understand India's new entrepreneurial groups ? Harish Damodaran looks to answer who the new `wealth creators' are, as he traces the

transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.

Not War, Not Peace? - George Perkovich 2016-08-04

The Mumbai blasts of 1993, the attack on the Indian Parliament in 2001, Mumbai 26/11—cross-border terrorism has continued unabated. What can India do to motivate Pakistan to do more to prevent such attacks? In the nuclear times that we live in, where a military counter-attack could escalate to destruction beyond imagination, overt warfare is clearly not an option. But since outright peace-making seems similarly infeasible, what combination of coercive pressure and bargaining could lead to peace? The authors provide, for the first time, a comprehensive assessment of the violent and non-violent options available to India for compelling Pakistan to take concrete steps towards curbing terrorism originating in its homeland. They draw on extensive interviews with senior Indian and Pakistani officials, in service and retired, to explore the challenges involved in compellence and to show how non-violent coercion combined with clarity on the economic, social and reputational costs of terrorism can better motivate Pakistan to pacify groups involved in cross-border terrorism. Not War, Not Peace? goes beyond the much discussed theories of nuclear deterrence and counterterrorism strategy to explore a new approach to resolving old conflicts.

India and the Soviet Union - Santosh K. Mehrotra 1990

India was the Soviet Union's most important trading partner among the less developed countries (LDCs) and the largest recipient of Soviet aid to non-socialist LDCs. Similarly the Soviet Union is one of India's largest trade partners. In this 1991 book, Santosh Mehrotra presents a comprehensive study of this trading relationship and the transfer of technology from the Soviet Union. He begins by outlining Indian economic strategy since the 1950s and the role of Soviet and East European technical assistance. Part II examines Soviet technological transfer to India since 1955. The final chapters analyse Indo-Soviet trade in the 1970s and 1980s, covering payment arrangements and bilateral trading. The book is an exhaustive analysis of economic relations between an

industrialised planned economy and a developing market economy. It will therefore become essential reading for students and specialists of development economics and international relations as well as for government and institutional economists in international trade and finance.

Working the Night Shift - Reena Patel 2010-03-25

Relatively high wages and the opportunity to be part of an upscale,

globalized work environment draw many in India to the call center industry. At the same time, night shift employment presents women, in particular, with new challenges alongside the opportunities. This book explores how beliefs about what constitutes "women's work" are evolving in response to globalization. *Working the Night Shift* is the first in-depth study of the transnational call center industry that is written from the point of view of women workers. It uncovers how call center employment affects their lives, mainly as it relates to the anxiety that Indian families and Indian society have towards women going out at night, earning a good salary, and being exposed to western culture. This timely account illustrates the ironic and, at times, unsettling experiences of women who enter the spaces and places made accessible through call center work. Visit the author's website at <http://www.working-the-nightshift.com> and facebook group.

The Shadow of Childhood Harm Behind Prison Walls - Nancy Wolff 2022-11-25

Prison. Just reading the word conjures up mental images of harshness and negativity. While the word 'criminal' summons feelings of fear, disgust, anger, aggression, and revenge. These near-universal feelings about criminals are the foundation of prisons as places where harm, through neglect, indifference, and paucity, festers and replicates like a virus. For

this reason, any conversation about prison and its potential for anything other than harm must start with the people who live there. In *The Shadow of Childhood Harm*, Wolff, using a balance of compassion and evidence, takes readers through the lives of people who end up inside prison. Guided by the words of those who have lived the experience of harm, she weaves an expansive body of research that lays bare the harm that began in childhood (the curse) and its subsequent shadow that later, during adolescence and adulthood, manifests as harm to self and others, eventually culminating in crime that results in incarceration, where harm there, once again, repeats like a bad dream. With authority and rigor, Wolff uses ethics, law, science, and compassion, to call out the anti-humanism roots underpinning the (un)intelligent design of the current correctional system and rings in a new way of intelligently designing and maintaining a just, fair, and person-centered system of asylum of and for humanity.

The study focuses on three core issues pertaining to SHGs. These relate to (i) cost-effectiveness, (ii) sustainability, and (iii) impact, i.e., the development cost of SHGs and SHG-based institutions, the sustainability of SHG models and community institutions fostered by them, and the economic and social impact on SHG members.
