Reflections Of A Neoconserva - Irving Kristol 1983-10-23

Circumcision and Human Rights - George Denniston
2008-12-23

"There is hardly a reason to circumcise a little boy for medical reasons because those medical reasons don't exist", said Dr. Michael Wilks, Head of Ethics at the British Medical Association, who admitted that doctors have circumcised boys for "no good reason". In the United States, parts of Africa, the Middle East, and in the Muslim world, 13.3 million infant boys and 2 million girls have part or all of their external sex organs cut off for reasons that defy logic and violate basic human rights. Doctors, parents, and politicians have been misled into thinking that circumcision is beneficial, necessary, and harmless. In Circumcision and human

rights, internationally respected experts in the fields of medicine, science, politics, law, ethics, sociology, anthropology, history, and religion present the latest research on this tragedy, as a part of the worldwide campaign to end sexual mutilation. They outline steps for eradicating this abusive practice to enable males and females the dignity of living out their lives with all the body parts with which they were born.

Contemporary Developments in Indonesian Islam - Martin van Bruinessen 2013

"Once celebrated in the Western media as a shining example of a 'liberal' and 'tolerant' Islam, Indonesia since the end of the Soeharto regime (May 1998) has witnessed a variety of developments that bespeak a conservative turn in the country's Muslim politics. In this timely collection of original essays, Martin van Bruinessen, our most distinguished senior Western

scholar of Indonesian Islam, and four leading Indonesian Muslim scholars explore and explain these developments. Each chapter examines recent trends from a strategic institutional perch: the Council of Indonesian Muslim scholars, the reformist Muhammadiyah, South Sulawesi's Committee for the Implementation of Islamic Shari'a, and radical Islamism in Solo. With van Bruinessen's brilliantly synthetic introduction and conclusion, these essays shed a bright light on what Indonesian Muslim politics was and where it seems to be going. The analysis is complex and by no means uniformly dire. For readers interested in Indonesian Muslim politics, and for analysts interested in the dialectical interplay of progressive and conservative Islam, this book is fascinating and essential reading." -Robert Hefner, Director Institute on Culture, Religion, and World Affairs, Boston University

Islam and Power (RLE Politics of Islam) - Alexander S. Cudsi 2013-07-24

The 1970s witnessed a mushrooming of Islamic movements and ideas which was described variously as Islamic revival, Islamic resurgence and Islam on the march. Whether as part of the majority or minority, whether under capitalist or socialist regimes, Muslims have been moved by this reawakening. But what really are the causes and nature of this Islamic resurgence? Is it a purely religious revival? Or is it a social and political movement that must be understood in the context of the Muslim's conditions and milieu? Will it really lead to the establishment of an Islamic socio-political order or will it end up as an instrument of struggle between Muslim ruling elites and their opposition? And what are the foreign policy implications of these developments? Do they necessarily lead to a more militant and hostile attitude towards the West? These questions and more are tackled by the contributors to *Islam and Power*. First published in 1981.

Blogosphere - Michael Keren 2006

Examining the web logs, or blogs, of individuals from a variety of continents and cultures, this book highlights the nature of 'blogosphere,' the virtual public arena of the early 21st century, which alters the traditional world of media and politics. It characterizes this new arena by the unique combination of a fresh voice of emancipation and a deep sense of melancholy and

isolationism. This journey through blogosphere highlights major forces operating in today's politics: apathy toward political affairs, resistance to globalization, a quest for redemption through religious fundamentalism and terrorism. Michael Keren compares bloggers to terrorists, arguing that while the methods advocated by the two groups are obviously very different, they both represent a similar trend, one of diversion by respected but disenchanting citizens from the norms of civil society to a fantasy world in which the excessive use of words_or bombs_would make everybody listen

Biografi Kehidupan Nabi Idris AS (Enoch) Edisi Bahasa Inggris Classic Version Hardcover Edition - Jannah An-Nur Foundation 2020-09

