In Moonland - Miles Allinson 2021-08-31

WINNER OF THE 2022 AGE BOOK OF THE YEAR FOR FICTION HIGHLY COMMENDED IN THE 2022 VICTORIAN PREMIER'S LITERARY AWARD FOR FICTION 'A parent's love for a child, you probably know this yourself, it's pretty bottomless. It goes down into the guts of the world. But a child's love for a parent is different. It goes up. It's more ethereal. It's not quite present on the earth.' In present-day Melbourne, a man attempts to piece together the mystery of his father's apparent suicide, as his young family slowly implodes. At the ashram of Bhagwan Shree Rajneesh, in 1976, a man searching for salvation must confront his capacity for violence and darkness. And in a not-too-distant future, a woman with a life-altering decision to make travels through a climate-ravaged landscape to visit her estranged father. In Moonland is a portrait of three generations, each grappling with their own mortality. Spanning the wild idealism of the

70s through to the fragile hope of the future, it is a novel about the struggle for transcendence and the reverberating effects of family bonds. This long-awaited second outing from Miles Allinson, the multi-award-winning author of *Fever of Animals*, will affirm his reputation as one of Australia's most interesting contemporary fiction writers, and urge us to see our own political and environmental reality in a new light.

Wild Wild Guru - Subhuti Anand Waight
2019-09-19

This is the story of a Englishman who gave up a job in journalism to spend fourteen years with the controversial Indian mystic Osho, also known as Bhagwan Shree Rajneesh and frequently referred to as 'the sex guru'. His guru was always controversial

with his teachings on sex and spirituality, rumours of orgies and because he owned ninety-three Rolls Royces. Early in 1976, Subhuti travelled to India to meet Rajneesh in his ashram in Pune, became initiated as his disciple and immediately began to have mystical experiences, which he attributed to the powerful energy field surrounding the guru. He stayed for six months, participating in the ashram's notorious Encounter Group and other therapies designed to release suppressed emotions and awaken sexual energy Subhuti would stay to live and work on his master's ashrams for fourteen years, first as his press officer in Pune, India, then as editor of the community's weekly newspaper when Bhagwan and his followers shifted to Oregon, USA, and built a whole new town on the massive Big Muddy Ranch. There Subhuti was a first-hand witness to the scandals and hullabaloo that accompanied the guru, including tales of

broken bones in no-holds-barred therapy groups and Tantra groups that encouraged total sexual freedom, and the increasing hostility with the locals which would lead to Bhagwan's attempt to flee America, his arrest and imprisonment. . He was on the Oregon Ranch when Rajneesh's secretary, Ma Anand Sheela, plotted against rival cliques within the ashram as well as a range of murderous crimes against state and federal officials which feature in hit Netflix series Wild Wild Country. Yet, amidst it all, Subhuti could see the profound revolution in spirituality that Bhagwan was creating, leaving a lasting impact on our ideas about society, religion, meditation and personal transformation. According to the author's understanding, it was the controversy itself, plus Bhagwan's refusal to tread the path of a spiritual saint, that became the stepping stone to a new vision of what it means to be a spiritual seeker.

Toxic Terror - Jonathan B. Tucker
2000-02-28

In-depth case studies of twelve terrorist groups and individuals who, from 1946 to 1998, allegedly acquired or employed CBW agents. Policymakers, scholars, and the news media have been alarmed by the potential for chemical and biological weapons (CBW) terrorism, and the U.S. Congress has allocated billions of dollars for counterterrorism and "consequence management" programs. Driving these concerns are the global spread of scientific knowledge and technology relevant to CBW terrorism and the vulnerability of civilian populations to chemical and biological attacks. Notably lacking from the analysis, however, has been a careful assessment of the terrorists themselves. What types of terrorist groups or individuals are both capable of acquiring chemical and biological weapons and motivated to use them, and

for what purposes? Further, what types of toxic agents would probably be produced, and how would they be delivered? Answers to these questions would enable policymakers to prepare for the most likely contingencies. To this end, Toxic Terror provides in-depth case studies of twelve terrorist groups and individuals who, from 1946 to 1998, allegedly acquired or employed CBW agents. The cases were researched from primary sources, including court documents, interviews, and declassified government files. By comparing the twelve cases, the book identifies characteristic motivations and patterns of behavior associated with CBW terrorism and provides an empirical basis for prudent, cost-effective strategies of prevention and response.

