The Soul-body Problem at Paris Ca. 1200-1250 -

Magdalena Bieniak 2010

The soul-body problem was among the most controversial issues discussed in thirteenth-century Europe, and it continues to capture much attention today as the quest to understand human identity becomes more and more urgent. What made the discussion about this problem particularly interesting in the scholastic period was the tension between the traditional dualist doctrines and a growing need to affirm the unity of the human being. This debate is frequently interpreted as a conflict between the "new" philosophy, conveyed by the rediscovered works of Aristotle and his followers,

and doctrinal requirements, especially the belief in the soul's immortality. However, a thorough examination of Parisian texts, written between approximately 1150 and 1260, leads to surprising conclusions. In *The Soul-Body Problem at Paris, ca. 1200-1250*, the study and edition of some little-known texts of Hugh of St-Cher and his contemporaries, ranging from Gilbert of Poitiers to Thomas Aquinas, reveals an extremely rich and colorful picture of the Parisian anthropological debate of the time. This book also offers an opportunity to reconsider some received views concerning medieval philosophy, such as the conviction that the notion of "person" did not play any major role in the anthropological controversies.

The text includes the 12 Steps and the 12 Traditions, fifteen personal stories from Marijuana Anonymous members, and the section, A Doctor's Opinion about Marijuana Addiction. Life with Hope is an essential resource for the marijuana addict and for anyone with a cannabis use disorder who is seeking recovery through Marijuana Anonymous (MA).

The text is ideal for newcomers, people who are in active addiction, and anyone interested learning more about how marijuana addiction affects people's lives.

Navajo Autumn - R. Allen Chappell 2013-03-04
Thomas Begay is found dead-drunk under the La Plata Bridge ...not unusual for Thomas Begay. What is unusual, is the beautiful BIA investigator Patsy Greyhorse, found lying beside him ...not drunk, or even a Navajo, but very dead nonetheless. Long time friend Charlie Yazzi, fresh from law school, risks his career ...and even his life to help his old schoolmate. The Answer seems to lie with the Yeenaaldiooshii ...should one choose to believe in such things. In the far reaches of the reservation there still are traditional Navajos living their lives with few concessions to modern mores. Guided by their strong sense of cultural heritage these outliers

remain a strong anchor for the Navajo Nation. This story follows the lives of such people, caught up in a plot that could have far reaching implications for the entire tribe. "The depth of characters and culture transcends that generally seen in novels of the genre."

Esdaille's Manual of Bibliography - Roy Bishop Stokes 2001

The study of bibliography takes various forms: a historical introduction to the development of the book over the centuries, an examination of the constituent parts of the book and methods of its description. First published in 1931 by Allen & Unwin and The Library Association, A Student's Manual of Bibliography soon established itself as a classic in its field.; its author,

Arundell Esdaile, of the British Museum, was a lecturer in bibliography at the London University School of Librarianship from 1919-1939. His professional colleague, Roy Stokes, University of British Columbia, became responsible for Esdaile's *Manual of Bibliography* with its fourth edition published in 1967. Designed for the literary student, the student librarian, and the beginning book collector, this manual assumes nothing but interest from the outset; it prepares readers for more advanced texts as they develop specialized interests.

Passage to Faith - Michael J Lee 2021-02-19

Passage to Faith is Book 1 in The Faith Today Trilogy series. *Passage to Faith* explores current scientific evidence supporting the case for the existence of a creator God. It draws on dozens of historical

testimonies of individuals who had encounters with a Supreme Being which influenced them to change their lives, and sometimes the world, for the better. Taking the reader on an evidence-based tour through the cosmos, Lee, qualified in the fields of the philosophy of futures studies, theology, literature and education, reveals a stunning degree of indwelling intelligence and beauty on display throughout the universe and on Earth. He then traces the common ground between the creation account in Genesis in the Bible and scientific cosmology, the Big Bang theory and Albert Einstein's theory of relativity. Lee discusses the faith of a wide range of people from different eras and disciplines to reinforce the conviction that God's redeeming power actively intervenes not just in nature but in history. These examples include, among others, figures from history like Joan of Arc, Nelson

Mandela and Barack and Michelle Obama, scientists and mathematicians like Copernicus, Galileo, Kepler, Newton, Faraday, Mendel, Pasteur, Pascal, George Washington Carver, Dr Wernher von Braun, Professor Christiaan Barnard and Francis S. Collins, missionaries like John Wesley, Mother Theresa, Dr David Livingstone, Dr Albert Schweitzer, and Jackie Pullinger, singers, entertainers, and actors such as Bob Dylan, Johnny Cash, Jim Reeves, Glen Campbell, Alice Cooper, Gary Cooper, John Wayne, Alfred Hitchcock, Mark Wahlberg, Mel Gibson, Sylvester Stallone, and Bear Grylls, men and women from the sports arena like George Foreman, Novak Djokovic, Simona Halep, Margaret Court and Siya Kolisi, as well as astronauts such as Dr Buzz Aldrin, David Randolph Scott and Gene Cernan. Werewolves, Wolves and the Gothic - 2017-09-15

Wolves lope across Gothic imagination. Signs of a pure animality opposed to humanity, in the figure of the werewolf they become liminal creatures that move between the human and the animal. Werewolves function as a site for exploring complex anxieties of difference – of gender, class, race, space, nation or sexuality – but the imaginative and ideological uses of wolves also reflect

back on the lives of material animals, long persecuted in their declining habitats across the world.

Werewolves therefore raise unsettling questions about the intersection of the real and the imaginary, the instability of human identities and the worldliness and political weight of the Gothic. This is the first volume concerned with the appearance of werewolves and wolves in literary and cultural texts from the mid-nineteenth century to the present. Drawing on representations of werewolves and wolves in literature, film, television and visual culture, the essays investigate the key texts of the lycanthropic canon alongside lesser-known works from the 1890s to the present. The result is an innovative study that is both theoretically aware and historically nuanced, featuring an international list of established and emerging scholars based in Britain, Europe, North

America and Australia.