Biografi Sejarah Kehidupan Nabi Idris AS atau Enoch Dalam Bahasa Inggris Bersumberkan Dari Kitab Suci Al-Quran, Hadist Rasulullah SAW Dan Tulisan Para Ulama Ilmuwan Muslim Versi Hardcover. Allah SWT (God) says in The Holy Qur'an: "And mention Idris in the Book, surely he was a truthful man, a Prophet. And We raised him high in heaven. (The Holy Quran 19:57-58) From authentic books, it is narrated from Wahab that Prophet Idris AS (Enoch) was a well-built man with a broad chest. He had less hair on his body and more on his head. His one ear was bigger than the other. He had scanty hair on his chest and spoke in a low voice. While walking his feet used to come close to one another. He is known as Idris because he used to teach about the magnanimity of Allah SWT (God) and the excellence of Islam. He pondered about the majesty, grandiose and glory of Allah SWT (God), that the sky, the earth, the sun, the moon, the stars and clouds and all other creations have a creator who by His power has created them, formed and arranged them.

Civil Islam - Robert W. Hefner 2011-05-21

Civil Islam tells the story of Islam and democratization in Indonesia, the world's largest Muslim nation. Challenging stereotypes of Islam as antagonistic to democracy, this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond. Democratic in the early 1950s and with rich precedents for tolerance and civility, Indonesia succumbed to violence. In 1965, Muslim parties were drawn into the slaughter of half a million communists. In the aftermath of this bloodshed, a "New Order" regime came to power, suppressing democratic forces and instituting dictatorial controls that held for decades. Yet from this maelstrom of violence, repressed by the state and denounced by conservative Muslims, an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state, mobilized religiously ecumenical support, promoted women's rights, and championed democratic ideals. This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism, and places Indonesia at the center of our efforts to understand what makes democracy work.

The Land of Five Towers (English Edition) - A. Fuadi 2013-12-17

"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother

wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase man jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. The Middle Path of Moderation in Islam - Mohammad Hashim Kamali 2015-05-18

Winner of the I.R. Iran World Award for Book of the Year In *The Middle Path of Moderation in Islam*, leading Islamic law expert Mohammad Hashim Kamali examines the concept of wasatiyyah, or moderation, arguing that scholars, religious communities, and policy circles alike must have access to this governing principle that drives the silent majority of Muslims, rather than focusing on the extremist fringe. Kamali explores wasatiyyah in both historical/conceptual terms and in contemporary/practical terms. Tracing the definition and scope of the concept from the foundational sources of Islam, the Qu'ran and Hadith, he demonstrates that

wasatiyyah has a long and well-developed history in Islamic law and applies the concept to contemporary issues of global policy, such as justice, women's rights, environmental and financial balance, and globalization. Framing his work as an open dialogue against a now-decades long formulation of the arguably destructive Huntingtonian "clash of civilizations" thesis as well as the public rhetoric of fear of Muslim extremism since the attacks of September 11, 2001, Kamali connects historical conceptions of wasatiyyah to the themes of state and international law, governance, and cultural maladies in the Muslim world and beyond. Both a descriptive and prescriptive meditation on a key but often neglected principle of Islam, The Middle Path of Moderation in Islam provides insight into an idea that is in the strategic interest of the West both to show and practice for themselves and to recognize in Muslim countries.

Islam in Southeast Asia - Norshahril Saat 2018-05-30
"Islam in the Malay world of Southeast Asia or Islam Nusantara, as it has come to be known, had for a long time been seen as representing the more spiritual and Sufi dimension of Islam, thereby striking a balance between the exoteric and the esoteric. This image of 'the smiling face of Islam' has been disturbed during the last decades with increasing calls for the implementation of Shari'ah, conceived of in a narrow manner, intolerant discourse against non-Muslim communities, and hate speech against minority Muslims such as the Shi'ites. There has also been what some have referred to as the Salafization of Sunni Muslims in the region. The chapters of this volume are written by scholars and activists from the region who are very perceptive of such trends in Malay world Islam and

promise to improve our understanding of developments that are sometimes difficult to grapple with." – Professor Syed Farid Alatas, Department of Sociology, Faculty of Arts and Social Sciences, National University of Singapore