Orson Welles - Peter Conrad 2005-01-01
A fresh, provocative look at one of the most enigmatic figures in the history of film by "one of our most acute cultural critics" (Paul Fussell) Orson Welles was a metamorphic man, a magical shape-changer who made up myths about himself and permitted

others to add to their store. On different occasions, he likened himself to Christ--mankind's redeemer--and to Lucifer--the rebel angel who brought about the fall. His persona compounded the roles he played--kings, despots, generals, captains of industry, autocratic film directors--and the more or less fictitious exploits with which he regaled other people or which they attributed to him. Hailed in childhood as a genius, he remained mystified by his own promise, unable to understand or control an intellect that he came to think of as a curse; and he ended his days shilling wine and performing magic tricks on talk shows. At times, he saw the collapse of his early ambitions as a tragedy; in other moods, he viewed his life as a humbling comedy, and settled down--like another favorite character, Shakespeare's Falstaff --to eat, drink and be irresponsibly merry. Rather than producing another conventional

biography of Welles, Peter Conrad has set out to investigate the stories Welles told about his life--the myths and secret histories hidden in films both made and unmade, in the books Welles wrote and those he read. The result takes us deep into Welles' imagination, showing how he created, then ultimately destroyed himself.

The Making of Mia - Ilana Fox 2011-08-04
Gorgeous, feel-good debut of one woman's journey from rags to bitches... When Jo Hill lands a job as a PA at GLOSS magazine, she thinks it's the job of her dreams. But it soon turns into a nightmare. As a mousy secretary with a penchant for giant bags of Maltesers and comfy shoes, Jo doesn't exactly fit in at the uber-chic office. Her boss humiliates her; her colleagues bitch about her; even the receptionist ignores her. At first, Jo's not sure why - is it her hair, her

figure, her clothes? Then she realises it's pretty much all of the above and that she'll never be like the sleek, glamorous girls flitting round the office in their Sass & Bide jeans and Gucci mules. Or will she? Jo might be overweight and overlooked, but she's different in other ways too. She's bright, ambitious and smart, and what's more, she has a plan. Reduced to tears for the umpteenth time by her boss - the gorgeous but vicious magazine publisher Joshua Garnet - Jo knows it's time for drastic action. She's had it with magazines and knows that 'discovering a whole new you' takes more than a manicure and a new MAC blusher. Jo's going to give herself the ultimate makeover and by the time she's finished, the magazine world - and Joshua - won't know what's hit them. Goodbye Jo, hello Mia - magazine diva extraordinaire.

Chemical and Biological Terrorism -

Committee on R&D Needs for Improving Civilian Medical Response to Chemical and Biological Terrorism Incidents 1999-02-26

The threat of domestic terrorism today looms larger than ever. Bombings at the World Trade Center and Oklahoma City's Federal Building, as well as nerve gas

attacks in Japan, have made it tragically obvious that American civilians must be ready for terrorist attacks. What do we need to know to help emergency and medical personnel prepare for these attacks?

Chemical and Biological Terrorism identifies the R&D efforts needed to implement recommendations in key areas: pre-incident intelligence, detection and identification of chemical and biological agents, protective clothing and equipment, early recognition that a population has been covertly exposed to a pathogen, mass casualty decontamination and triage, use of vaccines and pharmaceuticals, and the psychological effects of terror. Specific objectives for computer software development are also identified. The book addresses the differences between a biological and chemical attack, the distinct challenges to the military and civilian medical communities, and other broader issues. This

book will be of critical interest to anyone involved in civilian preparedness for terrorist attack: planners, administrators, responders, medical professionals, public health and emergency personnel, and technology designers and engineers.

