**Teaching Writing in the Inclusive Classroom** - Roger Passman, Ed.D. 2007  
Publisher Description

**Teaching EFL Writing in the 21st Century Arab World** - Abdelhamid Ahmed 2016-08-20

Teaching EFL Writing in the 21st Century Arab World addresses a range of issues related to researching and teaching EFL writing in different countries in the Arab World including Egypt, Morocco, Oman, Palestine, Tunisia, UAE and Yemen. Both theoretically and practically grounded, chapters within discuss the different contexts in which EFL writing is taught, from primary school to university. The book sheds light on how EFL writing is learned and taught at each educational stage, exposing the different challenges encountered in the teaching and learning. The focus on EFL writing in the Arab World makes this a unique and long overdue contribution to the field of research around EFL writing and will be an invaluable resource for researchers, curriculum designers and students.

**Write Like this** - Kelly Gallagher 2011

If you want to learn how to shoot a basketball, you begin by carefully observing someone who knows how to shoot a basketball. If you want to be a writer, you begin by carefully observing the work of accomplished writers. Recognizing the importance that modeling plays in the learning process, high school English teacher Kelly Gallagher shares how he gets his students to stand next to and pay close attention to model writers, and

how doing so elevates his students' writing abilities. Write Like This is built around a central premise: if students are to grow as writers, they need to read good writing, they need to study good writing, and, most important, they need to emulate good writers. In Write Like This, Kelly emphasizes real-world writing purposes, the kind of writing he wants his students to be doing twenty years from now. Each chapter focuses on a specific discourse: express and reflect, inform and explain, evaluate and judge, inquire and explore, analyze and interpret, and take a stand/propose a solution. In teaching these lessons, Kelly provides mentor texts (professional samples as well as models he has written in front of his students), student writing samples, and numerous assignments and strategies proven to elevate student writing. By helping teachers bring effective modeling practices into their classrooms, Write Like This enables students to become better adolescent writers. More important, the practices found in this book will help our students develop the writing skills they will need to become adult writers in the real world.

**Building Blocks of Writing Skills** - Robert Iki Leso 2012-09

Building Blocks of Writing Skills has been purposely written to meet the writing skills need for the Schools in Papua New Guinea. It is designed to be user-friendly and simplified to meet the teaching and learning needs of the students and teachers in the classroom. This book is a rich material for students and teachers who wish to prepare for National Written Expression Examinations that is organized annually across the country. In five well written chapters, the author swiftly takes the student how to write good narrative, descriptive, expository argumentative papers and letter writing. Each chapter is carefully blended with a step by step direction on how a student should prepare and present a well constructed paper. Indeed, the author has systematically arranged this book in order for the students to easily define, recall and display the different types of writings. It is equipped with useful, handy and practical activities to test the students' knowledge and skills in writing. In all, it is a well written book for students who need it. Without a doubt, this book is not only about helping the students to write clearly and logically to present their narrative, descriptive, expository, argumentative accounts and letter writing but also to develop the knowledge and skill levels of the students to become better person in the future. Those who begin to use this book will acclaim it as a gift from someone who has seen the need for good writing and has given some thoughts and time to come up with this resourceful book. This is a must book for both students and teachers who have the drive to master the skills of writing and become better at it.

*The Writing Revolution* - Judith C. Hochman 2017-07-27

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. *The Writing Revolution (TWR)* provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as *The Hochman Method*, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback.

Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Digital content includes all of the customizable reproducible forms from the book.

Why Boys Fail - Richard WHITMIRE 2010-01-13  
The signs and statistics are undeniable: boys are falling behind in school. Contrary to conventional wisdom, the biggest culprits are not video games, pop culture, or female-dominated schools biased toward girls. The real problem is that boys have been thrust into a bewildering new school environment that demands high-level reading and writing skills long before they are capable of handling them. Lacking the ability to compete, boys fall farther and farther behind. Eventually, the problem gets pushed into college, where close to 60% of the graduates are women. In a time when even cops, construction foremen, and machine operators need post-high school degrees, that's a problem. Why Boys Fail takes a hard look at how this ominous reality came to be, how it has worsened in recent years, and why attempts to resolve it often devolve into finger-pointing and polarizing politics. But the book also shares some good news. Amidst the alarming proof of

failure among boys—around the world—there are also inspiring case studies of schools where something is going right. Each has come up with realistic ways to make sure that every student—male and female—has the tools to succeed in school and later in life. Educators and parents alike will take heart in these promising developments, and heed the book's call to action—not only to demand solutions but also to help create them for their own students and children.

**New Approaches to Literacy** - Robert J. Marzano 1994  
Teachers who attempt to enhance the reading and writing skills of their students face one of the most difficult tasks in education. Not only are reading and writing two of the most difficult processes to teach and reinforce but they are two of the most important. After working with literally thousands of teachers to improve their effectiveness at enhancing these key literacy skills and after surveying the research, we have come to some conclusions about how reading and writing can be taught and reinforced. We present what we have learned in this book. (PsycINFO Database Record (c) 2004 APA, all rights reserved).