Religious Broadcasting in the Middle East - Khālid Ḥarūb 2012

Religious broadcasting in the Middle East has benefited tremendously from new transnational media networks and the widespread availability of satellite broadcasting technology. Dozens of Muslim, Christian, and Jewish religious channels are now on air, advocating different forms of religiosity and shaping public perceptions through dialogue and debate. Mainstream news channels, such as Al-Jazeera and Al-Arabiya, broadcast popular religious programming, in some cases filled with highly politicized content. Others feature more apolitical commentary and are concerned only with preaching God's word. The Middle East's highly-charged religious and political ferment has certainly been propitious for such broadcasters as they seek to convey their message. This has, in turn, reinforced the link between the dominant "religious atmosphere" and religious broadcasting. Monitoring the content-analysis of some of the region's most influential religious channels and programs, the

contributors to this volume provide pioneering insights into the Middle East's burgeoning religious media market. They explore the themes, discourses, appearances, and "celebrities" of this rapidly expanding phenomenon and how its complex dynamics have transformed the region and the world.

The Politics of Internet Communication - Robert J. Klotz 2004

The writing displayed in this book represents nothing more than the thoughts of mine and mine alone on various topics. With the following views in this book, you will find yourself in one of a couple places. Exact same, similar to, or flat out opposed the view points and opinions in this book. It is a book of relativity.

Topics ranging from the what is success, fear, perception, and love are all covered in this book. View points and opinions are live. And this is symbolic by the flames you see on the cover. The format of writing in this book is exactly like philosophy in general. It's unorthodox, but interesting.

Islam versus the west - Maryam Jameela 1995

An Introduction to Islamic Economics - Muhammad Akram Khan 1994-01-01

The contemporary economic systems have failed to solve the economic problems of mankind. The failure of socialism is too obvious to need any documentation. The track record of capitalism is far from being promising. Although a small minority has achieved unprecedentedly high material standards of living, a vast majority lives under conditions of abject Poverty. The problems of unemployment, inflation, poverty amidst affluence, unequal distribution of wealth, frequent bouts of business recession, environmental pollution and

ecological imbalance still bedevil man's present life and threaten his future. The present book contends that the Islamic economic order has the potential of ushering in an age of human bliss; and the resources to build a free, just and responsible world for everyone on the earth.

Promoting Assessment as Learning - Ruth Dann 2012-09-10 Promoting Assessment as Learning sets out to re-examine the relationship between assessment and learning in the classroom. It argues that assessment is an important part of pupil learning, and needs to be understood by pupils in order to help them make judgements about their own progress. This timely book explores the theories of learning and assessment within the context of national tests and also through the theme of self-assessment. It offers practical approaches to help teachers translate national policy into meaningful classroom practice, and suggests ways to help pupils develop their own assessment skills through a process of consolidation, reflection and revision. This book will appeal to new and practising primary school teachers and headteachers and those on in-service courses. It will also be of interest to students on initial teacher training and higher degree courses.

The Subordinated Sex - Vern L. Bullough 1988-10-01

The Subordinated Sex traces the enduring, powerful legacy of male attitudes toward women, their sexuality,

and their roles as wives and mothers. Traditionally the creators and chroniclers of opinion, men have until recently written a history that reflects only their own convictions and impressions--a history rarely punctuated by a female voice and founded on an almost universal belief in women's inferiority. Acclaimed as a pioneering study when first published in 1973, Vern Bullough's work has since established itself as a standard in historical literature on women. Updated and revised with Sarah Slavin and Brenda Shelton, *The Subordinated Sex* is a vast survey ranging from prehistoric to contemporary times, examining a diversity of cultures, and taking into account writings from a great variety of sources. From a consideration of Babylonian legal codes to Victorian prescriptive medical pamphlets, medieval clerical treatises to Islamic erotic poetry, Bullough and his coauthors recount not only how men have portrayed women but also how they have justified their subordination of the opposite sex. In recent years, women have successfully challenged males' self-designated role as gatekeepers of written records and have found within the past a more complete view of how women lived, what they thought, and what they achieved. By focusing, however, not on women's history but on the history of men's attitudes toward their female companions, *The Subordinated Sex* reveals, more than any other single work, the conditions that sparked the feminist movement and the reasons it must inspire a change in the lives of men as well as women.