This Very Body - Osho 2006

Singing and dancing, all is the voice of truth. Wide is the heaven of boundless Samadhi, Radiant the full moon of the fourfold wisdom. What remains to be sought? Nirvana is clear before him, This very place the Lotus paradise, This very body the Buddha. Remember the word 'this'. This very place the Lotus paradise... And once you have known your source, wherever you are, you are in the Lotus paradise. This very place the Lotus paradise, And this very body the Buddha. And whatsoever you do -- whatsoever, without any conditions -- is the expression of truth.

Zorba the Buddha - Acharya Rajneesh OSHO 2013

Zorba is not separate from Buddha. The West is not separate from the East. In fact, any materialism that has no values of spirituality is going to be very mundane, profane, ugly. It will not have any flights into the open sky towards the stars. It will not flower and release its fragrance; it will be just a rock. Spiritualism without materialism may have beautiful values but it is without foundations. It may create great palaces reaching to the stars, but without foundations these palaces can only be hallucinations, they cannot be real. Book jacket.

The Path of the Pole - Charles H. Hapgood
1999

Hapgood's tour de force is back in print! This riveting account of how earth's poles have flipped positions many times is the culmination of Hapgood's extensive research of Antarctica, ancient maps and the geological record. This amazing book discusses the various pole shifts in earth's history -- occurring when earth's crust slips in the inner core -- and gives evidence for each one. It also predicts future pole shifts: a planetary alignment will cause the next one on 5 May 2000! Packed with illustrations, this book is the reference other books on the subject cite over and over again. With millennium madness in full swing, this is just the book to generate even

more excitement at the unknown possibilities.

Laurel's Kitchen - Laurel Robertson 1978
Abstract: Practical recipes that hold up well over time and basic nutrition and cooking information on vegetarian eating are combined with a concern for a way of life that involves spiritual values and goals. Written for persons just embarking on a vegetarian way of life and without training in nutrition, this book will also be of interest to health professionals. The approach to vegetarianism is through basic, whole foods without emphasis on the highly concentrated or vitamin and mineral supplements. A Four Foods Groups daily guide for a meatless diet is given along with information on weight control; diet needs during pregnancy, infancy, and early childhood; menus for the week; vegetarian cooking with an international flavor, and feeding your dog without meat. The

nutrition information has been reviewed for accuracy by Dr. George Briggs of the University of California.

When She Comes Back - Ronit Plank
2021-05-09

Abandoned By Her Mother Ronit was six years old when her mother left her and her four year old sister for India to follow a cult guru. Bhagwan Shree Rajneesh, whose commune was responsible for the largest biological attack on U.S. soil, preached that children were hindrances and encouraged sterilizations among his followers. Luckily Ronit's father, who'd left the family the previous year, stepped up and brought the girls to live with him first in Newark, New Jersey, and later in Flushing, Queens. On the surface, his nurturing was the balm Ronit sought, but she soon paid a second emotional price, taking on the role of partner and confidant to him, and substitute mother to her sister. By the end of her

childhood, Ronit would discover she had lost her mother and the close and trusting relationship she once had with her father. Though they have had a relationship now for years, she grappled with the toll her mother's leaving took, measuring her self-worth by her absence. *When She Comes Back* is the story of a family trying to find itself, grownups who don't know how to be adults, and the pain a child feels when she discovers that her love for her mother is not enough to make that parent stay. *When She Comes Back* is also a story of resilience and reconciliation, how rejection by the most important person in Ronit's life ultimately led to an unflagging commitment to, and love for her own children.