**Because Digital Writing Matters** - National Writing Project 2010-10-07

How to apply digital writing skills effectively in the classroom, from the prestigious National Writing Project  
As many teachers know, students may be adept at text messaging and communicating online but do not know how to craft a basic essay. In the classroom, students are increasingly required to create web-based or multi-media productions that also include writing. Since writing in and for the online realm often defies standard writing conventions, this book defines digital writing and examines how best to integrate new technologies into writing instruction. Shows how to integrate new technologies into classroom lessons  
Addresses the proliferation of writing in the digital age  
Offers a guide for improving students' online writing skills  
The book is an important manual for understanding this new frontier of writing for teachers, school leaders, university faculty, and teacher educators.

Offers strategies and practical tools to integrate writing assignments into math, science, art, and social studies.

**Writing Anchors** - Jan Wells 2004

This comprehensive handbook shows teachers how to build a foundation for writing with effective lessons that are the key to powerful writing workshops. Writing Anchors demonstrates how to create a supportive classroom, model writing experiences, and create enthusiasm for writing among students. The practical lessons explore the major elements of writing, with explicit strategies for teaching the major forms of writing: Informational writing—detailed descriptions of ways to take and organize notes, use text features, and create reports that have voice; Poetry and personal writing—language choice, imagery, using the senses, and finding the personal pulse of the writer; Narrative—extends writing skills with lessons on story sequence, problem solving, and character development. The lessons form "metacognitive anchors" that build an understanding of the elements of powerful writing. Each lesson comes with an anchor cue card that prompts students to apply their growing understandings independently in writing workshops and in assessing their own writing. In addition, the book provides more than thirty effective tools that are ready to copy and use in the

classroom—writing checklists, rubrics for assessment, graphic organizers, note-taking grids, semantic maps, story maps, tips for proofing, and student examples collected from grade 27 classrooms. "

**Teaching Writing in the Content Areas** - Stephen Tchudi  
1983

Content area writing for teachers working with elementary school children.

**Strategies for Writing in the Science Classroom** - Kathleen Kopp 2011

Writing is a valuable learning tool that can quite effectively--and easily--help students learn and understand science content. Teaching it, however, can be challenging for content-area teachers now under pressure from the Common Core Standards' refocused attention on reading and writing. With step-by-step directions, rubrics, student examples, templates, technology tips, and ideas for differentiation, Kopp goes beyond journals or reports to show how science teachers can use writing to develop critical-thinking skills, improve understanding of scientific concepts, assess students' progress, and hone skills in content-area writing. Her writing strategies support the Common Core Standards and, because the focus is on applying writing skills--and not teaching writing as an end in itself--science teachers can easily incorporate these strategies in any unit of study. This comprehensive resource makes it easy to incorporate writing in your science class today--and every day!

**Spotlight on Writing** - Glynis Hannell 2013-01-11

Spotlight on Writing offers teachers a wide variety of topics and activities to stimulate, engage, challenge,

entertain and extend all pupils' writing skills. This extremely practical resource provides busy teachers and teaching assistants with a collection of worksheets that can be used as instant, educationally appropriate learning activities written specifically with the inclusive classroom in mind. The wide variety of exercises encourages pupils to think about writing and to develop skills in writing facts and information, creative writing and editing, whilst building confidence and motivation. Teachers can use this book to develop a flexible inclusive approach, comprising individualised materials and opportunities for extended practice. All the books in this series: Promote effective intervention and inclusion strategies for teachers and teaching assistants Provide materials that are solidly grounded in an understanding of how children learn and the particular difficulties of children with special needs. Stimulate discussion and interaction Can be used as part of an individual or small group learning programme for a child with special needs Provide 'whole class' materials that can also engage older children or those with a higher level of achievement Offer teachers quick, fun activities that never require additional resources, special materials or preparation. Spotlight on Writing is an essential tool for any teacher striving to offer every pupil opportunities to maximise their own potential and develop strong writing skills.

Aligned with core principles of effective instruction, this resource provides brain-compatible strategies, reflection questions, and cross-curricular writing activities to boost students' writing and achievement.

**Why Johnny Can't Write** - Myra J. Linden 1990

The authors of this book, both experienced teachers,

examine the controversy surrounding two popular methods for teaching writing -- the "process" approach and its offspring, Writing Across the Curriculum. Both have recently been called into question for their ineffectiveness. An alternative lesser-known procedure called "sentence combining," which has been proven successful in numerous studies over the past fifteen years, finally is gaining the attention it deserves. Using the sentence combining approach, the authors present a rationale for re-thinking and re-tooling the English classroom and consequently making the entire educational system work more effectively. This book is useful for teachers at any level, especially those involved in writing instruction. It is also worthwhile reading for those wishing to improve their writing skills. Doing the sample exercises will strengthen writing skills and provide a solid foundation for a lifelong program of language growth.

**Effective Learning and Teaching of Writing** - Gert Rijlaarsdam 2007-11-23

Effective Learning and Teaching of Writing is a handbook on research on the effective teaching and learning of writing. It is a reference for researchers and educators in the domain of written composition in education.

Effective Learning and Teaching of Writing covers all age ranges and school settings and it deals with various aspects of writing and text types. Research methodology varies from experimental studies to reflective classroom practitioners' research. This new volume in the series Studies in Writing brings together researchers from all kinds of disciplines involved in writing research and countries in their endeavour to improve the teaching of written composition. It is the result of co-operation of researchers all over the world and shows that in spite of the differences in educational regions over the world, research in writing shares similar problems, and tries to find answers, and generate new questions. The body of knowledge in this volume will inspire researchers and teachers to improve research and practice.