OSHO: The Buddha for the Future -
Maneesha James 2018-07-15

Osho: The Buddha For the Future, serendipitously arrives in the wake of the explosive release of the Netflix documentary series, 'Wild Wild Country.' Author Maneesha James witnessed first hand, and kept a meticulous record of the creation of Osho's communes and the evolution of his work as they unfolded. This, the first volume of a trilogy, opens at the ashram in Pune, India, in the early '70's. The reader follows

this phase through Osho's public discourses on many of the ancient masters, the early experimentations with meditation techniques in which the author was personally involved, Osho's unique partnering of meditation with therapy, the introduction of 'Zorba the Buddha' and 'The Psychology of the Buddhas,' his energy work, and much more. Along with her own observations and experiences, Maneesha's interviews with numerous key players cast a whole new understanding on the remarkable years of Rajneeshpuram in Oregon. Her account fills in the gaping omissions in the Netflix docuseries - providing an, intimate, in-depth understanding of what it was like to be a modern-day seeker in a contemporary mystery school designed to help realize a daring new vision for humanity, espoused by an iconoclastic spiritual master. In addition, for those willing and able to look below the hype, the inside story behind the

political machinations – both on the part of the commune administrator and the US government – makes for a riveting read. Osho: The Buddha For the Future provides a valuable testimony to a spiritual master far ahead of his time, and is a remarkable record of the efforts of the most powerful government in the world to silence him. Beyond Enlightenment - Osho 2010 Extemporaneous talks given by the author in Mumbai, India.

2015-04-20

Explores the intertwined histories of print and protest in the United States from Reconstruction to the 2000s. Ten essays look at how protestors of all political and religious persuasions, as well as aesthetic and ethical temperaments, have used the printed page to wage battles over free speech; test racial, class, sexual, and even culinary boundaries; and to alter the moral landscape in American life.

Bioterrorism and Biocrimes - W. Seth Carus 2002

The working paper is divided into two main parts. The first part is a descriptive analysis of the illicit use of biological agents by criminals and terrorists. It draws on a series of case studies documented in the second part. The case studies describe every instance identifiable in open source materials in which a perpetrator used, acquired, or threatened to use a biological agent. While the inventory of cases is clearly

incomplete, it provides an empirical basis for addressing a number of important questions relating to both biocrimes and bioterrorism. This material should enable policymakers concerned with bioterrorism to make more informed decisions. In the course of this project, the author has researched over 270 alleged cases involving biological agents. This includes all incidents found in open sources that allegedly occurred during the 20th Century. While the list is certainly not complete, it provides the most comprehensive existing unclassified coverage of instances of illicit use of biological agents.

True to the Land - Paul van Reyk 2021-10-11
Spanning 65,000 years, this book provides a

history of food in Australia from its beginnings, with the arrival of the first peoples and their stewardship of the land, to a present where the production and consumption of food is fraught with anxieties and competing priorities. It describes how food production in Australia is subject to the constraints of climate, water, and soil, leading to centuries of unsustainable agricultural practices post-colonization. Australian food history is also the story of its xenophobia and the immigration policies pursued, which continue to undermine the image of Australia as a model multicultural society. This history of Australian food ends on a positive note, however, as Indigenous peoples take increasing control of how their food is interpreted and marketed.

Flight of the Budgerigar - Penny Olsen
2021-10

The Budgerigar is arguably Australia's best-

known bird. At the same time, it is so ubiquitous that not everyone knows that it is Australian. Nor do many realise that the multicoloured bird that comes to mind--not to mention today's super-sized, extravagantly coiffed show budgie--is as different from the free-living original as a chihuahua from a wolf. Far from the cosy domestic lives our pet budgies live today, the native budgerigar has lived millennia of boom-bust cycles in the arid inland of Australia. Life was often short; if they were not fodder for predators, they starved or had to struggle their way to districts closer to the coast. For the Warlpiri and their Arrernte neighbours around Alice Springs, the Budgerigar (in its ancestral form) was a

totem animal, featuring in art, ceremonies, songlines and legends. Since 1840, when ornithologist John Gould took living specimens to London, this little parrot has been on a remarkable journey. The Budgerigar was Australia's first mass export; its story includes British queens and nobles, Japanese princes and Hollywood stars. It has won the hearts of British spies and world leaders, including Churchill, Stalin and Kennedy. Taking the reader from the Dreamtime to the colonial live bird trade, the competitive culture of the showroom and today's thriving wild flocks, *Flight of the Budgerigar* is the authoritative history of the Budgerigar, written by respected ornithologist Dr Penny Olsen, and lavishly illustrated in full colour.
